Prospective Freshman Students

Is UTD right for me?

UTD is the right place to make your educational dreams come true. From taking a class with a Nobel Prize winning professor to just relaxing in the newly remodeled student union, UTD offers a wide variety of opportunities to grow intellectually and personally.

As a freshman student, you get to live in brand new apartments since UTD is a completely dorm-free campus! You get your own room, a kitchen, and access to the campus computer network - not to mention a sand volleyball court and pool.

UTD also offers you the kind of educational experience that will pay dividends as you prepare for a career. UTD professors are experts in areas such as space science, nanotechnology, audiology, digital forensics and cognitive science. In fact, one UTD professor is currently working on instruments that will be installed on the lander for the 2007 [mission to Mars](#).

For those seeking to enhance their education further, we offer the [Collegium V](#) honors program. This program which is described as an enrichment program as much as an honors program, offers students the opportunity to take courses that are 'a mile deep and an inch wide'.

At UTD we are *Creating the Future*.
We hope you will join us!

Student Life

With over 100 [organizations and clubs](#) on campus, there is always something to do. From Greek to ethnic to special interest to professional organizations-- there is a group for you. If not, just find 4 more like-minded individuals and start your own organization.

In addition to student organizations, [recreational sports](#), athletics, music, theatre, dance, and mind games (our intellectual competitions) will keep you involved and having fun!

Events

Throughout the fall and spring semesters, the Office of Enrollment Services hosts several events to allow students and parents to get to know UTD better. These events include our Scholars Weekends, Engineering and Computer Science Summits and Fiesta Nights. For more information about these events, please see our [events page](#).
