AAAS Science & Technology Policy Fellowships (STPF) are the premier professional development and public service opportunity for outstanding doctoral-level scientists and engineers. Fellows serve yearlong assignments in the federal government and learn first-hand about policymaking, bring valuable STEM expertise to address societal challenges, and enhance their careers.

Each class of fellows represents a broad range of backgrounds, disciplines, and career stages. Fellows come from disciplines including social or behavioral sciences; medical or health sciences; biological, physical or earth sciences; and computational sciences or mathematics.

In recent years, fellows have served in fellowship positions in all three branches of the federal government. AAAS sponsors more than 150 placements in the executive branch, two legislative placements, and one judicial placement. In addition, 2019 applicants can apply for the Roger Revelle Fellowship in Global Stewardship, focused on environmental initiatives.

For more information, please visit: stpf-aaas.org.

**Award Stipend/ Benefits:**

Stipend: Stipends range approximately $80,000 to $105,000 per year, depending on a combination of factors including type of fellowship, fellowship sponsor (AAAS, partner society, or agency), and/or number of years of post-doctoral professional experience.

Professional Training & Travel: Fellows whose stipends are administered by AAAS receive a minimum travel/professional training allowance of $4,000. The funds may be used only for fellowship-related travel and for professional training (e.g., attending scientific conferences that pertain to the fellowship). All travel and training must be pre-approved by the host office and AAAS.
Professional Development Program: The professional development (PD) program is an integral part of the fellowship experience and includes a two-week orientation, monthly workshops and training, a career summit, special interest affinity group events, and a year-end summit. The PD curriculum is designed around learning goals and objectives developed specifically for the S&T Policy Fellowships. The learning goals and objectives support each fellow’s development as a science policy leader, and encompass four areas of learning: Policy and the Federal Government; Leadership; Communication; and Networking and Career Strategies.

Health Insurance: Health insurance is mandatory for all program participants. Fellows hired by AAAS Fellowship Programs, Inc. (AFPI) are provided company-sponsored health insurance coverage: medical, dental, vision, and prescriptions. This may not be applicable to some fellows sponsored by partner societies. Exceptions include fellows hired and paid directly by an agency: they receive health coverage via the agency under temporary employee status.

Relocation: First-year fellows who are hired by AAAS Fellowship Programs, Inc. (AFPI) are provided up to $4,000 for relocation expenses that are incurred moving from outside the greater Washington, D.C. area (see IRS Publication 521 for details). Relocation is subject to all state and local taxes. First-year fellows who are hired and paid directly by their host office are not eligible for reimbursement for moving expenses, as stipulated by federal policy.

Can the Award be Deferred? No
Can the Award be Renewed? Yes
Specific Notes/ Exceptions: Executive Branch fellows may have the option to renew for a second year. Renewal is not possible for Congressional Fellows, Judicial Fellows, or Revelle Fellows.

ELIGIBILITY

Applicant Education Level: For scientists in the biological, physical, health/medical, or social sciences, you are required to have a terminal scientific degree (Ph.D., Sc.D., M.D., D.V.M., etc.). For engineers, you do not need a Ph.D., but must have at least a master's degree in any field of engineering plus a minimum of three years of professional engineering experience (not including further academic studies).

Open To Applicants Who Have Completed An Undergraduate Degree? Yes; advanced degrees required
Open To Applicant Not Currently Enrolled In College/ University? Yes
AMERICAN ASSOCIATION FOR THE ADVANCEMENT OF SCIENCE
AAAS SCIENCE & TECHNOLOGY POLICY FELLOWSHIP

Age Limit: N/A
Open to (non-US) International Students? No
Required to Demonstrate Financial Need? No
Limited to Specific Fields of Study? Yes
Minimum GPA? N/A

Additional requirements:
In addition to being a doctoral-level scientist (or masters in engineering with work experience), an applicant cannot be a full-time, permanent federal employee. There is not an age limit or a minimum GPA requirement.

CANDIDATE PROFILE

Key Characteristics Sought by Review Committee
Candidates are evaluated and scored based on the five categories outlined below. The first category, Scientific/Technical background, is given the most weight. AAAS also seeks individuals who have a combination of leadership attributes, analytical and problem-solving abilities, and communication skills; who demonstrate commitment to this professional development opportunity and its objectives; and whose experiences and interests fit with the focus of the specific fellowship area(s) to which they are applying. A perfect score is 100 points.

Scientific/Technical Background & Professional Accomplishment (1-40 points)
Leadership & Potential (1-15 points)
Analytical & Problem-Solving Abilities (1-15 points)
Communication, Interpersonal & Outreach Skills (1-15 points)
Commitment to AAAS Fellowship Mission & Opportunities (1-15 points)

The Critical Language Scholarship (CLS) Program is an intensive overseas language and cultural immersion program for American undergraduate and graduate students enrolled at U.S. colleges and universities. Students spend eight to ten weeks abroad studying one of 15 critical languages essential to America's engagement with the world.

The CLS Program, a program of the U.S. Department of State's Bureau of Educational and Cultural Affairs, is part of a U.S. Government initiative to expand the number of Americans studying and mastering foreign languages that are critical to national security and economic prosperity. CLS provides opportunities to a diverse range of students from across the entire United States at every level of language learning.

Award Stipend/ Benefits:
The CLS Program is a full scholarship that covers all travel, tuition, and housing for the duration of the program, and includes:

- Intensive overseas group-based language courses (20+ hours per week)
- Undergraduate academic credit for a year’s worth of language classes
- Room and board, often with a host family
- Host community language partner program
- Domestic travel to Washington, DC for a required pre-departure orientation
- Round-trip international travel to program site
- Small stipend to cover incidental expenses and meals not provided by the program
- Organized group cultural excursions in the host community
- Certified American Council on the Teaching of Foreign Languages (ACTFL) Oral Proficiency Interview (OPI) score (post-program)
- Non-competitive eligibility for employment with U.S. government agencies

Can the Award be Deferred?  No
Can the Award be Renewed?  No
Specific Notes/ Exceptions:  The CLS languages offered include: Arabic, Azerbaijani, Bangla, Chinese, Hindi, Indonesian, Japanese, Korean, Persian, Portuguese, Punjabi, Russian, Swahili, Turkish, and Urdu.
Students apply for a language, not a program site, and may only apply for one language.

**ELIGIBILITY**

**Applicant Education Level**

Students must be enrolled in an accredited U.S. degree-granting program at the undergraduate (associate's, bachelor's) or graduate (master's, doctoral, professional degree) level at the time of application.

**Open To Applicants Who Have Completed An Undergraduate Degree?**

Yes

**Open To Applicant Not Currently Enrolled In College/ University?**

**Additional requirements:** Participation is limited to a total of two CLS awards for any individual. Applicants who have been selected for and participated in the CLS Program one time may apply for a second award. Applicants who have successfully completed the CLS Program two or more times are not eligible to apply again.

**CANDIDATE PROFILE**

**Key Characteristics Sought by Review Committee**

Award recipients are selected on the basis of merit, with consideration for:

- Academic record and potential to succeed in a rigorous academic setting;
- Commitment to language learning;
- Connection between the target language and career/academic goals;
- Ability to adapt to an intensive program and a challenging environment; and
- Contributions to the CLS Program and program goals.
All other factors being equal, the CLS Program gives preference to veterans of the United States armed forces. All other factors being equal, applicants are selected with the goal of representing geographic diversity and a diversity of institutions and fields of study. Preference may be given to candidates with limited or no previous study abroad experience. AWARD DETAILS

Emphasis

☑ Academic  ☑ Research  ☐ Language  ☐ Experiential  ☐ International

☑ Other: Diversity

Brief Description of the Award

Through its Fellowship Programs, the Ford Foundation seeks to increase the diversity of the nation’s college and university faculties by increasing their ethnic and racial diversity, maximize the educational benefits of diversity, and increase the number of professors who can and will use diversity as a resource for enriching the education of all students. The awards will be made to individuals who, in the judgment of the review panels, have demonstrated superior academic achievement, are committed to a career in teaching and research at the college or university level, show promise of future achievement as scholars and teachers, and are well prepared to use diversity as a resource for enriching the education of all students.

Award Stipend/ Benefits:

Annual stipend: $24,000 for three years for Predoctoral Fellows, $25,000 for one year for Dissertation Fellows, and $45,000 for one year for Postdoctoral Fellows

An invitation to attend the Conference of Ford Fellows

Access to Ford Fellow Regional Liaisons, a network of former Ford Fellows who have volunteered to provide mentoring and support to current Fellows, and access to other networking resources

Can the Award be Deferred? Yes

Can the Award be Renewed? No

Specific Notes/ Exceptions: Dissertation and Postdoctoral Fellowships may not be deferred. After the first year of fellowship tenure, Predoctoral Fellows may choose to defer funding for up to two years. All three years of support must be used within a five-year period.

ELIGIBILITY

Applicant Education Level: At least a Bachelor’s; depends on program

Open To Applicants Who Have Completed An Undergraduate Degree? Yes
Open To Applicant Not Currently Enrolled In College/University? Yes
Age Limit: N/A
Open to (non-US) International Students? No
Required to Demonstrate Financial Need? No
Limited to Specific Fields of Study? Yes
Minimum GPA? N/A

Additional requirements: All U.S. citizens, U.S. nationals, and U.S. permanent residents (holders of a Permanent Resident Card) are eligible, as well as individuals granted deferred action status under the Deferred Action for Childhood Arrivals Program, political asylees, and refugees, regardless of race, national origin, religion, gender, age, disability, or sexual orientation.

Eligibility to apply for a predoctoral fellowship is limited to:
Individuals enrolled in or planning to enroll in an eligible research-based (dissertation-required) program leading to a Ph.D. or Sc.D. degree at a non-proprietary (not for profit) U.S. institution of higher education,
Individuals who as of the 2020 fall semester require a minimum of three years of study to complete their Ph.D./Sc.D. degree, and
Individuals who have not earned a doctoral degree at any time, in any field.

Eligibility to apply for a dissertation fellowship is limited to:
Individuals enrolled in an eligible research-based (dissertation-required) program leading to a Ph.D. or Sc.D. degree at a non-proprietary (not for profit) U.S. institution of higher education who will complete the dissertation in a period of 9-12 months during the 2020-2021 academic year
Individuals who, by December 10, 2019, have completed all departmental and institutional requirements for their degree, except for writing and defense of the dissertation, and
Individuals who have not earned a doctoral degree at any time, in any field.

Eligibility to apply for a postdoctoral fellowship is limited to:
Individuals who have completed all the requirements for a Ph.D. or Sc.D. degree, including successful defense of the dissertation, no earlier than December 10, 2012 and no later than December 10, 2019 in an eligible research-based field from a U.S. institution of higher education.

AWARD DETAILS

Emphasis
☑ Academic  ☑ Research  ☑ Language  ☑ Experiential  ☑ International
☐ Other: English Teaching

Brief Description of the Award

Open Study/Research Awards: The Fulbright Study/Research Award is the traditional award opportunity where a candidate designs a proposal for a specific country.

English Teaching Assistant Awards: The Fulbright English Teaching Assistant programs place grantees in schools overseas to supplement local English language instruction and to provide a native speaker presence in the classrooms.

Fulbright–National Geographic Digital Storytelling Fellowship: The Fulbright–National Geographic Digital Storytelling Fellowship provides a unique platform for American Fulbright students to develop global narratives and discuss commonalities across borders around a common issue or theme. Trained, supported, and mentored by National Geographic Editors during their grants in one or multiple countries, Fellows will use new media platforms to help build ties across cultures while enhancing mutual understanding. The digital content that they produce will be featured online in various places, including, most prominently, a blog hosted by National Geographic.

Critical Language Enhancement Award: The Critical Language Enhancement Award provides a supplement in the Fulbright U.S. Student Program for grantees to receive between three and six months of intensive language study in addition to their research or study grants. This opportunity is available for select languages and in limited host countries.

Award Stipend/ Benefits:

GRANT BENEFITS FOR ALL FULBRIGHT U.S. STUDENT GRANTS INCLUDE:
- Round-trip transportation to the host country
- Funding to cover room, board, and incidental costs, based on the cost of living in the host country
- Accident & Sickness Health Benefits

IN SOME COUNTRIES, GRANTS MAY ALSO INCLUDE:
- Book and research allowances*
- Mid-term enrichment activities
- Full or partial tuition - Language study programs
- Pre-departure and in-country orientations
*Grantees with projects that require extensive research support, in-country travel, study materials, or equipment should explore additional funding from other sources to supplement the Fulbright funding.

Can the Award be Deferred? No
Can the Award be Renewed? No
Specific Notes/Exceptions Only some countries/awards are eligible for renewals.

INFORMATION SESSIONS

Webinars for Candidate? No
Webinars for Advisors? Yes (typically in October-November)
Brief Description of the Award
The Gates Cambridge Scholarship programme was established in October 2000 by a donation of US $210m from the Bill and Melinda Gates Foundation to the University of Cambridge; this is the largest ever single donation to a UK university. Scholarships are awarded to outstanding applicants from countries outside the UK to pursue a full-time postgraduate degree in any subject available at the University of Cambridge who meet all four criteria.

Award Stipend/ Benefits:
Core components:
- the University Composition Fee at the appropriate rate
- a maintenance allowance for a single student (£17,500 for 12 months at the 2018-2019 rate; pro rata for courses shorter than 12 months)
- one economy single airfare at both the beginning and end of the course
- inbound visa costs & the cost of the Immigration Health Surcharge

Discretionary components:
Gates Cambridge also considers applications for several types of additional funding on a discretionary basis, such as academic development funding, a family allowance, maternity/paternity funding, a fourth year of PhD funding, and hardship funding.

Can the Award be Deferred? Yes
Can the Award be Renewed? Yes

Specific Notes/ Exceptions: Deferral is possible for a maximum of one year. Gates Cambridge only considers applications for deferrals that make a good case for deferring and are strictly conditional on the University re-offering admission.

ELIGIBILITY

Applicant Education Level
 Depends on the course being applied for. All courses will require an undergraduate degree, some may require a masters or other degree - or professional experience.

Open To Applicant Not Currently Enrolled In College/ University? Yes
Age Limit: N/A
Open to (non-US) International Students? Yes (UK citizens not eligible)
Required to Demonstrate Financial Need? No
Limited to Specific Fields of Study? No

Minimum GPA? While Gates Cambridge does not require a minimum GPA in order to be considered for funding, the University requires a minimum GPA for entry (Bachelor’s degree with an overall grade of GPA 3.5/4; GPA 4.3/5; GPA 3.8/4.3 OR If the academic requirement of the course is a first: Bachelor’s degree with an overall grade of GPA 3.7/4; GPA 4.6/5; GPA 4.0/4.3). In addition, to be considered by Gates Cambridge applicants must be nominated by departments as one of the academically most outstanding applicants. This means nominated applicants will have a very high GPA (or equivalent). Those who are interviewed by Gates Cambridge usually have GPAs that range between 3.7 and 4.0, with an average of 3.9.

CANDIDATE PROFILE

Key Characteristics Sought by Review Committee
The selection criteria are:
(1) Academic excellence
(2) A good academic fit with Cambridge
(3) Leadership potential and
(4) A commitment to improving the lives of others

**Brief Description of the Award**
The Hertz Foundation provides unique financial and fellowship support to the nation’s most remarkable PhD students in the physical, biological, and engineering sciences. The Graduate Fellowship Award is based on merit (not need) and consists of a cost-of-education allowance and a personal-support stipend. The cost-of-education allowance is accepted by all of the participating schools in lieu of all fees and tuition. Hertz Fellows therefore have no liability for any ordinary educational costs, regardless of their choice among participating schools.

**Award Stipend/ Benefits:** Successful applicants have the choice of two options:

**Option 1 – Funding from Hertz Foundation only:**
- $34,000/ 9-month personal stipend
- Full tuition equivalent
- Renewable up to 5 years
- $5,000/year additional stipend for Fellows with dependent children

**Option 2 – Coordination with Other Major Fellowship:**
Often Hertz awardees are also chosen to receive fellowship support from other sources. Hertz supports acceptance of multiple awards and works with each awardee, on an individual basis, to ensure compliance with all funding agencies.

One example of a Coordinated Fellowship:

**Coordination with a 3-Year NSF Fellowship**
- Hertz Period: Full tuition equivalent and $40,000/9-month personal stipend
- NSF Period: $8,000/year supplemental stipend from Hertz
- Renewable for up to 5 years
- $5,000/year additional stipend for Fellows with dependent children

**Can the Award be Deferred?** Yes

**Can the Award be Renewed?** Yes

**Specific Notes/ Exceptions:** The Hertz Fellowship is a five year fellowship that is renewed annually.
ELIGIBILITY

**Applicant Education Level:** College seniors wishing to pursue a PhD degree in any of the fields of particular interest to the Foundation, as well as graduate students already in the process of doing so, may apply. We generally do not award fellowships to students who are already beyond their first year of graduate study except in cases of "exceptional leverage." Such awards are very rare—only three have been made in the past 10 years.

**Open To Applicants Who Have Completed An Undergraduate Degree?** Yes

**Open To Applicant Not Currently Enrolled In College/ University?** Yes

**Age Limit:** Typically awarded to early career candidates

**Open to (non-US) International Students?** Some: Must be a citizen or permanent resident of the USA

**Required to Demonstrate Financial Need?** No

**Limited to Specific Fields of Study?** Yes: Applied physical, biological, and engineering sciences

**Additional Requirements:** We do not support students pursuing advanced professional degrees other than the PhD, such as enrollees in MD, LLD or MBA programs, although we will support the PhD portion of a joint MD/PhD study program. Check our website: http://www.hertzfoundation.org

CANDIDATE PROFILE

**Key Characteristics Sought by Review Committee**
We screen Fellowship applicants for qualities the Foundation believes are essential ingredients of future professional accomplishment and/or reasonably reliable leading indicators of future professional success. These include: exceptional intelligence and creativity with particular emphasis on those aspects pertinent to technical endeavors; excellent technical education evidenced not only by transcripts and reference reports from senior technical professionals, but also by the results of a personal, technical interview; orientation and commitment to the applications of the physical sciences as is typical of most applicants; extraordinary accomplishment in technical or related professional studies, which may offset slightly lower academic records, or add luster to outstanding ones; features of temperament and character conducive to high attainment as a technical professional, the assessment of which is difficult, albeit important to the Foundation; appropriate moral and ethical values of considerable interest to the Foundation in the furthering of our basic goals; and leverage - what difference the award
of the Hertz Fellowship is likely to make in the kind, quality, and/or personal creativity of
the student's graduate research.

**Brief Description of the Award**

The Humanity in Action Fellowship brings together international groups of Fellows for a month-long educational program on human rights, pluralism and democracy in one of our program cities, followed by a local community project that each participant designs and implements.

The objective of the Humanity in Action Fellowship programs is to facilitate a collective exploration of the social and political roots of discrimination, as well as to provide a forum where potential solutions to some of today’s most challenging issues can be considered and discussed. The programs are also intended to instill a responsibility among Humanity in Action Fellows to recognize and address the need to protect minorities and promote human rights—in their own communities and around the world.

Brief Description of the Award
The ultimate aim of the ICWA fellowship program is to cultivate deep expertise in foreign countries and cultures. We achieve that by supporting fellows over two-year periods during which they carry out immersive programs of self-designed, independent study abroad. An ICWA fellowship represents a generous investment in a fellow’s future.

Award Stipend/ Benefits:
The institute provides full financial support for its fellows and their immediate, accompanying families. “Full financial support” does not mean that ICWA provides a salary or stipend to its fellows. Rather, the institute provides them with sufficient funding to cover their expenses, enabling them to fulfill the purposes of the fellowship and allowing them and their families (if accompanying the fellow) to live in good health and reasonable comfort. “Full financial support” also does not mean unlimited financial support; fellows are expected to live and spend modestly.

Can the Award be Deferred?    No
Can the Award be Renewed?    No

ELIGIBILITY

Applicant Education Level:    No education requirement
Open To Applicants Who Have Completed An Undergraduate Degree?    Yes
Open To Applicant Not Currently Enrolled In College/ University?    Yes
Age Limit:    36
Open to (non-US) International Students?    Yes
Required to Demonstrate Financial Need?    No
Limited to Specific Fields of Study?    No
Minimum GPA?    N/A
Additional requirements: Applicants must have excellent written and spoken English-language skills and must have completed the current phase of their formal education (though no education requirement). We do not accept applications from currently enrolled undergraduate students. U.S. citizenship is not a requirement, but candidates must show strong and credible ties to U.S. society. Fellowships are not scholarships. We do not support degree programs at universities, the writing of books or research projects aimed at answering specific questions in a particular academic discipline. We expect candidates to have the necessary language skills to allow to them to carry out their proposed project.

CANDIDATE PROFILE

Key Characteristics Sought by Review Committee
ICWA’s mission is to identify and cultivate rare potential, so we are looking for promise, curiosity, and enthusiasm in our candidates. We consider whether a candidate is ready for the rapid personal growth the fellowship makes possible. Candidates with a passion for their project country and who are sufficiently prepared to take advantage of the opportunity we offer have the best chance of being awarded an ICWA fellowship. Strong candidates generally propose compelling fellowship topics. We are naturally drawn to areas of the world and topics that are less well understood and are relevant to the United States. We also look for strong writers or those who show strong writing potential and willingness to improve.

THE HENRY LUCE FOUNDATION
THE LUCE SCHOLARSHIP PROGRAM

AWARD DETAILS

Emphasis
☑ Academic  ☐ Research  ☑ Language  ☑ Experiential  ☑ International

Brief Description of the Award
The Luce Scholars Program is a nationally competitive fellowship program. It was launched by the Henry Luce Foundation in 1974 to enhance the understanding of Asia among potential leaders in American Society. The program provides stipends, language training, and individualized professional placement in Asia for 15-18 Luce Scholars each year, and welcomes applications from college seniors, graduate students, and young professionals in a variety of fields who have had limited exposure to Asia.

Award Stipend/ Benefits:
$26,000 ($32,000 with spouse), plus funds for country-specific cost-of-living adjustment and housing subsidy, all program related travel expenses, language training throughout the Luce year, and individualized professional placement.

Can the Award be Deferred?
No

Can the Award be Renewed?
No

Specific Notes/Exceptions: The program is unique among American-Asian exchanges in that it is intended for young leaders who have had limited experiences of Asia and who might not otherwise have an opportunity in the normal course of their careers to come to know Asia. Those who major in Asian Studies or have lived in Asia for over 18 weeks are not eligible.

ELIGIBILITY

Applicant Education Level
Undergraduate or above (Applicants can apply during their senior year, but must have obtained an undergraduate degree by the time they begin their Luce year in Asia.)

CANDIDATE PROFILE

Key Characteristics Sought by Review Committee
To be successful, candidates must demonstrate an outstanding capacity for leadership, have a record of high achievement, and have mature and clearly defined career interests with evidence of potential for professional accomplishments. All fields except Asian Studies will be considered. Important personal qualities of a successful Luce Scholar include flexibility, adaptability, resilience, creativity, a sense of humility, openness, and sensitivity to cultural differences. Nominees typically have high GPAs, but the selection committee sets no minimum GPA, and will consider extenuating circumstances.

The Graduate Research Fellowship Program (GRFP) is a National Science Foundation-wide program that provides Fellowships to individuals selected early in their graduate careers based on their demonstrated potential for significant research achievements in science, technology, engineering or mathematics (STEM), or in STEM education. Three years of support are provided by the program for graduate study that leads to a research-based master’s or doctoral degree in STEM or STEM education (see Fields of Study in Appendix).

The program goals are: 1) to select, recognize, and financially support, early in their careers, individuals with the demonstrated potential to be high achieving scientists and engineers, and 2) to broaden participation in science and engineering of underrepresented groups, including women, minorities, persons with disabilities, and veterans. NSF especially encourages women, members of underrepresented minority groups, persons with disabilities, veterans, and undergraduate seniors to apply. GRFP is a critical program in NSF’s overall strategy to develop the globally-engaged workforce necessary to ensure the nation's leadership in advancing science and engineering research and innovation. The ranks of NSF Fellows include numerous individuals who have made transformative breakthrough discoveries in science and engineering, become leaders in their chosen careers, and been honored as Nobel laureates.

**Award Stipend/ Benefits:** Fellowship funding will be for a maximum of three years of financial support (in 12-month allocations, starting in summer or fall) usable over a five-year fellowship period. The anticipated announcement date for the Fellowship awards is early April each year.

The institution at which a Fellow is enrolled receives up to a $46,000 award per Fellow who uses the fellowship support in a fellowship year. The Graduate Research Fellowship stipend is currently $34,000 for a 12-month tenure period, prorated in whole month increments of $2,833. The cost-of-education allowance to the institution is currently $12,000 per year of fellowship support.

CANDIDATE PROFILE

Key Characteristics Sought by Review Committee

Reviewers evaluating applications submitted to the Graduate Research Fellowship Program may consider the following with respect to the Intellectual Merit Criterion: the potential of the applicant to advance knowledge based on a holistic analysis of the complete application, including the Personal, Relevant Background, and Future Goals Statement, Graduate Research Plan Statement, strength of the academic record, description of previous research experience or publication/presentations, and references.

Holistic review is a flexible, individualized way of assessing an applicant’s interests and competencies by which balanced consideration is given to experiences, attributes, and academic achievements and, when considered in combination, how the applicant has demonstrated potential for significant research achievements in STEM and STEM education. Reviewers may consider the following with respect to the Broader Impacts Criterion: the potential of the applicant to benefit society and contribute to the achievement of specific, desired societal outcomes based on a holistic analysis of the complete application, including personal experiences, professional experiences, educational experiences, and future plans.

# Information Sessions

- **Webinars for Candidate?**: Yes
- **Webinars for Advisors?**: Yes
- **Additional information sessions**: Will do institutional-specific webinars and in-person sessions when availability allows.
The PPIA Junior Summer Institute (JSI) is a fully-funded, intensive seven-week summer program of classes and co-curricular activities promoting the professional and personal development of emerging diverse leaders in public service. The JSI curriculum is structured to introduce or strengthen skills in economics, statistics, policy analysis, writing, and public speaking. It is offered at five sites around the country including the University of California - Berkeley, Carnegie Mellon University, University of Minnesota, University of Michigan, and Princeton University. After attending the JSI, Fellows are better prepared for graduate programs in public and international affairs and careers as policy professionals, public administrators and other leadership roles in public service.

**Award Stipend/ Benefits:**
The fellowship includes full tuition for the institute, books and materials, a stipend of at least $1,000, university housing and meals, transportation assistance, and GRE preparation assistance. After successfully completing the JSI, alumni are eligible for fee waivers and a one-time scholarship of at least $5,000 at a PPIA consortium member school if admitted for a Master’s degree. PPIA alumni often receive financial offers above and beyond this minimum from their graduate program, including full-tuition with a stipend.

**Can the Award be Deferred?** No  
**Can the Award be Renewed?** No

**ELIGIBILITY**

**Applicant Education Level:** Applicants traditionally apply during the fall of their junior year. Some seniors may be eligible if they will have at least one full semester or two quarters of coursework after completion of a PPIA Junior Summer Institute.

Brief Description of the Award
The Rangel Fellowship is a U.S. Department of State program that prepares outstanding young people for careers as Foreign Service Officers in the U.S. Department of State. The program provides funding for a two-year graduate degree in an area of relevance to the Foreign Service, summer internships on Capitol Hill and at a U.S. embassy, mentoring, and professional development activities. Fellows who successfully complete the program enter the Department of State, embarking on a uniquely rewarding career of service to the nation. The fellowship promotes excellence and diversity in the Foreign Service and encourages the application of members of minority groups historically underrepresented in the State Department, women, and those with financial need.

Award Stipend/ Benefits
The program provides approximately $95,000 in financial benefits over the two years of the program, including up to $37,500 per year toward graduate school. This includes support for tuition and mandatory fees of up to $21,500 per year and a stipend of $16,000 per year for two years. The program also pays approximately $10,000 per year for internships, including a stipend, housing, and transportation. The program also includes mentoring from a Foreign Service Officer over the two years of the program and professional development training. Fellows who successfully complete the program enter the U.S. Department of State, with a 5-year service obligation.

Can the Award be Deferred? Yes
Can the Award be Renewed? No

Specific Notes/ Exceptions: There are limited reasons for deferrals, including participation in the Fulbright program, military service, and serious personal circumstances.

**Brief Description of the Award**

Chairman, CEO, and Co-Founder of Blackstone, Stephen A. Schwarzman founded Schwarzman Scholars to give the most talented future leaders the power to change the course of history through a fully-funded, one year Master’s degree program in Beijing, China. The program gives the world’s brightest young leaders the opportunity to develop their understanding of China, hone their leadership skills, and broaden their professional networks. Immersed in an international community of thinkers, innovators, and senior leaders in business, politics, and society, scholars participate in intellectual engagement, professional development, and cultural exchange.

**Award Stipend/ Benefits:** The students selected to become Schwarzman Scholars will receive a comprehensive scholarship. It will include:

- Tuition Fees
- Room and board
- Travel to and from Beijing at the beginning and end of the academic year
- An in-country study tour
- Required course books and supplies
- Health insurance
- A stipend of $4,000 for personal expenses

Schwarzman Scholars will be the single largest philanthropic effort ever undertaken in China by largely international donors.

CANDIDATE PROFILE

Key Characteristics Sought by Review Committee

- Commitment - A deep passion for the environment, tribal policy, or Native health care is evident from the stated career goals, and through activities, service, academic pursuits, references, etc. Involvement in relevant campus or community activities is consistent and ongoing. The application gives insight into the student’s motivation or the driving force behind their passion.

- Character (the Udall Factor) - leadership, service, and integrity. Application reveals a desire to make a difference and solve problems. Demonstrated leadership experience goes beyond sitting on a committee or planning an event to motivating others and producing results that benefit the campus or community. References attest to character and potential.

- Trajectory - The career goals, activities, and service demonstrate that the student has begun to work towards a career that will allow them to make significant contributions to environmental issues, their tribe, or Indian country in general through political or public service or community action. The reader understands which issues related to the environment, tribal policy, or Native health care the student wants to work on, how they plan to do it, and is convinced that they will go on to use their degree to help Indian people or impact the environment.

YENCHING ACADEMY OF PEKING UNIVERSITY

YENCHING ACADEMY SCHOLARSHIP

AWARD DETAILS

Emphasis
☑️ Academic  ☐ Research  ☑️ Language  ☐ Experiential  ☑️ International

Brief Description of the Award

The Yenching Academy of Peking University offers a Master’s degree in China Studies. This specially designed, English-taught program admits approximately 125 students per year from around the world, and aims to push the study of China beyond the boundaries of traditionally defined Humanities and Social Sciences disciplines. It creates space to incorporate the diverse backgrounds and experiences of program participants into the study of ancient, modern, and contemporary China, effectively acting as an incubator for innovative approaches to past, present, and future Chinese transformations. At the core of the program lies its emphasis on interdisciplinarity and the value it assigns to thinking about China’s development from both Chinese and international perspectives.

Fellowships for international Yenching Scholars, which cover airfare, tuition/fees, and a single dorm room on campus, are for twelve months, during the course of which Scholars complete their coursework and may complete their thesis. Financial aid packages are available for those who wish to remain on campus for a second year. Degrees are granted upon the completion of all coursework and satisfactory defense of the thesis, and are awarded in January and July of each year.

Working closely with their academic mentors, Yenching Scholars are granted the flexibility to create their own study paths by choosing courses and a thesis topic from six academic research areas in the Humanities and Social Sciences. Chinese language training is provided for all international students, in accordance with their level of proficiency. Studying at the Academy and participating in its field trips and rich extracurricular activities represent an opportunity not only for intercultural exchange and interdisciplinary learning, but also for personal and professional development.

Award Stipend/ Benefits: All tuition and fees, single room in dormitory on campus, generous stipend, roundtrip airfare from home base. Research grants are provided for qualified projects.

Can the Award be Deferred?  No
Can the Award be Renewed?  Yes
**Specific Notes/ Exceptions:** Deferrals are only allowed in the case of emergencies. Students in good standing are eligible for a funded second year of residence.

### CANDIDATE PROFILE

**Key Characteristics Sought by Review Committee**

In addition to an outstanding academic career, as evidenced by transcripts and letters of recommendation, successful applicants will also have been able to show that they have the potential to be leaders in their chosen fields. The admissions committee looks to the personal statement for a well-reasoned and persuasive explanation of how applicants will benefit from being a Yenching Scholar. Interviews with finalists help the committee get a sense of the applicant’s academic and personal qualities, and how well they are suited for the program.

**Average GPA of Recipients**
