

ALCULUS II

GREEN 3.420

11:00 -11:50 M.W.F.

INSTRUCTOR: F.R. ALLUM

(972)883-6342

(fallum@utdallas.edu)

Text: CALCULUS by LARSON, HOSTETLER & EDWARDS, 8TH EDITION  
STUDENT SOLUTION MANUAL AVAILABLE IN BOOKSTORE

You must be enrolled in problem section Math 2019-302,304, or 306.

Help is available. If difficulties arise, the following suggestions may help you:

- Ask questions in your problem section
- Contact the problem section instructor during office hours
- Visit the MATH LAB (MC2.408; (972)883-6707)
- You may be eligible for assistance through Special Services
- Contact the lecturer during office hours

**Calculators.** It is assumed that you will use a scientific calculator in this class.

Calculators with either graphing or non-numeric displays are forbidden for all quizzes and exams.

**Assignment Problems** Assignments will be selected odd numbered problems and possibly problems from the Chapter Review. Answers to these problems are given at the back of your text book. Complete solutions to many of these problems may be found in the Solutions Manual which is available in the book store. You should work several problems of each type. Don't slavishly copy the solutions from the manual. Try to work them without reference to the solutions manual. When you have finished the problem or when you have exhausted all possibilities, then you should refer to the solutions manual to verify your answer or to obtain a hint in order to complete the solution. These problems will be discussed in the problem sections.

**Problem Sections** There are 14 problem sessions this semester. At 10 of these meetings, a quiz will be given, lasting about 15 minutes. Only 8 of these quiz grades will be used in the calculation of your final grade. The T.A. conducting each section will answer questions on the assignments, supply additional background material, discuss the previous quiz, comment on your examinations and may ask you to work problems. Occasionally, the problem section may be used to remind you of material covered in previous courses and deemed essential to the present course. At all times feel free to ask questions during these problem sections.

Note: Quizzes will be given in the problem solving sections; examinations in the class meetings.

**Examinations** All students are expected to take the examinations at the announced time. Cheating will NOT be tolerated. Students are required to inform the lecturer of suspected honor code violations. On all problems, you must show your work. No work, no credit general, there will be no make up exams or quizzes (see below)

**Grade:** Each quiz will be worth 25 points. A list of Math 2417 questions on differentiation and integration is available on my home page and is attached to this syllabus. The best 8 out of the 10 quizzes (expressed as a percentage) will be used for your quiz grade

Each of the three examinations will be worth 100 points and the comprehensive final will be worth 200 points. The best 3 out of the four quiz and examination grades plus the comprehensive final will be used to calculate your final grade. The final exam must be taken.

**Example:** Student J.T.M. has the following results:

Quiz grades 20, 15, 25, 18, 25, 19, 0, 10, 25, 21

Quiz grade  $(168/200)100 = 84$  (drop 0,10)

Examination 1            75

Examination 2            60

Examination 3            72

Comprehensive final    171 (count as two exams)

Average =  $(84+75+72+171) / 5 = 80.4$  ... (a grade of B-)

### Grade Scale

96.7 - 100	A+	76.7 - 79.9	C+
93.4 - 96.6	A	73.4 - 76.6	C
90.0 - 93.3	A-	70.0 - 73.3	C-
86.7 - 89.9	B+	66.7 - 69.9	D+
83.4 - 86.6	B	63.4 - 66.6	D
80.0 - 83.3	B-	60.0 - 63.3	D-
0.0 - 59.9	F		

### Important Dates

<b>January 9</b>	<b>First class day</b>
<b>January 16</b>	<b>University Holiday</b>
<b>February 10</b>	<b>Examination I (subject to change)</b>
<b>March 06-11</b>	<b>Spring Break</b>
<b>March 16</b>	<b>See instructions in Spring 06 schedule regarding drop procedures after March 16,2005</b>

March 17	Examination II (Subject to change)
April 14	Examination III(subject to change)
April 24	Last day of classes
April 28 FRIDAY)	Comprehensive Final Exam at 7.00 PM

**Note: The comprehensive final examination is scheduled for 7.00pm FRIDAY April 28, 2006. The location will be either HH 2.402, HH on map or CN 1.112, CN on map. Details to be announced in class at the end of the semester.**

**Note: The mid-term examinations will be given in CN 1.112, CN on map at regular class time, 11.00am. February 10, March 17, and April 14 , 2006**

**Grade of Incomplete** "A grade of incomplete (X) may be assigned when a student's work has been satisfactory, but due to circumstances beyond the student's control, some part of the required work has not been completed. An X may not be assigned in lieu of an A or W. Allowing a student to "retake" an entire course during a subsequent semester regarding previous course performance, does not constitute an appropriate use of the grade of incomplete." In this course, an incomplete will only be considered if the student has a serious documentable, non-academic reason for missing more than one exam and not taking a make-up (e.g. illness in finals week).

**Problem Solving Classes (subject to change)**

CLASS #	DATE: WEEK BEGINNING	DESCRIPTION
1	09 January	NO QUIZ THIS WEEK
2	16 January	Quiz 1
3	23 January	Quiz 2
4	30 January	Quiz 3
5	06 February	NO QUIZ THIS WEEK
6	13 February	Quiz 4
7	20 February	Quiz 5
8	27 February	Quiz 6
9	13 March	NO QUIZ THIS WEEK
10	20 March	Quiz 7
11	27 March	Quiz 8
12	03 April	Quiz 9

13	10 April	NO QUIZ THIS WEEK
14	17 April	Quiz 10

**MID-TERM EXAMS AT REGULAR CLASS TIME, 11.00 am in CN 1.112**

**February 10, March 17, and April 14**

**FINAL EXAM 07:00 PM FRIDAY April 28, 2006.....**

**Location of final exam to be announced in class**

**MATH LAB HOURS**

**Monday-Thursday.....10:00 a.m. - 8:00 p.m.**

**Friday/Saturday.....10:00 a.m. - 2:00 p.m. Or by appointment (Ext. - 6707)**
