Research Interests

Dr. Berry's early urban and regional research helped spark the scientific revolution that occurred in geography and urban research in the 1960s. In the early 1960s he became the world's most frequently cited geographer, a ranking maintained for more than a quarter-century. After moving to Texas his inquiries turned to long-wave rhythms in the economy, society and polity. Throughout his career he has been concerned with bridging theory and practice and has been heavily involved in urban and regional planning in both advanced and developing countries. Frequently called on as an advisor, consultant, and expert witness, his contributions have been made in cities as diverse as Chicago and Calcutta, Jakarta and Melbourne and his regional development expertise has been applied in areas from Appalachia to Magellanes to Indonesia. He is the author of more than 500 books, articles, planning reports and other professional publications and he has been honored many times.

Honors

2006	Fellow, American Institute of Certified Planners.
2005	Lauréat du Prix International de Géographie "Vautrin Lud." The Vautrin Lud Prize is presented at the annual Festival International de Géographie held at Saint-Dié-des-Vosges in France, and is geography's Nobel Prize.

2004	Member, Texas Academy of Medicine, Engineering and Science (TAMEST was created in 2004. Membership is restricted to members of the National Academies).
2004	Letters Patent granting a Coat of Arms, Crest and Standard issued by the College of Arms (a branch of the Royal Household) in London.
2000	Lord of the manors of Hastingleigh, Co. Kent (Hastingleigh Court, Aldelose, Combe and Fanscombe). Lordship was anciently held by wife's ancestors.
1995	Distinguished Fellow, Southern Regional Science Association.
1991	Polykarp Kusch Lecturer, University of Texas at Dallas. The Kusch Lecture is UTD's highest faculty honor.
1990	Hon. Fellow, Weimer School of Advanced Studies in Real Estate and Land Economics and the Homer Hoyt Institute.
1989	Fellow of the British Academy. The Academy was established by Royal Charter in 1902 and is counterpart in the social sciences and humanities to the Royal Society, which exists to serve the physical and biological sciences.
1987	Fellow, American Association for the Advancement of Science.
1983	Fellow, University College, London.
1978-9	President, Association of American Geographers.
1976	A.M. (<i>hon. caus.</i>) Harvard University.
1976	Fellow, American Academy of Arts and Sciences.
1975	Elected member of National Academy of Sciences ("youngest social scientist ever to be so honored"). Membership in the Academy is described as "the highest honor that a scientist can receive from his peers save for a Nobel Prize."
1974	Research Fellow, Urban Land Institute.
1966-87	As reported in Social Science Citation Index, most frequently cited geographer each year 1966-1982 (J.W.R. Whitehand, 1985). Through 1980 citation level was several times that of second-ranked geographer. Most frequently cited geographer 1983-1987; more articles and more books in 'top twenty citation classic' listings than any other geographer (N. Wrigley and S. Matthews, 1987). Authored more "citation classics" – both books and articles – than the next several authors combined. (A.R. Bodman, 1994)
1966	Vice-President, Regional Science Association.

Awards

2007	Walter Isard Award for Scholarly Achievement, North American Council of the Regional Science Association International.
2005	Distinguished Alumnus Award, "credited with changing the course of his discipline." University of Washington, College of Arts and Sciences "Celebration of Distinction."
2005	Association of American Geographers Award for Fifty Years of Distinguished Membership.
2004	IAMOT Excellence in Research Award in the field of Technology Innovation Management. International Association for the Management of Technology.
