

Senior Thesis

This option is for students who are earning major honors by completing an undergraduate thesis judged by faculty in your discipline to be of exemplary quality.

The requirements for school thesis approval vary across the schools. Students should review the descriptions within the school section of the catalog and meet with your research advisor and academic advisor. If your discipline (major or school) approves your thesis, then this will be used as your Collegium V Senior Thesis also. You will need to complete a poster and give a presentation on your thesis to CV faculty and students.

Checklist

- Notify CV of intention to pursue this option during your meeting with Mr. Brunell or Ms. Kelly
- Talk to your academic advisor to see if you qualify for major/discipline honors
- Identify faculty advisor in your department
- Complete paperwork required by school and register in course if required
- Get final approval based on school/departmental requirements
- Email Ms. Brunell or Ms. Kelly your project title and supervising professor
- Write thesis based on agreement with faculty advisor
- Create CV poster based on your senior thesis
- Present Poster
