How to Upload an MP4 Video to Stream

Faculty are able to create video content for courses using a number of different tools – for example, Camtasia. Once the video is produced and an MP4 is generated, the instructor can upload that video file into Stream. Uploading your MP4 content into Stream will produce a video that is captioned for you to link into your course, allowing us to comply with accessibility requirements.

Below are instructions on how to do this.

STEP 1: UPLOAD THE MP4 FILE INTO MICROSOFT STREAM

Go to the Microsoft Stream website (<u>https://www.microsoftstream.com</u>).

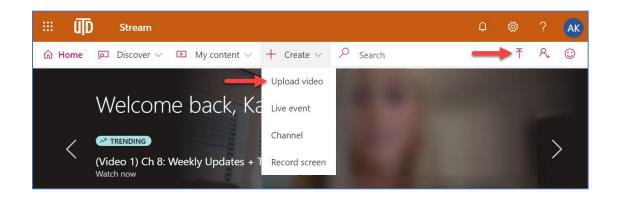

If you've never logged into Office 365 using your computer, you'll see the first screenshot below. Type in your email address using the *netid@*utdallas.edu format. Click **Next**. Follow the prompts to type in your password and authenticate using DUO.

If you *have* logged into Office 365 any time prior using your computer, you'll see the second screenshot below. Simply click your email address to continue. Follow the prompts to type in your password and authenticate using DUO, if needed.

If you have never used DUO, please see https://www.utdallas.edu/oit/howto/netidplus/

Microsoft	
Sign in	Microsoft
kxa051000@utdallas.edu	Pick an account
Can't access your account?	kxa051000@utdallas.edu

Next	Use another account

Now that you're logged in, you can upload your video by going to **Create > Upload video** or click the **Upload** button in the upper-right corner.

You can now drag your recording MP4 onto the page or click the **Browse** link to upload the Collaborate recording.

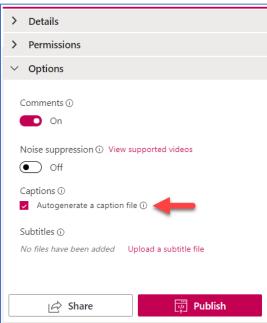

While your video is uploading...

- A. You can edit **Name**, if needed.
- B. Make sure the Video Language is set to English.
- C. Click **Options**.

Name		
UTD 1301 - Collaborate Recording (April 27, 2020)		
Description		
Create a description for your video, including #hashtags		
Video Language 🛈		
English		
Thumbnail		
e +		
> Permissions		
> Options		
Share Publish		

- D. Make sure Autogenerate a caption file box is checked.
- E. Click **Publish**.

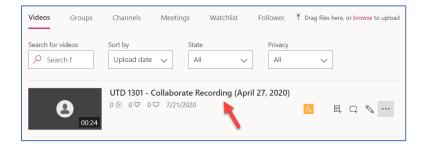

STEP 2: CHECK AND EDIT THE TRANSCRIPT, AS NEEDED

While still in Stream, go to My Content > Videos.

III 🗍 Stream		
☆ Home 🔎 Discover ∨	\blacktriangleright My content \vee	$+$ Create \vee
	Videos	Drag more
	Groups	
	Channels	

You'll now see any videos you've uploaded. Click the name of the video, and you'll now be able to view the video you've uploaded.

Notice to right of the video, you'll see a Transcript panel. Click the **Edit Transcript** button (pencil icon) if there's something that needs to be corrected. When done editing, be sure to click **Save**. (PLEASE NOTE: Depending on the video length, it could take up to a few hours for the transcript to become available.)

	Transcript	Interactivity	ŀ

STEP 3: GIVE YOUR CLASS PERMISSION TO VIEW THE VIDEO

Any videos you upload into Stream are private, by default. In order for others to be able to view the video – even if you give them the share-link to that video – you must grant that person or group permission to view it.

While still looking at your video in Stream, click the **More Actions** button (below the video), then click **Update video details**.

		Linked groups/channels
	Ģ	Add to group/channel
2		Update video details
		Trim video
Details	$\overline{\uparrow}$	Replace video
UTD 1301 - Collabor	Ŵ	Delete
Published on 7/21/2020	\downarrow	Download video
🖻 Share 🗐 Add	to wat	chlist ♡ 1 ····

You'll notice you're now able to edit many of the settings you saw earlier when you were uploading the video (in STEP 1 above). We are now going to give your class *group* permission to view the video.

In the **Permissions** box, select **My groups** from the "Share with" dropdown.

Permissions		
Allow every	ne in your company to view this video 🛈	
Share with 🛈		
My groups	✓ Search for your groups	2
People		
Channels	Owner 🛈 🛛 Disp	olay 🛈
My groups	rina (katrina.ada	

Type in your course number, and click **Search**.

Then click on your course group.

Permissions

Share with 🛈	
My groups 🛛 🗸	UTD 1301
O UTD 1301.001	
Create a channel	
📉 🙁 Adams, Katrina (katrina.ada 🔤	

You'll now see your course group listed, and it is automatically given 'Display' permission. At this point, you can add additional course groups, if you are sharing the video with multiple classes (i.e. merged courses)

Permissions	Permissions

	🗙 🦳 ABC 1301.001 🗌 🗹

This means that others in that group will only have the ability to view the video. (They will not be able to download the video.)

Now click **Apply** at the top of the page.

Your students will now be able to access the video in Stream. (For more information on how students access content in Stream, please see our "How to Access Lecture Recordings" instructions for students.)
