

Course Syllabus

Course Information

GEOS 5484 Near-Surface Geophysical Imaging

Term: Fall 2008

Classroom: WT 2.212 Tuesday 3:00 to 6:00 PM

Laboratory: Geosciences Computer Lab, FO 2.206 (moving to WT in October) and WT 2.212
9:00 AM to 1:00 PM on some Saturdays

Professor Contact Information

John Ferguson
FA 3.102C (Geosciences Department Office)
(972) 883-2410
(972) 883-2537 (fax)
ferguson@utdallas.edu

George McMechan
WT 2.204 (Center for Lithospheric Studies)
(972) 883-2419
(972) 883-2829 (fax)

Course Pre-requisites, Co-requisites, and/or Other Restrictions

Background in calculus and general physics, permission of instructor required

Course Description

Theoretical and practical aspects of geophysical data collection. The planning and execution of small scale surveys, of the type employed in engineering, groundwater and environmental site evaluations, are featured. Techniques covered include both refraction and reflection seismology and both low and high frequency, single and multi-channel ground-penetrating radar. Advantage is taken of both the similarities and complementary behaviors of seismic and radar waves. An integration, of both seismic and radar data, is emphasized in interpretation.

Student Learning Objectives/Outcomes

Students will demonstrate familiarity with the scientific literature relevant to near surface imaging.

Students will solve problems presented by the planning, execution and interpretation of GPR and seismic experiments.

Students will effectively communicate the results of the GPR and seismic experiments conducted during the course.

Required Textbooks and Materials

An Introduction to Applied and Environmental Geophysics

Author: John M. Reynolds

Publisher: John Wiley & Sons (1998)

ISBN 0-471-95555-8 (paperback)

Suggested Course Materials

Electromagnetic Methods in Applied Geophysics (Vol. 1)

Editor: Misac Nabighian

Publisher: Society of Exploration Geophysicists (1987)

ISBN 0-931830-51-6

Assignments & Academic Calendar

(Topics, Reading Assignments, Due Dates, Exam Dates)

CLASS #	TOPIC	INSTRUCTOR
	THEORETICAL BASIS	
1	SEISMOLOGY	J.F.
2	GROUND PENETRATING RADAR	G.M.
	PROPERTIES AND BEHAVIORS OF EARTH MATERIALS	
3	ACOUSTIC & ELASTIC	J.F.
4	ELECTRIC, MAGNETIC & DIELECTRIC	G.M.
	HARDWARE + ACQUISITION SOFTWARE	
5	SEISMIC (REFRACTION & REFLECTION)	J.F.
6	GPR (LOW AND HIGH FREQUENCY)	G.M.
	DATA ACQUISITION, PROCESSING & INTERPRETATION	
7	REFRACTION SEISMOLOGY	J.F.
8	SURVEY PARAMETER SELECTION AND NUMERICAL SYNTHESIS OF GPR DATA	G.M.
9	REFLECTION SEISMOLOGY	J.F.
10	IMAGING, MIGRATION & TOMOGRAPHY FOR GPR DATA	G.M.

ENVIRONMENTAL AND ENGINEERING APPLICATIONS

11 SEISMIC J.F.
 12 GPR G.M.

 APPROXIMATE DATES

LECTURES		LABS	
Aug 26	1 J		
Sept 2	2 G		
		Sept 6	RADAR lab in WT
Sept 9	6 G		
			RADAR acquisition software + equipment)
Sept 16	3 J	Sept 13	RADAR lab in WT
		Sept 20	RADAR lab in WT
Sept 23	4 G		
		Sept 27 & 28	Seismic Fieldwork
Sept 30	5 J		
		Oct 4	RADAR Fieldwork
Oct 7	NO CLASS (lab work session)		
		Oct 11	
Oct 14	MIDTERM TEST		
		Oct 18	
Oct 21	7 J		
		Oct 25	
Oct 28	8 G		
		Nov 1	RADAR field work make up if needed
Nov 4	9 J		
		Nov 8	
Nov 11	10 G		
		Nov 15	
Nov 18	11 J		
		Nov 22	
Nov 25	12 G		
		Nov 29	
Dec 2	CLASS REVIEW FOR FINAL EXAM		
Dec 9	READING WEEK		

Grading Policy

Grading will be on the basis of a midterm quiz (20%), a final exam (20%), and a final lab report (60%).

Course & Instructor Policies

Field Trip Policies

Off-campus Instruction and Course Activities

Off-campus, out-of-state, and foreign instruction and activities are subject to state law and University policies and procedures regarding travel and risk-related activities. Information regarding these rules and regulations may be found at the website address http://www.utdallas.edu/BusinessAffairs/Travel_Risk_Activities.htm. Additional information is available from the office of the school dean. Below is a description of any travel and/or risk-related activity associated with this course.

Student Conduct & Discipline

The University of Texas System and The University of Texas at Dallas have rules and regulations for the orderly and efficient conduct of their business. It is the responsibility of each student and each student organization to be knowledgeable about the rules and regulations which govern student conduct and activities. General information on student conduct and discipline is contained in the UTD publication, *A to Z Guide*, which is provided to all registered students each academic year.

The University of Texas at Dallas administers student discipline within the procedures of recognized and established due process. Procedures are defined and described in the *Rules and Regulations, Board of Regents, The University of Texas System, Part 1, Chapter VI, Section 3*, and in Title V, Rules on Student Services and Activities of the university's *Handbook of Operating Procedures*. Copies of these rules and regulations are available to students in the Office of the Dean of Students, where staff members are available to assist students in interpreting the rules and regulations (SU 1.602, 972/883-6391).

A student at the university neither loses the rights nor escapes the responsibilities of citizenship. He or she is expected to obey federal, state, and local laws as well as the Regents' Rules, university regulations, and administrative rules. Students are subject to discipline for violating the standards of conduct whether such conduct takes place on or off campus, or whether civil or criminal penalties are also imposed for such conduct.

Academic Integrity

The faculty expects from its students a high level of responsibility and academic honesty. Because the value of an academic degree depends upon the absolute integrity of the work done by the student for that degree, it is imperative that a student demonstrate a high standard of individual honor in his or her scholastic work.

Scholastic dishonesty includes, but is not limited to, statements, acts or omissions related to applications for enrollment or the award of a degree, and/or the submission as one's own work or material that is not one's own. As a general rule, scholastic dishonesty involves one of the following acts: cheating, plagiarism, collusion and/or falsifying academic records. Students suspected of academic dishonesty are subject to disciplinary proceedings.

Plagiarism, especially from the web, from portions of papers for other classes, and from any other source is unacceptable and will be dealt with under the university's policy on plagiarism (see general catalog for details). This course will use the resources of turnitin.com, which searches the web for possible plagiarism and is over 90% effective.

Email Use

The University of Texas at Dallas recognizes the value and efficiency of communication between faculty/staff and students through electronic mail. At the same time, email raises some issues concerning security and the identity of each individual in an email exchange. The university encourages all official student email correspondence be sent only to a student's U.T. Dallas email address and that faculty and staff consider email from students official only if it originates from a UTD student account. This allows the university to maintain a high degree of confidence in the identity of all individual corresponding and the security of the transmitted information. UTD furnishes each student with a free email account that is to be used in all communication with university personnel. The Department of Information Resources at U.T. Dallas provides a method for students to have their U.T. Dallas mail forwarded to other accounts.

Withdrawal from Class

The administration of this institution has set deadlines for withdrawal of any college-level courses. These dates and times are published in that semester's course catalog. Administration procedures must be followed. It is the student's responsibility to handle withdrawal requirements from any class. In other words, I cannot drop or withdraw any student. You must do the proper paperwork to ensure that you will not receive a final grade of "F" in a course if you choose not to attend the class once you are enrolled.

Student Grievance Procedures

Procedures for student grievances are found in Title V, Rules on Student Services and Activities, of the university's *Handbook of Operating Procedures*.

In attempting to resolve any student grievance regarding grades, evaluations, or other fulfillments of academic responsibility, it is the obligation of the student first to make a serious effort to resolve the matter with the instructor, supervisor, administrator, or committee with whom the grievance originates (hereafter called "the respondent"). Individual faculty members retain primary responsibility for assigning grades and evaluations. If the matter cannot be resolved at that level, the grievance must be submitted in writing to the respondent with a copy of the respondent's School Dean. If the matter is not resolved by the written response provided by the respondent, the student may submit a written appeal to the School Dean. If the grievance is not resolved by the School Dean's decision, the student may make a written appeal to the Dean of Graduate or Undergraduate Education, and the dean will appoint and convene an Academic

Appeals Panel. The decision of the Academic Appeals Panel is final. The results of the academic appeals process will be distributed to all involved parties.

Copies of these rules and regulations are available to students in the Office of the Dean of Students, where staff members are available to assist students in interpreting the rules and regulations.

Incomplete Grade Policy

As per university policy, incomplete grades will be granted only for work unavoidably missed at the semester's end and only if 70% of the course work has been completed. An incomplete grade must be resolved within eight (8) weeks from the first day of the subsequent long semester. If the required work to complete the course and to remove the incomplete grade is not submitted by the specified deadline, the incomplete grade is changed automatically to a grade of **F**.

Disability Services

The goal of Disability Services is to provide students with disabilities educational opportunities equal to those of their non-disabled peers. Disability Services is located in room 1.610 in the Student Union. Office hours are Monday and Thursday, 8:30 a.m. to 6:30 p.m.; Tuesday and Wednesday, 8:30 a.m. to 7:30 p.m.; and Friday, 8:30 a.m. to 5:30 p.m.

The contact information for the Office of Disability Services is:
The University of Texas at Dallas, SU 22
PO Box 830688
Richardson, Texas 75083-0688
(972) 883-2098 (voice or TTY)

Essentially, the law requires that colleges and universities make those reasonable adjustments necessary to eliminate discrimination on the basis of disability. For example, it may be necessary to remove classroom prohibitions against tape recorders or animals (in the case of dog guides) for students who are blind. Occasionally an assignment requirement may be substituted (for example, a research paper versus an oral presentation for a student who is hearing impaired). Classes enrolled students with mobility impairments may have to be rescheduled in accessible facilities. The college or university may need to provide special services such as registration, note-taking, or mobility assistance.

It is the student's responsibility to notify his or her professors of the need for such an accommodation. Disability Services provides students with letters to present to faculty members to verify that the student has a disability and needs accommodations. Individuals requiring special accommodation should contact the professor after class or during office hours.

Religious Holy Days

The University of Texas at Dallas will excuse a student from class or other required activities for the travel to and observance of a religious holy day for a religion whose places of worship are exempt from property tax under Section 11.20, Tax Code, Texas Code Annotated.

The student is encouraged to notify the instructor or activity sponsor as soon as possible regarding the absence, preferably in advance of the assignment. The student, so excused, will be allowed to take the exam or complete the assignment within a reasonable time after the absence: a period equal to the length of the absence, up to a maximum of one week. A student who notifies the instructor and completes any missed exam or assignment may not be penalized for the absence. A student who fails to complete the exam or assignment within the prescribed period may receive a failing grade for that exam or assignment.

If a student or an instructor disagrees about the nature of the absence [i.e., for the purpose of observing a religious holy day] or if there is similar disagreement about whether the student has been given a reasonable time to complete any missed assignments or examinations, either the student or the instructor may request a ruling from the chief executive officer of the institution, or his or her designee. The chief executive officer or designee must take into account the legislative intent of TEC 51.911(b), and the student and instructor will abide by the decision of the chief executive officer or designee.

These descriptions and timelines are subject to change at the discretion of the Professor.
