How to Group Courses by Term

The following steps describe how to group courses by term.

**Step 1:** On the eLearning Start page is the Course List. Click on the “S” in the right hand corner.

A green tab will indicate whether the course list has been successfully updated as shown in the image below. Note each term (**2013 Spr and 2013 Sum**) has its own heading and a drop down arrow beside it that allows you to expand and reveal the classes in that term or collapse to show only the term name.
The module has been successfully updated.
