

Undergraduate Programs

Grounded in research and experience, UT Dallas' School of Management undergraduate programs provide students with a broad preparation for a business career and help lay the foundation for further study to address ever-changing business challenges. Focusing on the rapidly changing needs of a technology-driven global society, many of the school's cutting-edge programs have been specially tailored to suit the demands of tomorrow's industry. Programs, at both the undergraduate and graduate levels, stress innovations in the latest technologies while providing the basics of business management.

Key Features:

- Bachelor of Science (B.S.) degrees in Business Administration, Accounting and Finance
- Bachelor of Science degree offers concentrations in Management Information Systems, Marketing, International Business and Entrepreneurship
- Dual Bachelor of Science in Business Administration and Biology degree option for students interested in health related fields
- Student enrollment that has recently experienced 50 percent growth, reflecting the level of the School of Management's success in offering programs that meet the needs of the business community
- Degree plans featuring 24 hours of central core classes that teach theories and analytical techniques, which can be applied to the functional areas of business such as finance and marketing
- Honors program that provides an intellectually challenging and stimulating academic experience in a unique learning environment for the best and brightest students
- Fast Track combined B.S./MBA and B.S./M.S. program available, designed to permit undergraduate students enrolled at UT Dallas to begin work on an MBA or M.S. degree before graduation
