Save Internet Radio!

On Tuesday, 26 June, we participated in a Day of Silence along with many other Internet radio stations in the country, to protest a very potential [drastic increase in license fees](#) for Internet radio stations. They could increase by as much as [twelve hundred percent!](#) And this will mean the end of a lot of Internet radio stations - perhaps even this one.

We urge you to [write or call your representatives in Congress](#) and ask them to back a bill called the "[Internet Radio Equality Act](#)," which has already been introduced in the Senate and House of Representatives to combat the potential fees.

You can get more information at www.savenetradio.org.
