

Course MATH 1326 -502 Applied Calculus II
Professor Dr. CYRUS MALEK
Term Spring 2009
Meetings T 7:00-9:45 Jo 3.516

Professor Contact Information

Instructor: Dr. Cyrus Malek

Office:

Ph# (972)-881-5181

E-mail: cmalek@cccd.edu or
cyrusmalek@utd.edu

Hours:

T,R 6:30-7:00 or By appointment (Library 2nd floor)

Course Pre-requisites, Co-requisites, and/or Other Restrictions

MATH 1325 Applied Calculus I

Course Description

The main goal of the course is the presentation of fundamental techniques of calculus along with some applications. The concepts of integration, multivariate calculus (including partial differentiation), least square modeling, specialized differential equations and their applications, and infinite series will be developed.

Student Learning Objectives/Outcomes

Learning Outcomes

Students will be able to formulate real world problems into mathematical statements, develop solutions to mathematical problems at the level appropriate to this course and describe or demonstrate mathematical solutions either numerically or graphically.

Learning Objectives

- 1). Given a narrative description of a situation, students will be able to set up variables and relationships ready for the determination of areas of certain geometric figures, and to set up variables and relationships in preparation for the determination of financial analysis related to continuous money flows.
- 2). Given a description of problems which have already been set up in terms of variables and relationships, students will be able to apply the principles and techniques of calculus to solve optimization problems where more than one variable is subject to choice.
- 3). Given a suitable function definition, students will be able to apply techniques of integral calculus to create an appropriate graphical display, and to determine and tabulate numerical values of certain quantities.

Required Textbooks and Materials

Text : *Calculus with Applications*,
By: Lial, Greenwell and Miller, 9th edition.

Suggested Course Materials

Scientific Calculator, student solution manual

Assignments & Academic Calendar

Homework assignments for MATH 1326(subject to change)

Chapter 7:

Sec 7.1 Anti-derivatives	1-59 odd
Sec 7.2 Substitution	2,3-41odd
Sec 7.3 Area and the Definite Integral	1,3,15-19 odd
Sec 7.4 Fundamental Theorem of Calculus	1-41 E.O.O, 42,43,49,50,51,53,55,57
Sec 7.5 Area Between two curves	1,5,7,11,17,27-35 odd

Chapter 8:

Sec 8.1 Integration by Parts	1-21 odd,29,39,41
Sec 8.2 Volume and Average Value	1,3,5,7,11,15,25,27,35
Sec 8.3 Continuous Money Flow	1-19 odd

TEST #1

Sec 8.4 Improper Integrals	1-25 odd, 43, 45, 47
----------------------------	----------------------

Chapter 9:

Sec 9.1 Functions of Several Variables	1-15 odd, 21-27 odd
--	---------------------

Sec 9.2 Partial Derivatives	1-39 E.O.O., 45,47,49
Sec 9.3 Maxima and Minima	1-21 odd, 33, 35
Sec 9.4 Lagrange Multipliers	1-15 odd,19-25 odd
Sec 9.5 Total Differentials	1-19 odd
Sec 9.6 Double Integrals	1-59 E.O.O.,63,65,67,69

TEST #2

Chapter 10:

Sec 10.1 Separable Differential Equations	1-27 E.O.O., 35,37
Sec 10.2 Linear First Order Differential Equations	1-19 odd, 21,23
Sec 10.4 Application of Differential Equations	1,2,3,4,5

Chapter 12:

Sec 12.1 Geometric Sequences	1-41 odd
Sec 12.2 Annuities	1-25 odd, 31,33,35,37,41,43,45,47
Sec 12.4 Infinite Series	1-19 odd, 23,29

TEST #3

- Last day to drop with WP/WF is **March 14.**
- Last day of classes **May 4.**

Grading Policy

GRADING POLICY:

Test #1	T Feb 10	30 %	Grades:					
Test #2	T Mar 24	30%						
Test #3	T Apr 21	30%	[96-100]	A+	[93-96)	A	[90-93)	A-
			[86-90)	B+	[83-86)	B	[80-83)	B-
Final exam (comprehensive)	40%		[76-80)	C+	[73-76)	C	[70-73)	C-
	(T May 12, 7:00-9:00)		[66-70)	D+	[63-66)	D	[60-63)	D-
			Below 60 F					

****NOTE**

- The lowest chapter test will be dropped.
- Mid-term grade would be assigned based on your current test grades.

Course & Instructor Policies

- No make-up test or quiz will be given.
- Regular attendance is required.
- It is your responsibility to meet withdrawal and Incomplete deadlines assigned by the university.
- You need to have a basic scientific calculator and know how to use it.
- You need to have a basic scientific calculator and know how to use it.
- Graphing calculators, programmable calculators, or calculators with non-numeric

- displays are NOT ALLOWED on quizzes or exams.
- You are welcome to make an appointment to see me any time.
 - You can use MATHLAB located at 2nd floor library to get some extra help.
 - Cheating will not be tolerated.

Field Trip Policies

N.A.

Student Conduct & Discipline

The University of Texas System and The University of Texas at Dallas have rules and regulations for the orderly and efficient conduct of their business. It is the responsibility of each student and each student organization to be knowledgeable about the rules and regulations which govern student conduct and activities. General information on student conduct and discipline is contained in the UTD publication, *A to Z Guide*, which is provided to all registered students each academic year.

The University of Texas at Dallas administers student discipline within the procedures of recognized and established due process. Procedures are defined and described in the *Rules and Regulations, Board of Regents, The University of Texas System, Part 1, Chapter VI, Section 3*, and in Title V, Rules on Student Services and Activities of the university's *Handbook of Operating Procedures*. Copies of these rules and regulations are available to students in the Office of the Dean of Students, where staff members are available to assist students in interpreting the rules and regulations (SU 1.602, 972/883-6391).

A student at the university neither loses the rights nor escapes the responsibilities of citizenship. He or she is expected to obey federal, state, and local laws as well as the Regents' Rules, university regulations, and administrative rules. Students are subject to discipline for violating the standards of conduct whether such conduct takes place on or off campus, or whether civil or criminal penalties are also imposed for such conduct.

Technical Support

If you experience any problems with your UTD account you may send an email to: assist@utdallas.edu or call the UTD Computer Helpdesk at 972-883-2911.

Copyright Notice

The copyright law of the United States (Title 17, United States Code) governs the making of photocopies or other reproductions of copyrighted materials, including music and software. Copying, displaying, reproducing, or distributing copyrighted works may infringe the copyright owner's rights and such infringement is subject to appropriate disciplinary action as well as criminal penalties provided by federal law. Usage of such material is only appropriate when that usage constitutes "fair use" under the Copyright Act. As a UT Dallas student, you are required to follow the institution's copyright policy (Policy Memorandum 84-I.3-46). For more information about the fair use exemption, see

Academic Integrity

The faculty expects from its students a high level of responsibility and academic honesty. Because the value of an academic degree depends upon the absolute integrity of the work done by the student for that degree, it is imperative that a student demonstrate a high standard of individual honor in his or her scholastic work.

Scholastic dishonesty includes, but is not limited to, statements, acts or omissions related to applications for enrollment or the award of a degree, and/or the submission as one's own work or material that is not one's own. As a general rule, scholastic dishonesty involves one of the following acts: cheating, plagiarism, collusion and/or falsifying academic records. Students suspected of academic dishonesty are subject to disciplinary proceedings.

Plagiarism, especially from the web, from portions of papers for other classes, and from any other source is unacceptable and will be dealt with under the university's policy on plagiarism (see general catalog for details). This course will use the resources of turnitin.com, which searches the web for possible plagiarism and is over 90% effective.

Email Use

The University of Texas at Dallas recognizes the value and efficiency of communication between faculty/staff and students through electronic mail. At the same time, email raises some issues concerning security and the identity of each individual in an email exchange. The university encourages all official student email correspondence be sent only to a student's U.T. Dallas email address and that faculty and staff consider email from students official only if it originates from a UTD student account. This allows the university to maintain a high degree of confidence in the identity of all individual corresponding and the security of the transmitted information. UTD furnishes each student with a free email account that is to be used in all communication with university personnel. The Department of Information Resources at U.T. Dallas provides a method for students to have their U.T. Dallas mail forwarded to other accounts.

Withdrawal from Class

The administration of this institution has set deadlines for withdrawal of any college-level courses. These dates and times are published in that semester's course catalog. Administration procedures must be followed. It is the student's responsibility to handle withdrawal requirements from any class. In other words, I cannot drop or withdraw any student. You must do the proper paperwork to ensure that you will not receive a final grade of "F" in a course if you choose not to attend the class once you are enrolled.

Student Grievance Procedures

Procedures for student grievances are found in Title V, Rules on Student Services and Activities, of the university's *Handbook of Operating Procedures*.

In attempting to resolve any student grievance regarding grades, evaluations, or other fulfillments of academic responsibility, it is the obligation of the student first to make a serious effort to resolve the matter with the instructor, supervisor, administrator, or committee with whom the grievance originates (hereafter called "the respondent"). Individual faculty members retain primary responsibility for assigning grades and evaluations. If the matter cannot be resolved at that level, the grievance must be submitted in writing to the respondent with a copy of the respondent's School Dean. If the matter is not resolved by the written response provided by the respondent, the student may submit a written appeal to the School Dean. If the grievance is not

resolved by the School Dean's decision, the student may make a written appeal to the Dean of Graduate or Undergraduate Education, and the dean will appoint and convene an Academic Appeals Panel. The decision of the Academic Appeals Panel is final. The results of the academic appeals process will be distributed to all involved parties.

Copies of these rules and regulations are available to students in the Office of the Dean of Students, where staff members are available to assist students in interpreting the rules and regulations.

Incomplete Grade Policy

As per university policy, incomplete grades will be granted only for work unavoidably missed at the semester's end and only if 70% of the course work has been completed. An incomplete grade must be resolved within eight (8) weeks from the first day of the subsequent long semester. If the required work to complete the course and to remove the incomplete grade is not submitted by the specified deadline, the incomplete grade is changed automatically to a grade of **F**.

Disability Services

The goal of Disability Services is to provide students with disabilities educational opportunities equal to those of their non-disabled peers. Disability Services is located in room 1.610 in the Student Union. Office hours are Monday and Thursday, 8:30 a.m. to 6:30 p.m.; Tuesday and Wednesday, 8:30 a.m. to 7:30 p.m.; and Friday, 8:30 a.m. to 5:30 p.m.

The contact information for the Office of Disability Services is:

The University of Texas at Dallas, SU 22

PO Box 830688

Richardson, Texas 75083-0688

(972) 883-2098 (voice or TTY)

Essentially, the law requires that colleges and universities make those reasonable adjustments necessary to eliminate discrimination on the basis of disability. For example, it may be necessary to remove classroom prohibitions against tape recorders or animals (in the case of dog guides) for students who are blind. Occasionally an assignment requirement may be substituted (for example, a research paper versus an oral presentation for a student who is hearing impaired). Classes enrolled students with mobility impairments may have to be rescheduled in accessible facilities. The college or university may need to provide special services such as registration, note-taking, or mobility assistance.

It is the student's responsibility to notify his or her professors of the need for such an accommodation. Disability Services provides students with letters to present to faculty members to verify that the student has a disability and needs accommodations. Individuals requiring special accommodation should contact the professor after class or during office hours.

Religious Holy Days

The University of Texas at Dallas will excuse a student from class or other required activities for the travel to and observance of a religious holy day for a religion whose places of worship are exempt from property tax under Section 11.20, Tax Code, Texas Code Annotated.

The student is encouraged to notify the instructor or activity sponsor as soon as possible regarding the absence, preferably in advance of the assignment. The student, so excused, will be allowed to take the exam or complete the assignment within a reasonable time after the absence: a period equal to the length of the absence, up to a maximum of one week. A student who notifies the instructor and completes any missed exam or assignment may not be penalized for the absence. A

student who fails to complete the exam or assignment within the prescribed period may receive a failing grade for that exam or assignment.

If a student or an instructor disagrees about the nature of the absence [i.e., for the purpose of observing a religious holy day] or if there is similar disagreement about whether the student has been given a reasonable time to complete any missed assignments or examinations, either the student or the instructor may request a ruling from the chief executive officer of the institution, or his or her designee. The chief executive officer or designee must take into account the legislative intent of TEC 51.911(b), and the student and instructor will abide by the decision of the chief executive officer or designee.

These descriptions and timelines are subject to change at the discretion of the Professor.
