

ATEC 4328 Rigging II

Eric Farrar

Term: Spring 2013

Meeting Time: T 1:00pm – 3:45pm

ATEC 1.102

Contact Info Phone: 972-883-4365
Office: ATEC 1.904A
Email: eric.farrar@utdallas.edu
Office Hours: By appointment only

Course Description:

This course is a continuation of the Rigging I course and will continue with concepts, tools and techniques used in 3D animation for setting up clean and efficient 3D rigs that are easily and intuitively animated. Topics will include squash & stretch capabilities in rigs, basic MEL scripting, dynamics, as well as some basic animation principles for complex rigs.

Course Requirements:

Students must have completed the ATEC 3328 Rigging I course and receive instructor permission.

Course Structure:

Class sessions will consist of lectures, demonstrations, critiques, and class discussions focusing on assignments. The class format will take on a variety of styles as the subject dictates, and examples will be presented for discussion in lectures, videos and demonstrations. Attendance is required and students are expected to be participating and working in each and every class. Students are encouraged to collaborate in solving difficult technical and conceptual problems that are a part of each project.

Course Objectives:

Through the successful completion of this course students will:

- Continue to establish and refine an understanding of the basic principles of creating moveable 3D computer-generated forms
- Establish an understanding of basic dynamic simulations through the use of particle systems and rigid/soft body dynamics
- Develop a new set of vocabulary of terms and concepts related to the creation and manipulation of computer graphics
- Develop specific character setup animation skills for both collaborative and independent work in animation
- Establish a methodology for analyzing and problem solving as it relates to 3D computer-generated forms
- Continue to develop the ability to offer informed and constructive, technical and aesthetic critiques of the work of peers and of self
- Develop a practical understanding of the specific computers and software used in the course

Textbooks:

There is no required text for this course, but the following book is recommended for further discussion into advanced character rigging topics:

Body Language: Advanced 3D Character Rigging by Eric Allen & Kelly Murdock,
ISBN 978-0-470-17387-9

Available on Amazon.com

Digital-Tutors:

All students will receive an email invitation to ATEC's multi-seat subscription of the Digital-Tutors online video training series. Upon receiving the email invitation, students should sign up for a free trial membership which will allow them to access any of the video tutorials for the duration of the semester. *Please be sure to use your **UTDallas email** (i.e. etf091000@utdallas.edu) when registering for the trial membership.* Specific viewing material will be suggested and/or assigned at various times during the semester in lieu of reading assignments. In addition, Assignment 3 will make extensive use of the Digital-Tutors library of videos.

Course Materials:

Pen/Pencil

Notebook/Sketchbook

Archive materials (cd, dvd, flash drive, etc..)

Grading Policy:

Students must demonstrate satisfactory achievement of course objectives through fulfillment of course assignments and by contributing to class discussions and critiques. Course assignments will require students to use software and equipment available at the ATEC computer labs. Grades and instructor feedback will be presented via eLearning. Course evaluation will be based upon the following.

Points Required for Grade:

A	94 - 100
A-	90 - 93
B+	88 - 89
B	84 - 87
B-	80 - 83
C+	78 - 79
C	74 - 77
C-	70 - 73
D+	68 - 69
D	64 - 67
D-	60 - 63
F	Below 60 is failing

Assignment Point Values:

- Assignment 1: 25 points
- Assignment 2: 20 points
- Assignment 3: 15 points
- Final Project: 40 points
- Total: 100 points

Make-up Exams: Makeup exams are available only to students who have a legitimate excuse for missing an exam, such as illness, scheduled job interview out of town, athletic team event out of town, death in the immediate family, etc. If you know in advance that you must miss an exam, give a written notice to the instructor in advance, and bring documentation to support your anticipated absence. If you miss an exam unexpectedly because of last minute illness or accident, submit a note to the instructor when you return to campus (or as e-mail attachment if you will be away for some time) with documentation of your situation.

Second Chance: There *may* be opportunities for students to resubmit improved work for extra consideration. In order to be eligible the student must have turned in the completed assignment on its original due date and fulfilled all specified requirements. Revisions should be based upon class critique feedback.

Class Attendance: All students are required to be on time and in attendance for each and every class. Two (2) absences are allowed as personal or sick leave for this semester. Students will receive one letter grade reduction for three (3) absences. Students who accumulate four (4) absences or more should withdraw from the course due to four (4) absences resulting in a failing grade ("F ") for the course.

Punctuality: It is important to attend class on time. Persistent and reoccurring tardiness is disrespectful to the instructor and to your peers. Arriving to class more than 15 minutes late twice will be counted as one (1) absence. Every additional late arrival will result in one (1) absence. Students may leave early with instructor's permission; however, such occurrences should be very infrequent.

Late Assignments: All projects are due at the beginning of class on the posted due date and should be copied to the class Drop Box *before* class begins. Adherence to deadlines is expected. It is the individual student's responsibility to keep track of the goals and deadlines and to present the work to the class and instructor on the specified dates. Late assignments will have one letter grade deducted for each day past the due date.

Class Participation and Classroom Citizenship:

- Cell phones and pagers must be powered off during formal class hours.
- Do not talk when others (the instructor, guests, and fellow students) are talking.
- Students will not use the computers for personal reasons (e.g, check personal email, surf web) during class time.
- Participate in critique sessions and class discussions. You can learn a great deal from critique on other students' work as well on your own.

Student Conduct and Discipline:

The University of Texas System and The University of Texas at Dallas have rules and regulations for the orderly and efficient conduct of their business. It is the responsibility of each student and each student organization to be knowledgeable about the rules and regulations, which govern student conduct and activities. General information on student conduct and discipline is contained in the UTD publication, A to Z Guide, which is provided to all registered students each academic year.

The University of Texas at Dallas administers student discipline within the procedures of recognized and established due process. Procedures are defined and described in the Rules and Regulations, Board of Regents, The University of Texas System, Part 1, Chapter VI, Section 3, and in Title V, Rules on Student Services and Activities of the university's Handbook of Operating Procedures. Copies of these rules and regulations are available to students in the Office of the Dean of Students, where staff members are available to assist students in interpreting the rules and regulations (SU 1.602, 972/883-6391).

A student at the university neither loses the rights nor escapes the responsibilities of citizenship. He or she is expected to obey federal, state, and local laws as well as the Regents' Rules, university regulations, and administrative rules. Students are subject to discipline for violating the standards of conduct whether such conduct takes place on or off campus, or whether civil or criminal penalties are also imposed for such conduct.

The faculty expects from its students a high level of responsibility and academic honesty. Because the value of an academic degree depends upon the absolute integrity of the work done by the student for that degree, it is imperative that a student demonstrates a high standard of individual honor in his or her scholastic work.

Scholastic dishonesty includes, but is not limited to, statements, acts or omissions related to applications for enrollment or the award of a degree, and/or the submission as one's own work or material that is not one's

own. As a general rule, scholastic dishonesty involves one of the following acts: cheating, plagiarism, collusion and/or falsifying academic records. Students suspected of academic dishonesty are subject to disciplinary proceedings. Plagiarism, especially from the web, from portions of papers for other classes, and from any other source is unacceptable and will be dealt with under the university's policy on plagiarism (see general catalog for details). This course will use the resources of turnitin.com, which searches the web for possible plagiarism and is over 90% effective.

Copyright Violations:

It is a federal crime to reproduce copyrighted software. Anyone caught reproducing software from the UTD labs will be subject to disciplinary action. In addition, anyone caught reproducing outside software in the lab will automatically lose all lab privileges and will be subject to other disciplinary action as deemed necessary.

Email Use:

The University of Texas at Dallas recognizes the value and efficiency of communication between faculty/staff and students through electronic mail. At the same time, email raises some issues concerning security and the identity of each individual in an email exchange. The university encourages all official student email correspondence be sent only to a student's U.T. Dallas email address and that faculty and staff consider email from students official only if it originates from a UTD student account. This allows the university to maintain a high degree of confidence in the identity of all individual corresponding and the security of the transmitted information. UTD furnishes each student with a free email account that is to be used in all communication with university personnel. The Department of Information Resources at U.T. Dallas provides a method for students to have their U.T. Dallas mail forwarded to other accounts.

Withdrawal from Class:

The administration of this institution has set deadlines for withdrawal of any college-level courses. These dates and times are published in that semester's course catalog. Administration procedures must be followed. It is the student's responsibility to handle withdrawal requirements from any class. In other words, I cannot drop or withdraw any student. You must do the proper paperwork to ensure that you will not receive a final grade of "F" in a course if you choose not to attend the class once you are enrolled.

Student Grievance Procedures:

Procedures for student grievances are found in Title V, Rules on Student Services and Activities, of the university's Handbook of Operating Procedures.

In attempting to resolve any student grievance regarding grades, evaluations, or other fulfillments of academic responsibility, it is the obligation of the student first to make a serious effort to resolve the matter with the instructor, supervisor, administrator, or committee with whom the grievance originates (hereafter called "the respondent"). Individual faculty members retain primary responsibility for assigning grades and evaluations. If the matter cannot be resolved at that level, the grievance must be submitted in writing to the respondent with a copy of the respondent's School Dean. If the matter is not resolved by the written response provided by the respondent, the student may submit a written appeal to the School Dean. If the grievance is not resolved by the School Dean's decision, the student may make a written appeal to the Dean of Graduate or Undergraduate Education, and the dean will appoint and convene an Academic Appeals Panel. The decision of the Academic Appeals Panel is final. The results of the academic appeals process will be distributed to all involved parties. Copies of these rules and regulations are available to students in the Office of the Dean of Students, where staff members are available to assist students in interpreting the rules and regulations.

Incomplete Grades:

As per university policy, incomplete grades will be granted only for work unavoidably missed at the semester's end and only if 70% of the course work has been completed. An incomplete grade must be resolved within eight (8) weeks from the first day of the subsequent long semester. If the required work to complete the course and to remove the incomplete grade is not submitted by the specified deadline, the incomplete grade is changed automatically to a grade of F.

Disability Services:

The goal of Disability Services is to provide students with disabilities educational opportunities equal to those of their non-disabled peers. Disability Services is located in room 1.610 in the Student Union. Office hours are Monday and Thursday, 8:30 a.m. to 6:30 p.m.; Tuesday and Wednesday, 8:30 a.m. to 7:30 p.m.; and Friday, 8:30 a.m. to 5:30 p.m. The contact information for the Office of Disability Services is:

The University of Texas at Dallas, SU 22
PO Box 830688
Richardson, Texas 75083-0688
(972) 883-2098 (voice or TTY)

Essentially, the law requires that colleges and universities make those reasonable adjustments necessary to eliminate discrimination on the basis of disability. For example, it may be necessary to remove classroom prohibitions against tape recorders or animals (in the case of dog guides) for students who are blind. Occasionally an assignment requirement may be substituted (for example, a research paper versus an oral presentation for a student who is hearing impaired). Classes enrolled students with mobility impairments may have to be rescheduled in accessible facilities. The college or university may need to provide special services such as registration, note-taking, or mobility assistance.

It is the student's responsibility to notify his or her professors of the need for such an accommodation. Disability Services provides students with letters to present to faculty members to verify that the student has a disability and needs accommodations. Individuals requiring special accommodation should contact the professor after class or during office hours.

Religious Holidays:

The University of Texas at Dallas will excuse a student from class or other required activities for the travel to and observance of a religious holy day for a religion whose places of worship are exempt from property tax under Section 11.20, Tax Code, Texas Code Annotated.

The student is encouraged to notify the instructor or activity sponsor as soon as possible regarding the absence, preferably in advance of the assignment. The student, so excused, will be allowed to take the exam or complete the assignment within a reasonable time after the absence: a period equal to the length of the absence, up to a maximum of one week. A student who notifies the instructor and completes any missed exam or assignment may not be penalized for the absence. A student who fails to complete the exam or assignment within the prescribed period may receive a failing grade for that exam or assignment.

If a student or an instructor disagrees about the nature of the absence [i.e., for the purpose of observing a religious holy day] or if there is similar disagreement about whether the student has been given a reasonable time to complete any missed assignments or examinations, either the student or the instructor may request a ruling from the chief executive officer of the institution, or his or her designee. The chief executive officer or designee must take into account the legislative intent of TEC 51.911(b), and the student and instructor will abide by the decision of the chief executive officer or designee.

Off Campus Instruction and Course Activities:

Off-campus, out-of-state, and foreign instruction and activities are subject to state law and University policies and procedures regarding travel and risk-related activities. Information regarding these rules and regulations may be found at http://www.utdallas.edu/BusinessAffairs/Travel_Risk_Activities.htm. Additional information is available from the office of the school dean.

COURSE SCHEDULE

– *this schedule is subject to change!* Announcements will be made in class and a revised schedule and due dates will be made available online.

Week 1 (Jan. 15): Introductions; Basic Rigging Review; Dis-jointed Skeletons

- Intro to Assignment 1 - Biped Rig

Week 2 (Jan. 22): Intro to MEL; Squashy & Stretchy Rigs

- Assignment 1 Pt. 1: Skeleton with controls

Week 3 (Jan. 29): GUI Controls; Advanced Blendshapes

- Assignment 1 Pt. 2: Rough bind, WIP

Week 4 (Feb. 5): Biped Rig Critique Session; Intro to Dynamics (time permitting)

- **Assignment 1 Due** – present QuickTime of animation to class

Week 5 (Feb. 12): Dynamics: Particles & Fields

- Intro to Assignment 2 – Animated Scene

Week 6 (Feb. 19): Dynamics: Rigid Bodies/Soft Bodies

- Assignment 2 – Blocking

Week 7 (Feb. 26): Dynamics: nDynamics

- Assignment 2: WIP

Week 8 (Mar. 5): Animated Scene Critique Session; Intro to Assignment 3 - Video Tutorial Study

- **Assignment 2 Due** – present QuickTime of animation to class

Week 9 (Mar. 12): **Spring Break – No Class**

Week 10 (Mar. 19): More MEL Scripting; Tool Building

- Intro to Final Project

Week 11 (Mar. 26): Final Project WIP

- Final Project WIP

Week 12 (Apr. 2): Assignment 3 Presentations

- **Assignment 3 - Video Tutorial Study Due**

Week 13 (Apr. 9): Final Project WIP

- Final Project Cont.

Week 14 (Apr. 16): Final Project Presentations

- Refine Final Projects based on feedback

Week 15 (Apr. 23): Final Project WIP

- Final Project Cont.

Week 16 (Apr. 30): Final Project Presentations

- **Final Project Due**

These descriptions and timelines are subject to change at the discretion of the instructor.
