Transfer Credit

The university only accepts academic post-secondary course work for transfer credit that was completed with a grade of C or better at regionally accredited institutions of higher education. UTD does not grant credit for nonacademic course work, such as vocational, developmental or remedial studies, nor grant credit for prior experiential learning. Course work that is accepted for transfer credit is applicable toward satisfying requirements for a specific UTD major according to the same criteria as those used for equivalent UTD courses. Prospective transfer students from Dallas-area community colleges should refer to the [UTD Transfer Guides](#), available at community college counseling offices and at the UTD Office of Enrollment Services, in order to obtain information about curricula appropriate to the various UTD majors.

As soon as an application for admission, including transcripts, application fee and any required test scores, has been received, the Office of Enrollment Services will evaluate the student's record to determine which credits earned at another college or university will transfer to UTD. Each student who is admitted to UTD will receive a copy of this evaluation. A copy of the evaluation will also be sent to the student's advising office. An undergraduate adviser, in consultation with the department's Associate Dean, will determine how the transfer credits apply to UTD graduation requirements. Students are urged to contact their advising office upon receipt of the letter informing them of their admission to UTD.
