

Graduate Programs

UT Dallas School of Management graduate programs prepare students to innovate, lead and build value in a technology-driven society. Graduate programs stress the use of applied sciences for successful management of private and public institutions. Courses provide an opportunity to gain integrated knowledge of the functional areas of management as well as analytical tools for effective decision making. The school conducts seminars and research on specific projects designed to develop creativity and stimulate students to apply their skills in today's business world.

Our graduate programs have received national and international recognition. *Financial Times* ranks UTD's Executive MBA as one of the top programs in the world and the 24th best program in the nation.; *U.S. News and World Report* ranks the our Cohort MBA program among the top 54 full-time MBA programs in the U.S. and among the top 25 at public colleges and universities. Three of our online MBA programs – Global MBA Online, Global Leadership Executive MBA and Project Management – have been listed by *Financial Times* among the top 25 distance learning MBA providers in the world.

Key Features:
