

Course BIOL4380 Molecular and Cell Biology Laboratory
Professor Irina Borovkov, PhD
Term Fall 2006

Meetings

		Lecture (JO3.516)	Wed	3:30 PM – 4:50 PM
		Laboratory (MP2.202)		
	101	Fri		9:00 AM – 1:00 PM
	102	Fri		2:00 PM – 6:00 PM
	103	Sat		9:00 AM - 1:00 PM

Professor's Contact Information

Office Phone 972 883 8695
Other Phone
Office Location FO2.903
Email Address ixb053000@utdallas.edu
Office Hours Wednesday 10:00-12:00
Other Information I do not read WebCT e-mail. Please, use UTD e-mail provided to contact me. The instructor will reply to student emails within 3 working days under normal circumstances.

General Course Information

Pre-requisites, Co-requisites, & other restrictions

1. Satisfactory completion of Classical and Molecular Genetics (BIO3301).
2. Satisfactory completion of Eukaryotic Molecular and Cell Biology (BIO3302).
3. Satisfactory completion of Biochemistry Laboratory (BIO3380).

Course Description

Current techniques that are utilized in a modern Molecular Biology research laboratory. Practical skills taught include monitoring bacterial growth, phenotype testing of yeast and bacterial strains, plasmid DNA isolation, restriction digest analysis, DNA cloning, and DNA fingerprinting using the polymerase chain reaction (PCR). Advanced techniques include fundamental microscopy, DNA transfection and general characterization of animal cell cultures, sub-cellular fractionation using differential centrifugation, and chemical mutagen testing

Upon completion of this class, students will be able to:

Apply understanding of scientific concepts instead of simply memorizing facts.

Master fundamental math required in the modern Molecular Biology Lab.

Learning Outcomes

Be able to make and interpret figures, charts, and graphs.

Express scientific ideas by writing them in a clear, concise, logical, and accurate manner.

Gain solid experience in basic bacterial techniques, restriction digests analysis, cloning, and PCR/DNA fingerprinting.

Become familiar with basic animal cell culturing, centrifugation, and microscopy techniques

Required Texts & Materials

The lab manual will be placed on reserve at the University Copy Center (same building as University Bookstore) (972-883-2269).

Suggested Texts, Readings, & Materials

Throughout the semester, I will suggest reading assignments from A Short Guide to Writing about Biology, by Jan Pechenik

Assignments & Academic Calendar

BIOL 4380 Class Schedule – Fall 2006

Lecture (JO3.516)

Wed 3:30 PM – 4:50 PM

Laboratory (MP2.202)

101 Fri 9:00 AM – 1:00 PM

102 Fri 2:00 PM – 6:00 PM

103 Sat 9:00 AM - 1:00 PM

Lecture	Lab	Exp #	Assignment
23 Aug	18, 19 Aug	1a	Basic bacterial techniques I – Plate pouring, sterile technique, streaking, phenotype testing, replica printing
30 Aug	25, 26 Aug	1b	Basic bacterial techniques II – Growth curves, titering,
6 Sep	8, 9 Sep	2	Gel electrophoresis of pre-digested DNA
13 Sep	15, 16 Sep	3	Cloning I – Restriction digest and ligation
20 Sep	22, 23 Sep	4**	Cloning II – Bacterial transformation
27 Sep	29, 30 Sep	5	Cloning III – Isolation of plasmid DNA, restriction digest
4 Oct	----	----	Midterm Exam
	6, 7 Oct		Lab Practical I
11 Oct	13, 14 Oct	6 7**	Cloning IV – Plasmid mapping DNA fingerprinting using PCR
18 Oct	13, 14 Oct	8	Basic cell culture techniques
25 Oct	27, 28 Oct	9	Biomembranes, Drug Delivery, and Ion Trapping
1 Nov	3, 4 Nov	10	Cell fractionation
8 Nov	10,11 Nov	11**	Ames test
15 Nov			Check results of Lab 11
	17, 18 Nov		Final Lab Practical
22 Nov			Final Exam on Experiments #1-#11,
27 Nov	----	----	Graduation Ceremony

Grading Information

You can earn a total of 1030 points for assignments in this course. A break down is presented below:

Lab Reports	500 points	Extra credit	30 points
Mid-term Exam	150 points	Mid-term Lab Practical	100 points
Final Exam	150 points	Final Lab Practical	100 points

Experiment	Assignment	Max Grade
1a,1b	Basic Bacterial Techniques I and II	50
2	Gel electrophoresis of pre-digested DNA	50
3	Cloning I – Restriction digest and ligation	25

**C
c

t
l
c**

4	Cloning II - Bacterial transformation	50	L P L C E C A 7 C A 7 C A - 7 C -
5	Cloning III – Isolation of plasmid DNA, restriction digest	25	
Exam	Midterm Exam on Experiments #1-#5	150	
Practical	Midterm Lab Practical	100	
3-6, 8	Cloning IV – Combined Report	100	
7	DNA fingerprinting using PCR	50	
8	Basic cell culture techniques	50	
9	Biomembranes and Ion Trapping	50	
10	Cell fractionation	50	
11	Ames test	50	
Practical	Final Lab Practical	100	
Exam	Final Exam on Experiments #1-#11	150	
----	Extra Credit	10	
----	Extra Credit	10	
----	Subtract lowest 50 point lab report grade or both 25 point lab reports	Minus ?	
----	Final Grade	1030	

B

670	D+		
840	B	640	D
800	B-	600	D-

You have one week (from the time a graded lab report is returned to you) to contest the severity of the grading by the TA. Except for clerical errors in the grade book, we will not consider changing the lab report grade after that week has past.

You will be given your report back in a week after submitting it except for 100 point report.

Course Policies

Grading (credit) Criteria	Grading system for each report is provided in the laboratory manual.
Make-up Exams	There is no make-up for the exams. In the event that you score poorly at the final lab practical, a re-take will be available. The highest grade that can be earned on a re-take practical will be 77 points.
Extra Credit	Additional assignments will be available during the semester for the total 20 extra points
Late Work	Lab reports should be presented a week after the lab in the beginning of the period. Late reports will be deducted 5pts per day (Monday-Friday) and 8pts for the weekend.
	You are not allowed to make up missed laboratories. In the event that you are unable to attend a different lab section because of either being admitted at a hospital or attending a medical/graduate school interview, then you will receive a "NG" (no grade) for that experiment (the first

Class Attendance	<p>occurrence will “use up” your “drop the lowest 50 point lab report grade”). A "NG" does not count for or against your course grade.</p> <p><u>When multiple sections of the course exist</u> - Attendance at a different lab section time is not allowed without prior approval from the Instructor.</p>
Student Conduct and Discipline	<p>The University of Texas System and The University of Texas at Dallas have rules and regulations for the orderly and efficient conduct of their business. It is the responsibility of each student and each student organization to be knowledgeable about the rules and regulations which govern student conduct and activities. General information on student conduct and discipline is contained in the UTD publication, <i>A to Z Guide</i>, which is provided to all registered students each academic year.</p> <p>The University of Texas at Dallas administers student discipline within the procedures of recognized and established due process. Procedures are defined and described in the <i>Rules and Regulations, Board of Regents, The University of Texas System, Part 1, Chapter VI, Section 3</i>, and in Title V, Rules on Student Services and Activities of the university's <i>Handbook of Operating Procedures</i>. Copies of these rules and regulations are available to students in the Office of the Dean of Students, where staff members are available to assist students in interpreting the rules and regulations (SU 1.602, 972/883-6391).</p> <p>A student at the university neither loses the rights nor escapes the responsibilities of citizenship. He or she is expected to obey federal, state, and local laws as well as the Regents' Rules, university regulations, and administrative rules. Students are subject to discipline for violating the standards of conduct whether such conduct takes place on or off campus, or whether civil or criminal penalties are also imposed for such conduct.</p>
Academic Integrity	<p>The faculty expects from its students a high level of responsibility and academic honesty. Because the value of an academic degree depends upon the absolute integrity of the work done by the student for that degree, it is imperative that a student demonstrate a high standard of individual honor in his or her scholastic work. Scholastic dishonesty includes, but is not limited to, statements, acts or omissions related to applications for enrollment or the award of a degree, and/or the submission as one's own work or material that is not one's own. As a general rule, scholastic dishonesty involves one of the following acts: cheating, plagiarism, collusion and/or falsifying academic records. Students suspected of academic dishonesty are subject to disciplinary proceedings.</p> <p>Plagiarism, especially from the web, from portions of papers for other classes, and from any other source is unacceptable and will be dealt with under the university's policy on plagiarism (see general catalog for details). This course will use the resources of turnitin.com, which searches the web for possible plagiarism and is over 90% effective.</p>
Email Use	<p>The University of Texas at Dallas recognizes the value and efficiency of communication between faculty/staff and students through electronic mail. At the same time, email raises some issues concerning security and the identity of each individual in an email exchange. The university encourages all official student email correspondence be sent only to a student's U.T. Dallas email address and that faculty and staff consider email from students official only if it originates from a UTD student account. This allows the university to maintain a high degree of confidence in the identity of all individual corresponding and the security of the transmitted information. UTD furnishes each student with a free email account that is to be used in all communication with university personnel. The Department of Information Resources at U.T. Dallas provides a method for students to have their U.T. Dallas mail forwarded to other accounts.</p>
Withdrawal from Class	<p>The administration of this institution has set deadlines for withdrawal of any college-level courses. These dates and times are published in that semester's course catalog. Administration procedures must be followed. It is the student's responsibility to handle withdrawal requirements from any class. In other words, I cannot drop or withdraw any student. You must do the proper paperwork to ensure that you will not receive a final grade of "F" in a course if you choose not to attend the class once you are enrolled.</p>
	<p>Procedures for student grievances are found in Title V, Rules on Student Services and Activities, of the university's <i>Handbook of Operating Procedures</i>.</p> <p>In attempting to resolve any student grievance regarding grades, evaluations, or other fulfillments of academic responsibility, it is the obligation of the student first to make a serious effort to resolve the matter with the instructor, supervisor, administrator, or committee with whom the grievance originates (hereafter called “the respondent”).</p>

<p>Student Grievance Procedures</p>	<p>Individual faculty members retain primary responsibility for assigning grades and evaluations. If the matter cannot be resolved at that level, the grievance must be submitted in writing to the respondent with a copy of the respondent's School Dean. If the matter is not resolved by the written response provided by the respondent, the student may submit a written appeal to the School Dean. If the grievance is not resolved by the School Dean's decision, the student may make a written appeal to the Dean of Graduate or Undergraduate Education, and the dean will appoint and convene an Academic Appeals Panel. The decision of the Academic Appeals Panel is final. The results of the academic appeals process will be distributed to all involved parties.</p> <p>Copies of these rules and regulations are available to students in the Office of the Dean of Students, where staff members are available to assist students in interpreting the rules and regulations.</p>
<p>Incomplete Grades</p>	<p>As per university policy, incomplete grades will be granted only for work unavoidably missed at the semester's end and only if 70% of the course work has been completed. An incomplete grade must be resolved within eight (8) weeks from the first day of the subsequent long semester. If the required work to complete the course and to remove the incomplete grade is not submitted by the specified deadline, the incomplete grade is changed automatically to a grade of F.</p>
<p>Disability Services</p>	<p>The goal of Disability Services is to provide students with disabilities educational opportunities equal to those of their non-disabled peers. Disability Services is located in room 1.610 in the Student Union. Office hours are Monday and Thursday, 8:30 a.m. to 6:30 p.m.; Tuesday and Wednesday, 8:30 a.m. to 7:30 p.m.; and Friday, 8:30 a.m. to 5:30 p.m.</p> <p style="padding-left: 40px;">The contact information for the Office of Disability Services is: The University of Texas at Dallas, SU 22 PO Box 830688 Richardson, Texas 75083-0688 (972) 883-2098 (voice or TTY)</p> <p>Essentially, the law requires that colleges and universities make those reasonable adjustments necessary to eliminate discrimination on the basis of disability. For example, it may be necessary to remove classroom prohibitions against tape recorders or animals (in the case of dog guides) for students who are blind. Occasionally an assignment requirement may be substituted (for example, a research paper versus an oral presentation for a student who is hearing impaired). Classes enrolled students with mobility impairments may have to be rescheduled in accessible facilities. The college or university may need to provide special services such as registration, note-taking, or mobility assistance.</p> <p>It is the student's responsibility to notify his or her professors of the need for such an accommodation. Disability Services provides students with letters to present to faculty members to verify that the student has a disability and needs accommodations. Individuals requiring special accommodation should contact the professor after class or during office hours.</p>
<p>Religious Holy Days</p>	<p>The University of Texas at Dallas will excuse a student from class or other required activities for the travel to and observance of a religious holy day for a religion whose places of worship are exempt from property tax under Section 11.20, Tax Code, Texas Code Annotated.</p> <p>The student is encouraged to notify the instructor or activity sponsor as soon as possible regarding the absence, preferably in advance of the assignment. The student, so excused, will be allowed to take the exam or complete the assignment within a reasonable time after the absence: a period equal to the length of the absence, up to a maximum of one week. A student who notifies the instructor and completes any missed</p>

	<p>exam or assignment may not be penalized for the absence. A student who fails to complete the exam or assignment within the prescribed period may receive a failing grade for that exam or assignment.</p> <p>If a student or an instructor disagrees about the nature of the absence [i.e., for the purpose of observing a religious holy day] or if there is similar disagreement about whether the student has been given a reasonable time to complete any missed assignments or examinations, either the student or the instructor may request a ruling from the chief executive officer of the institution, or his or her designee. The chief executive officer or designee must take into account the legislative intent of TEC 51.911 (b), and the student and instructor will abide by the decision of the chief executive officer or designee.</p>
<p>Off-Campus Instruction and Course Activities</p>	<p>Off-campus, out-of-state, and foreign instruction and activities are subject to state law and University policies and procedures regarding travel and risk-related activities. Information regarding these rules and regulations may be found at http://www.utdallas.edu/BusinessAffairs/Travel_Risk_Activities.htm. Additional information is available from the office of the school dean.</p>

These descriptions and timelines are subject to change at the discretion of the Professor.
