## From the Director

As we start the new year, we are excited to serve the UTD community by raising awareness about the issues that affect women and men on our campus, in our community, and globally by providing opportunities for exchange of ideas.

The Women's Center is staffed by caring and committed women who are available to help you find support regarding many challenges that women face. We welcome all visitors, including men, because issues that affect women also affect the men who know and care for them. We staff a licensed counselor for appointments with individuals, couples or families.

We encourage you to get involved with the Women's Center. Let us help your sorority, fraternity or service organization plan a

community service event. We work with The Friends of the Women's Center Advisory Board to plan events. If you are interested in joining our board, which meets throughout the year, please stop by and visit us. Your suggestions are always welcome!
