Supplemental Instruction

Supplemental Instruction (SI) is an academic support program sponsored by Learning Resources. SI provides academic assistance to students in historically difficult classes. The SI sessions help with content mastery and with learning and study strategies that are applicable to all subject areas. SI sessions are facilitated by a trained SI leader. SI leaders have taken the same course, done well, and then during the semester attend classes, take notes, and re-read all assigned materials in preparation to conduct the SI sessions three times a week.
