Current Students

Global MBA Online Students have access to the same resources as on-campus students. In the "Current Students" section, you will find important information on advising, technical requirements, and links to course resources.

The "Advising" section is set up to assist you with the selection of classes, registration, and applying for graduation. Please pay attention to the dates specified in the calendar. The GMBA program follows the same academic calendar as the rest of the university.

All of your course materials will be delivered via WebCT, an online course management system. It is important that your computer is set up to work properly with WebCT. Links to essential plug-ins and downloads, and a getting started lesson can be found in the "Preparing for Your Online Course" section. Additionally, information to assist you in logging on to WebCT, and purchasing textbooks can be found.

In the "Course Resources" section, you will find information on proctored exams, submitting your professor for a teaching award, online services, and frequently asked questions. Should you not find what you are looking for, please do not hesitate in contacting us at gmbasupport@utdallas.edu.
