Data Analysis for Statisticians and Actuaries

Professor Contact Information

Dr. Dan A. Watson

ECSN 3.106

(972) 431-4220

Dan.Watson@utdallas.edu

HOURS: Tuesdays and Thursdays 7:00 – 8:15 PM, else by appointment

Course Pre-requisites, Co-requisites, and/or Other Restrictions

MATH 2419

Course Description

Methods of data analysis used in different areas of Statistics and Actuarial Science. Sampling, fitting and testing models, regression, and comparison of populations. Use of a statistical computer package will be emphasized.

Student Learning Objectives/Outcomes

Students will be able to use Statistical Data Analysis, its tools and exploratory techniques.

Basics in Probability Theory (independence and conditional distributions, probability rules, discrete and continuous distributions, random variables, their expectations and moments) will be covered.

Students will familiarize themselves with sampling distributions of commonly used statistics and learn how to use estimation and hypothesis testing to draw statistical inferences and make decisions based upon those distributions.

Required Textbooks and Materials

Introduction to Statistics and Data Analysis
by Roxy Peck, Chris Olsen, and Jay Devore
2nd Edition
ISBN 0-495-10966-5

Suggested Course Materials

Handouts and review sheets will be provided in class.

Assignments & Academic Calendar

IMPORTANT DATES AND HOLIDAYS

MARTIN LUTHER KING HOLIDAY	JANUARY 15
CENSUS DAY	JANUARY 24
FIRST TEST	FEBRUARY 8
SPRING BREAK	MARCH 5 – 10
SECOND TEST	MARCH 22
FINAL EXAM	APRIL 24, 8:00 – 10:00 PM

Grading Policy

EXAMS: There will be two mid-term exams. The mid-term exams will be over the material just covered and the final will be comprehensive,.

FINAL EXAM: A comprehensive final is mandatory. It will be given TUESDAY, April 24, from 8:00 PM to 9:45 PM, in the regular classroom and will be comprehensive, with emphasis on the material covered after the second mid-term.

GRADES: Grades will be evaluated by using the scale outlined below. The projects will altogether contribute 5% into the overall grade. The two mid-term exams will contribute 30% each and the final exam will contribute 35%.

GRADING SCALE: The final grade assignments will be based upon the class distribution of the grade averages, with 90+ guaranteed an A, 80+ guaranteed at least a B, 70+ guaranteed at least a C, and 60+ guaranteed at least a D.

Course & Instructor Policies

HOMEWORK: Homework assignments will be provided in class but will not be collected or graded. The solutions to the homework will be provided on the Library Electronic Reserve.

PROJECTS: Three projects will be assigned for each of the three course modules. Altogether, the projects contribute 5% to the overall grade.

- TESTS:** There will be two mid-term exams over the material just covered. They will be closed book, although you will be allowed an 8½ by 11-inch study sheet for formulas and notes. Each test will contribute 30% to the overall course grade. The Final Exam will be open book and comprehensive, with the emphasis on the material covered since the second mid-term exam. The Final Exam will contribute 35% to the overall course grade. See the schedule for more information.
- CALCULATOR:** A scientific calculator with two-variable statistics capability is highly recommended but not required. Calculators are permitted on exams.
- HELP:** Students' attendance is the main source of help. In-class activities are welcome. Assistance is available from the instructor (see Office Hours). The MATH LAB (MC 2.402, Monday to Thursday, 11 AM – 8 PM) is another source of high quality help.
-

TENTATIVE COURSE OUTLINE

Course Modules

- | | |
|--|----------------|
| 1 Data Collection, Description, and Analysis | Chapters 1 - 5 |
| 2 Probability, Random Variables, and Distributions | Chapters 6 – 8 |
| 3 Introduction to Inference | Chapters 9 -12 |

Class Schedule

<u>Date</u>	<u>Topic</u>
Jan. 9, 11, 16, 18, 23, 25, and 30, Feb. 1 and 6	Module 1
Feb. 8	<u>Exam over Module 1</u>
Feb. 13, 15, 20, 22 and 27, Mar. 1, 13, 15, and 20	Module 2
Mar 22	<u>Exam over Module 2</u>
Mar. 27 and 29 Apr. 3, 5, 10, 12, 17, and 19	Module 3
April 24	Final Exam, 8:00 PM

The class schedule is tentative and the material that will be covered by the mid-term exams will depend upon our progress.

Field Trip Policies

Off-campus Instruction and Course Activities

Off-campus, out-of-state, and foreign instruction and activities are subject to state law and University policies and procedures regarding travel and risk-related activities. Information regarding these rules and regulations may be found at the website address

http://www.utdallas.edu/BusinessAffairs/Travel_Risk_Activities.htm

Additional information is available from the office of the school dean. Below is a description of any travel and/or risk-related activity associated with this course.

Student Conduct & Discipline

The University of Texas System and The University of Texas at Dallas have rules and regulations for the orderly and efficient conduct of their business. It is the responsibility of each student and each student organization to be knowledgeable about the rules and regulations which govern student conduct and activities. General information on student conduct and discipline is contained in the UTD publication, *A to Z Guide*, which is provided to all registered students each academic year.

The University of Texas at Dallas administers student discipline within the procedures of recognized and established due process. Procedures are defined and described in the *Rules and Regulations, Board of Regents, The University of Texas System, Part 1, Chapter VI, Section 3*, and in Title V, Rules on Student Services and Activities of the university's *Handbook of Operating Procedures*. Copies of these rules and regulations are available to students in the Office of the Dean of Students, where staff members are available to assist students in interpreting the rules and regulations (SU 1.602, 972/883-6391).

A student at the university neither loses the rights nor escapes the responsibilities of citizenship. He or she is expected to obey federal, state, and local laws as well as the Regents' Rules, university regulations, and administrative rules. Students are subject to discipline for violating the standards of conduct whether such conduct takes place on or off campus, or whether civil or criminal penalties are also imposed for such conduct.

Academic Integrity

The faculty expects from its students a high level of responsibility and academic honesty. Because the value of an academic degree depends upon the absolute integrity of the work done by the student for that degree, it is imperative that a student demonstrate a high standard of individual honor in his or her scholastic work.

Scholastic dishonesty includes, but is not limited to, statements, acts or omissions related to applications for enrollment or the award of a degree, and/or the submission as one's own work or material that is not one's own. As a general rule, scholastic dishonesty involves one of the following acts: cheating, plagiarism, collusion and/or falsifying academic records. Students suspected of academic dishonesty are subject to disciplinary proceedings.

Plagiarism, especially from the web, from portions of papers for other classes, and from any other source is unacceptable and will be dealt with under the university's policy on plagiarism (see general catalog for details). This course will use the resources of turnitin.com, which searches the web for possible plagiarism and is over 90% effective.

Email Use

The University of Texas at Dallas recognizes the value and efficiency of communication between faculty/staff and students through electronic mail. At the same time, email raises some issues concerning security and the identity of each individual in an email exchange. The university encourages all official student email correspondence be sent only to a student's U.T. Dallas email address and that faculty and staff consider email from students official only if it originates from a UTD student account. This allows the

university to maintain a high degree of confidence in the identity of all individual corresponding and the security of the transmitted information. UTD furnishes each student with a free email account that is to be used in all communication with university personnel. The Department of Information Resources at U.T. Dallas provides a method for students to have their U.T. Dallas mail forwarded to other accounts.

Withdrawal from Class

The administration of this institution has set deadlines for withdrawal of any college-level courses. These dates and times are published in that semester's course catalog. Administration procedures must be followed. It is the student's responsibility to handle withdrawal requirements from any class. In other words, I cannot drop or withdraw any student. You must do the proper paperwork to ensure that you will not receive a final grade of "F" in a course if you choose not to attend the class once you are enrolled.

Student Grievance Procedures

Procedures for student grievances are found in Title V, Rules on Student Services and Activities, of the university's *Handbook of Operating Procedures*.

In attempting to resolve any student grievance regarding grades, evaluations, or other fulfillments of academic responsibility, it is the obligation of the student first to make a serious effort to resolve the matter with the instructor, supervisor, administrator, or committee with whom the grievance originates (hereafter called "the respondent"). Individual faculty members retain primary responsibility for assigning grades and evaluations. If the matter cannot be resolved at that level, the grievance must be submitted in writing to the respondent with a copy of the respondent's School Dean. If the matter is not resolved by the written response provided by the respondent, the student may submit a written appeal to the School Dean. If the grievance is not resolved by the School Dean's decision, the student may make a written appeal to the Dean of Graduate or Undergraduate Education, and the dean will appoint and convene an Academic Appeals Panel. The decision of the Academic Appeals Panel is final. The results of the academic appeals process will be distributed to all involved parties.

Copies of these rules and regulations are available to students in the Office of the Dean of Students, where staff members are available to assist students in interpreting the rules and regulations.

Incomplete Grade Policy

As per university policy, incomplete grades will be granted only for work unavoidably missed at the semester's end and only if 70% of the course work has been completed. An incomplete grade must be resolved within eight (8) weeks from the first day of the subsequent long semester. If the required work to complete the course and to remove the incomplete grade is not submitted by the specified deadline, the incomplete grade is changed automatically to a grade of **F**.

Disability Services

The goal of Disability Services is to provide students with disabilities educational opportunities equal to those of their non-disabled peers. Disability Services is located in room 1.610 in the Student Union. Office hours are Monday and Thursday, 8:30 a.m. to 6:30 p.m.; Tuesday and Wednesday, 8:30 a.m. to 7:30 p.m.; and Friday, 8:30 a.m. to 5:30 p.m.

The contact information for the Office of Disability Services is:
The University of Texas at Dallas, SU 22
PO Box 830688
Richardson, Texas 75083-0688
(972) 883-2098 (voice or TTY)

Essentially, the law requires that colleges and universities make those reasonable adjustments necessary to eliminate discrimination on the basis of disability. For example, it may be necessary to remove classroom prohibitions against tape recorders or animals (in the case of dog guides) for students who are blind. Occasionally an assignment requirement may be substituted (for example, a research paper versus an oral presentation for a student who is hearing impaired). Classes enrolled students with mobility impairments may have to be rescheduled in accessible facilities. The college or university may need to provide special services such as registration, note-taking, or mobility assistance.

It is the student's responsibility to notify his or her professors of the need for such an accommodation. Disability Services provides students with letters to present to faculty members to verify that the student has a disability and needs accommodations. Individuals requiring special accommodation should contact the professor after class or during office hours.

Religious Holy Days

The University of Texas at Dallas will excuse a student from class or other required activities for the travel to and observance of a religious holy day for a religion whose places of worship are exempt from property tax under Section 11.20, Tax Code, Texas Code Annotated.

The student is encouraged to notify the instructor or activity sponsor as soon as possible regarding the absence, preferably in advance of the assignment. The student, so excused, will be allowed to take the exam or complete the assignment within a reasonable time after the absence: a period equal to the length of the absence, up to a maximum of one week. A student who notifies the instructor and completes any missed exam or assignment may not be penalized for the absence. A student who fails to complete the exam or assignment within the prescribed period may receive a failing grade for that exam or assignment.

If a student or an instructor disagrees about the nature of the absence [i.e., for the purpose of observing a religious holy day] or if there is similar disagreement about whether the student has been given a reasonable time to complete any missed assignments or examinations, either the student or the instructor may request a ruling from the chief executive officer of the institution, or his or her designee. The chief executive officer or designee must take into account the legislative intent of TEC 51.911(b), and the student and instructor will abide by the decision of the chief executive officer or designee.

These descriptions and timelines are subject to change at the discretion of the Professor.
