

Senior Project

This option is for students who are not pursuing major honors or completing a Senior Design Project in ECS or a Capstone Project in ATEC.

Students should begin thinking about Senior Projects as they start their second to last semester. Once you have focused your project ideas, you will need to have a meeting with Dr. Harpham to approve your topic. After your project has been approved, complete the following steps:

Checklist

- Notify CV of intention to pursue this option during your meeting with Ms. Brunell or Ms. Kelly
- Meet with prospective faculty supervisor for project approval and to determine topic/major specific paper requirements
- Register in HONS 4V96 CV Honors Project with an Honors faculty member
- Schedule a monthly meeting with your faculty member for entire semester
 - First meeting – Bring reading list and proposed topic
 - Second meeting – Bring outline of proposed project
 - Third meeting – Bring first draft of project
- Get final approval based on school/department requirements
- Email Ms. Brunell or Ms. Kelly your project title and supervising professor
- Create CV Poster based on your senior project
- Present Poster
- Submit completed project paper, if applicable to CV office
