Replacement Values calculated on 01/10/2006

Square Footage values from Fall 2005 Certified Facilities Inventory

Definitions:

Critical Deferred Maintenance --The physical conditions of a building or facility that places its occupants at risk of harm or the facility at risk of not fulfilling its functions.

Deferred Maintenance --An existing or imminent building maintenance-related deficiency from prior years that needs to be corrected, or scheduled preventive maintenance tasks that were not performed because other tasks funded within the budget were perceived to have higher priority status. The accumulation of facility components in need of repair brought about by age, use, or damage for which remedies are postponed or considered backlogged. This may include those repairs postponed due to insufficient funding.

Education and General (E&G) --Space used for teaching, research, or the preservation of knowledge, including the proportional share used for those activities in any building or facility used jointly with auxiliary enterprise, or space that is permanently unassigned. E&G space is supported by state appropriations.

Replacement Value --The value of an institution's overall campus facilities, as determined annually by the Board. The method of calculation is based upon recently approved Board project costs, with adjustments based upon room types and the institution's location within the state. Replacement values for public universities, the Lamar State Colleges, and the Texas State Technical Colleges are calculated only for E&G space. Replacement values for public health-related institutions are calculated for the NASF space. Replacement values are used to measure the validity of construction projects that are submitted to the Board for approval and are not recommended for insurance purposes.

Net Assignable Square Feet (NASF) --The sum of all areas within the interior walls of rooms on all floors of a building assigned to, or available for assignment to, an occupant or use, excluding unassigned areas. NASF includes auxiliary space and E&G space.
