RE: Evaluation of School Administrators

Robert, please excuse my tardy response to your request for updates of review of program administrators in the School of Behavioral and Brain Sciences. During the fall semester, 2006, I solicited input from faculty for all Associate Deans and Program Heads who had been in their posts for 3 years or more. These reviews included:

Robert Stillman
Duane Buhrmester
Margaret Owen
Richard Golden
Linda Thibodeau
Tres Thompson

I will provide you copies of the review summaries, shortly.
