

Course Syllabus

Differential Calculus**Fall 2009**

10428 Math 2413.001 MWF 9:30 -10:20am JO 3.516

Instructor Information

Instructor: Dr. Bentley Garrett
Office: ECSN 3.606
Phone: 972-883-4236
E-mail: btg032000@utdallas.edu or via eLearning (see section below)*
Snailmailbox: ECSN 3.214
Office hours: MW 3:00-4:30 PM

Course Pre-requisites, Co-requisites, and/or Other Restrictions

Prerequisite: A SAT II Mathematics Level IC Test Score of at least 600, or two years of high school algebra, one year of high school geometry, trigonometry, precalculus or MATH 2312 with a grade of at least C-.

Co-requisites: You must be enrolled in one of the following problem sections.

| | | | | |
|-------|----------|---|-----------------|-----------|
| 10366 | 2013.301 | T | 11:30am -1:20pm | AH3 1.306 |
| 10369 | 2013.303 | W | 2:30-4:20 pm | FN 2.106 |
| 10373 | 2013.305 | R | 2:30-4:20 pm | AH3 1.306 |

During these sessions, the TA will review class material, review relevant material from pre-requisite courses, discuss the quizzes and exams, work problems, or have students work problems. **You will also take the quizzes at this time.** If you have questions, this is the time to ask them.

Course Description

Course covers topics in differential calculus of functions of one variable; topics include limits, continuity, derivative, chain rule, implicit differentiation, mean value theorem, maxima and minima, curve sketching, derivatives of inverse trigonometric functions, antiderivative, substitution method, and applications.

Student Learning Objectives/Outcomes

- (1) Students will be able to formulate real world problems into mathematical statements.
 - Given a narrative description of a problem that lends itself to mathematical analysis, the student will clearly define any variable quantities introduced and provide an appropriate equation, function, or formula relating those variables.
- (2) Students will be able to develop solutions to mathematical problems at the level appropriate to each course.

- Given a limit statement of indeterminate form, the student will be able to apply appropriate algebraic or calculus based techniques to compute the limit.
 - Given a function, the student will be able to compute a first or second order derivative and, if instructed, evaluate the derivative at a point in its domain.
- (3) Students will be able to describe or demonstrate mathematical solutions either numerically or graphically.
- Students will provide numerical results in a prescribed manner, as a percent, an interval, or with specified accuracy.
 - Students will provide a sketch of a function which exhibits characteristics determined via calculus based operations.

Required Textbooks and Materials

Text: *Calculus, Early Transcendentals*, 6th Edition, Stewart

Online assessment: Each student will be required to take the ALEKS assessment. Details will be provided on a separate handout.

- The assessment score is to be valued as a non-optional, non-droppable 10% of the course grade. The 10% will be proportional to your performance on the assessment.
- All students must complete the assessment by 11:59 pm August 31, 2009, otherwise their score is zero.

Suggested Course Materials

Solutions manual: The Student Solutions Manual is recommended and available in the bookstore

Calculators: Graphing calculators, programmable calculators, calculators with non-numeric displays, or with symbolic differentiation/integration capability are NOT ALLOWED on quizzes or exams.

Online resources: eLearning: <http://elearning.utdallas.edu> You must enter your NETID username and password to login to eLearning. (You may need to click the "Academic" link before you login.) Here, you will find the syllabus, problem sets, handouts, etc., as well as a record of your grades. Any messages/e-mails concerning the class will also appear on eLearning. **This is also where you should contact me; just click the Mail link/icon, click Compose Message, click Browse, and select the top name (which is mine.)**

Additional Resources:

The UTD Math Lab is located in the Success Center in CN 1.206 (phone: 972-883-6707) The hours are 10am until 8pm, Monday through Thursday; Friday and Saturday 10am until 2pm. (These may have changed.) The Math Lab provides free walk-in tutoring for students. In addition to the help available during normal operating hours, each registered student is entitled to a free, one-hour, individual tutorial per week. Individual tutorials require an appointment which are arranged via learning center personnel.

Grading Policy

Note: the grading policy will incorporate an additional quiz grade based on completion of the ALEKS.

Grade: The course grade is determined from the following:

- | | |
|--------------------|---|
| Three Major Exams: | A maximum of 100 pts each, see schedule for dates |
| 10 Quizzes: | A maximum of 25 pts each, one per week during non-exam weeks. These quizzes typically cover the Calculus I material from the previous week. The lowest 2 of these scores will be dropped. |
| 1 ALEKS Quiz | A maximum of 50 pts awarded for completion of the ALEKS assessment . THIS ASSESSMENT MUST BE COMPLETED BY 11:59 PM, THE NIGHT OF AUGUST 31. |

Comprehensive Final Exam: A maximum of 150 pts

Fri Dec 11, 7pm-9:45pm CN 1.112

Grade calculation: The course grade is a percentage of 500 possible points. The final exam contributes 150 points, or, 30% of the grade. The ALEKS assessment quiz contributes 50 points, or 10% of the grade. The remaining 300 points (60 %) are derived from the three major exams and the quiz average. Your quiz average is calculated by taking the sum of the best 8 quiz scores (the lowest 2 quiz scores are dropped) and dividing by 2. The best 3 scores from the quiz average and 3 major exams comprise the remaining 60% of the course grade.

Example 1: ALEKS = 10, Ex1=89, Ex2=75, Ex3=82, QzAve=84, Final=120. Ex2 score is dropped. Course percent $= (120+89+82+84+10)/5=77$, letter grade C⁺

Example 2: ALEKS=25, Ex1=75, Ex2=60, Ex3=68, QzAve=38, Final=120. QzAve is dropped. Course percent $= (120+60+68+75+25)/5=69.6$, letter grade D⁺

| | | | |
|-------------|------------------|-------------------|------------------|
| Grade Scale | [96.6,100]...A+ | [93.3,96.6).....A | [90,93.3).....A- |
| | [86.6,90).....B+ | [83.3,86.6).....B | [80,83.3).....B- |
| | [76.6,80).....C+ | [73.3,76.6).....C | [70,73.3).....C- |

| | [0,60).....F | | |

Course & Instructor Policies

Attendance: **Attendance is not required but it is essential that you attend every lecture to be successful in this class.**

Citizenship: Any action that disturbs your classmates or interrupts the lecture is unacceptable. Examples of such actions are:

- Entering the classroom late - be as punctual as possible.
- Leaving the classroom before break or before the end of lecture.
- Cell phones, ringers, buzzers, beepers, alarms, raspberries, blackberries - turn them off! unless you are a member of an emergency response team.

Student participation in class is desired, however, please raise your hand to speak and avoid having side conversations with your classmates.

There will be **no** extra credit

Make-up exams/quizzes:

- There will be no make-up quizzes.
- There will be no make-up exams unless the circumstances are extraordinary.
- Exams and quizzes are closed book, without notes, and without graphing calculators.
- SHOW ALL WORK on quizzes and exams. Unsupported answers are considered miracles and, while inspirational, will receive little or no credit. Graded quizzes and major exams will be returned to you as soon as possible. Any document not picked up by the end of finals week will be destroyed.
- Final exams are not returned to the student but are held for review for one year.

General University policies on Academic Integrity, Incomplete Grades, and other important topics, form part of this Syllabus, and are to be found in the version of the Syllabus posted on the UTD Website.

Field Trip Policies, Off-campus Instruction and Course Activities

Off-campus, out-of-state, and foreign instruction and activities are subject to state law and University policies and procedures regarding travel and risk-related activities. Information regarding these rules and regulations may be found at the website address

http://www.utdallas.edu/BusinessAffairs/Travel_Risk_Activities.htm. Additional information is

available from the office of the school dean. Below is a description of any travel and/or risk-related activity associated with this course.

Student Conduct & Discipline

The University of Texas System and The University of Texas at Dallas have rules and regulations for the orderly and efficient conduct of their business. It is the responsibility of each student and each student organization to be knowledgeable about the rules and regulations which govern student conduct and activities. General information on student conduct and discipline is contained in the UTD publication, *A to Z Guide*, which is provided to all registered students each academic year.

The University of Texas at Dallas administers student discipline within the procedures of recognized and established due process. Procedures are defined and described in the *Rules and Regulations, Board of Regents, The University of Texas System, Part 1, Chapter VI, Section 3*, and in Title V, Rules on Student Services and Activities of the university's *Handbook of Operating Procedures*. Copies of these rules and regulations are available to students in the Office of the Dean of Students, where staff members are available to assist students in interpreting the rules and regulations (SU 1.602, 972/883-6391).

A student at the university neither loses the rights nor escapes the responsibilities of citizenship. He or she is expected to obey federal, state, and local laws as well as the Regents' Rules, university regulations, and administrative rules. Students are subject to discipline for violating the standards of conduct whether such conduct takes place on or off campus, or whether civil or criminal penalties are also imposed for such conduct.

Academic Integrity

The faculty expects from its students a high level of responsibility and academic honesty. Because the value of an academic degree depends upon the absolute integrity of the work done by the student for that degree, it is imperative that a student demonstrate a high standard of individual honor in his or her scholastic work.

Scholastic dishonesty includes, but is not limited to, statements, acts or omissions related to applications for enrollment or the award of a degree, and/or the submission as one's own work or material that is not one's own. As a general rule, scholastic dishonesty involves one of the following acts: cheating, plagiarism, collusion and/or falsifying academic records. Students suspected of academic dishonesty are subject to disciplinary proceedings.

Plagiarism, especially from the web, from portions of papers for other classes, and from any other source is unacceptable and will be dealt with under the university's policy on plagiarism (see general catalog for details). This course will use the resources of turnitin.com, which searches the web for possible plagiarism and is over 90% effective.

Email Use

The University of Texas at Dallas recognizes the value and efficiency of communication between faculty/staff and students through electronic mail. At the same time, email raises some issues concerning security and the identity of each individual in an email exchange. The university encourages all official student email correspondence be sent only to a student's U.T. Dallas email address and that faculty and staff consider email from students official only if it originates from a UTD student account. This allows the university to maintain a high degree of confidence in the identity of all individual corresponding and the security of the transmitted information. UTD furnishes each student with a free email account that is to be used in all communication with

university personnel. The Department of Information Resources at U.T. Dallas provides a method for students to have their U.T. Dallas mail forwarded to other accounts.

Withdrawal from Class

The administration of this institution has set deadlines for withdrawal of any college-level courses. These dates and times are published in that semester's course catalog. Administration procedures must be followed. It is the student's responsibility to handle withdrawal requirements from any class. In other words, I cannot drop or withdraw any student. You must do the proper paperwork to ensure that you will not receive a final grade of "F" in a course if you choose not to attend the class once you are enrolled.

Student Grievance Procedures

Procedures for student grievances are found in Title V, Rules on Student Services and Activities, of the university's *Handbook of Operating Procedures*.

In attempting to resolve any student grievance regarding grades, evaluations, or other fulfillments of academic responsibility, it is the obligation of the student first to make a serious effort to resolve the matter with the instructor, supervisor, administrator, or committee with whom the grievance originates (hereafter called "the respondent"). Individual faculty members retain primary responsibility for assigning grades and evaluations. If the matter cannot be resolved at that level, the grievance must be submitted in writing to the respondent with a copy of the respondent's School Dean. If the matter is not resolved by the written response provided by the respondent, the student may submit a written appeal to the School Dean. If the grievance is not resolved by the School Dean's decision, the student may make a written appeal to the Dean of Graduate or Undergraduate Education, and the dean will appoint and convene an Academic Appeals Panel. The decision of the Academic Appeals Panel is final. The results of the academic appeals process will be distributed to all involved parties.

Copies of these rules and regulations are available to students in the Office of the Dean of Students, where staff members are available to assist students in interpreting the rules and regulations.

Incomplete Grade Policy

As per university policy, incomplete grades will be granted only for work unavoidably missed at the semester's end and only if 70% of the course work has been completed. An incomplete grade must be resolved within eight (8) weeks from the first day of the subsequent long semester. If the required work to complete the course and to remove the incomplete grade is not submitted by the specified deadline, the incomplete grade is changed automatically to a grade of **F**.

Disability Services

The goal of Disability Services is to provide students with disabilities educational opportunities equal to those of their non-disabled peers. Disability Services is located in room 1.610 in the Student Union. Office hours are Monday and Thursday, 8:30 a.m. to 6:30 p.m.; Tuesday and Wednesday, 8:30 a.m. to 7:30 p.m.; and Friday, 8:30 a.m. to 5:30 p.m.

The contact information for the Office of Disability Services is:
The University of Texas at Dallas, SU 22
PO Box 830688
Richardson, Texas 75083-0688
(972) 883-2098 (voice or TTY)

Essentially, the law requires that colleges and universities make those reasonable adjustments necessary to eliminate discrimination on the basis of disability. For example, it may be necessary to remove classroom prohibitions against tape recorders or animals (in the case of dog guides) for students who are blind. Occasionally an assignment requirement may be substituted (for example, a research paper versus an oral presentation for a student who is hearing impaired). Classes enrolled students with mobility impairments may have to be rescheduled in accessible facilities. The college or university may need to provide special services such as registration, note-taking, or mobility assistance.

It is the student's responsibility to notify his or her professors of the need for such an accommodation. Disability Services provides students with letters to present to faculty members to verify that the student has a disability and needs accommodations. Individuals requiring special accommodation should contact the professor after class or during office hours.

Religious Holy Days

The University of Texas at Dallas will excuse a student from class or other required activities for the travel to and observance of a religious holy day for a religion whose places of worship are exempt from property tax under Section 11.20, Tax Code, Texas Code Annotated.

The student is encouraged to notify the instructor or activity sponsor as soon as possible regarding the absence, preferably in advance of the assignment. The student, so excused, will be allowed to take the exam or complete the assignment within a reasonable time after the absence: a period equal to the length of the absence, up to a maximum of one week. A student who notifies the instructor and completes any missed exam or assignment may not be penalized for the absence. A student who fails to complete the exam or assignment within the prescribed period may receive a failing grade for that exam or assignment.

If a student or an instructor disagrees about the nature of the absence [i.e., for the purpose of observing a religious holy day] or if there is similar disagreement about whether the student has been given a reasonable time to complete any missed assignments or examinations, either the student or the instructor may request a ruling from the chief executive officer of the institution, or his or her designee. The chief executive officer or designee must take into account the legislative intent of TEC 51.911(b), and the student and instructor will abide by the decision of the chief executive officer or designee.

These descriptions and timelines are subject to change at the discretion of the Professor.
