The Administrative Services Ci

The

Administrative Services Committee

The Committee for Administrative Services serves an important function within the SACS Reaffirmation Process at UTD: This team serves as the primary liaison between the Steering Committee and the members of all other committees across the university – and the team also serves as the primary communication link between the various SACS committees and the various program and department leaders, including the school deans and the various vice presidents. The Administrative Services team remains constantly aware of the various reviews and processes in place so that they may provide assistance when needed to ensure the smooth operation of the SACS reaffirmation process.

Administrative Services Comm

Administrative Services Committee: Members
