

CHEM 1111 General Chemistry I Laboratory		
Professors		Sections
	Kiran Tripathi, Ph.D	110, 126, 136, 140, 603
Term	Fall 2023	
Meetings	Workshops: 110: SLC 2.203, 126: SLC 3.102, 136: SLC 2.202, 140: SLC 3.102, 603: SLC 2.202 Labs: 110: SLC 1.211, 126: SLC 1.205, 136: SLC 1.205, 140: SLC 1.205, 603: SLC 1.205	

Professor and TA's Contact Information

Name	Sections	Email Address
Kiran Tripathi	110, 126, 136, 140, 603	kxt190015@utdallas.edu

The easiest way to contact an instructor and/or TA is via e-mail.

Every instructor and TA will check their e-mail frequently and they try to respond as fast as possible.

Please always include both – your TA and your instructor – in your e-mail.

Office hours:

TA will post their booking hours on eLearning.

Mine office hours are on Thursday 1:30-3:30 pm. Room# **BE 3.330B**

General Course Information

Pre-requisites, Co-requisites, & other restrictions	One year of High School Chemistry. No Audits allowed.
Course Description	These courses reinforce the concepts of Freshman Chemistry in the lab via experiments. Students are offered the opportunity to acquire basic laboratory skills and an appreciation for the presence of chemistry in daily living. The experiments are designed to demonstrate concepts including properties of inorganic substances, principles of structure and bonding, and elementary quantitative analysis.
Expected Learning Outcomes	<i>Students should be able to:</i> <ol style="list-style-type: none"> 1. Explain the importance of Lab Safety 2. Collect and organize data in written laboratory reports 3. Measure mass and volume of chemicals 4. Perform stoichiometric reactions 5. Learn the technique of titration
Required Texts & Materials	<ul style="list-style-type: none"> • Access to online labs through LabFlow. https://labflow.com. You will need to purchase an access code either online through their website or through the University Bookstore. Login information is posted on eLearning course page. Please make sure that you sign onto the correct lab section. • A non-programming calculator for calculations. • Access to eLearning.

	<ul style="list-style-type: none"> • A notebook for recording your data. • A combination code lock (shared with your lab group)
Supplemental Texts, Readings, & Materials	<p>You may refer to the following material for a better understanding of the chemical principles.</p> <ul style="list-style-type: none"> • Lecture Textbook: <i>Chemistry: Atoms First, 4th Edition</i> (Julia Burdge, Jason Overby); McGraw-Hill. The textbook is available as an online version through ALEKS 360 that you purchase for your lecture CHEM 1311 class. • OpenStax is a free online textbook for General Chemistry. You can download it at https://openstax.org/details/books/chemistry-atoms-first-2e
Class Attendance	Regular and punctual class attendance is expected regardless of modality. Students who fail to attend class regularly are inviting scholastic difficulty.
Course Access and Navigation	<p>This course can be accessed using your UT Dallas NetID account on the eLearning website. Please see the course access and navigation section of the Getting Started with eLearning webpage for more information.</p> <p>To become familiar with the eLearning tool, please see the Student eLearning Tutorials webpage. UT Dallas provides eLearning technical support 24 hours a day, 7 days a week. The eLearning Support Center includes a toll-free telephone number for immediate assistance (1-866-588-3192), email request service, and an online chat service.</p>
Communication	<p>This course utilizes online tools for interaction and communication. Some external communication tools such as regular email and a web conferencing tool such as TEAMS may also be used during the semester. For more details, please visit the Student eLearning Tutorials webpage for video demonstrations on eLearning tools.</p> <p>Student emails and discussion board messages will be answered within 3 working days under normal circumstances.</p>
Student Resources	Students have access to resources including the McDermott Library, Academic Advising, The Office of Student AccessAbility, and many others. Please see the eLearning Current Students webpage for more information.
Server Unavailability or Other Technical Difficulties	The University is committed to providing a reliable learning management system to all users. However, in the event of any unexpected server outage or any unusual technical difficulty which prevents students from completing a time sensitive assessment activity, the instructor will provide an appropriate accommodation based on the situation. Students should immediately report any problems to the instructor and also contact the online eLearning Help Desk . The instructor and the eLearning Help Desk will work with the student to resolve any issues at the earliest possible time.
Classroom Materials	<p>The instructor may provide class materials that will be made available to all students registered for this class as they are intended to supplement the classroom experience. These materials may be downloaded during the course, however, these materials are for registered students' use only. Classroom materials may not be reproduced or shared with those not in class or uploaded to other online environments except to implement an approved Office of Student AccessAbility accommodation. Failure to comply with these University requirements is a violation of the Student Code of Conduct.</p>
Class Recordings	Any recording made will be available to all students registered for this class as they are intended to supplement the classroom experience. Students are expected to follow appropriate University policies and maintain the security of passwords used to access recorded lectures. Unless the Office of Student AccessAbility has approved the student to record the instruction, students are expressly prohibited from recording any part of this course. Recordings may not be published, reproduced, or shared with those not in the class, or uploaded to other online environments except to implement an approved Office of Student AccessAbility accommodation. If the instructor or a UTD school/department/office plans any other uses for the recordings, consent of the students identifiable

in the recordings is required prior to such use unless an exception is allowed by law. Failure to comply with these University requirements is a violation of the [Student Code of Conduct](#).

The instructor may record meetings of this course. These recordings will be made available to all students registered for this class if the intent is to supplement the classroom experience. If the instructor or a UTD school/department/office plans any other uses for the recordings, consent of the students identifiable in the recordings is required prior to such use unless an exception is allowed by law.

Assignments & Academic Calendar – CHEM 1111

There will be 11 lab experiments during the semester. There will be no makeup labs and you are required to attend your own Lab section.

This schedule and timeline are subject to change at the discretion of the lab instructor.

Day	Exp. #	Experiment	Report Due
Aug 28 -Sept 1	1	Syllabus, Check-in & Lab Safety	Sept 11 -Sept 15
Sept 4 -Sept 8		Labor Day week	
Sept 11 -Sept 15	2	Chemistry Glassware and Measurement	Sept 18 -Sept 22
Sept 18 -Sept 22	3	Visible Spectra and the Nature of Light and Color	Sept 25 -Sept 29
Sept 25 -Sept 29	4	Beer Lambert's Law	Oct 2 – Oct 6
Oct 2 – Oct 6	5	Compounds and their Bonds	Oct 9– Oct 13
Oct 9– Oct 13	6	Lewis Structures and Molecular Shapes	Oct 16 – Oct 20
Oct 16 – Oct 20	7	Limiting reactant	Oct 23 – Oct 27
Oct 23 – Oct 27	8	Chemistry of Copper and Percent Yield	Oct 30 - Nov 3
Oct 30 - Nov 3	9	Volumetric Analysis	Nov 6 – Nov 10
Nov 6 – Nov 10	10	Soluble and Insoluble Salts	Nov 13 – Nov 17
Nov 13 – Nov 17	11	Energy and Specific Heat	Nov 27 – Dec 1

Course Policies

Safety	<p>IMPORTANT: In accordance with University and Chemistry Department safety rules, any time anyone (student, TA, instructor, or visitor) is in a lab, Z87-rated safety eyewear must be worn. In addition, arms, legs, and feet should be covered in the lab. Short pants and skirts (which expose calves or thighs) are not allowed. Sleeveless shirts (including spaghetti strap shirts), or shirts that expose your midriff are also not allowed—however, a lab coat may be worn over these shirts during lab. Closed-toed shoes and socks that fully cover your foot and ankle are also required. Hair longer than shoulder length must be put up in an appropriate manner to keep it out of harm’s way. Anyone without the proper attire and personal protective equipment is not allowed to enter the lab!</p> <p>In summary, all students are responsible for all information inside the undergraduate safety manual uploaded on eLearning.</p> <p>Additional recommendation: Read the additional safety documents in the safety folder on eLearning.</p>
Pre-labs	<p>Prelabs will be conducted on LabFlow platform.</p> <p>Each week students are expected to prepare for the lab by:</p> <ol style="list-style-type: none">1. Reading and understanding the experiment.2. Answering about 10-12 questions on LabFlow for that particular lab. You will be given 2-hour window to complete the prelab quiz. You will have two attempts to complete the pre-lab quiz. It will be due the night before the lab at 11:59 pm (midnight). For example, if your lab section meets anytime on Thursday, the pre-lab for that exp. will be due at 11:59 PM (midnight) on Wednesday in the same week.<p>It is imperative that you have read and UNDERSTOOD the lab prior to beginning the pre-lab quiz. Students are expected to take the pre-lab quiz on their own, without help from anyone or the internet. However, students are permitted to use materials on LabFlow and/or textbook during the pre-lab quiz.</p><p>Students who do not complete the pre-lab quiz will receive a score of zero for that pre-lab. There will be no extensions provided for the pre-lab.</p>
Workshops (Lab Lecture)	<p>Workshops (Lab Lectures) are <i>open discussions</i> designed to help you understand the concepts and techniques involved in each experiment. The goal here is to make the lab experience more enjoyable by assisting students to reach a basic, overall understanding of the experiment and the science. It is advised to read and gain an initial understanding of the lab <u>prior to</u> the lab period to be better prepared for both the discussion and the experiments.</p> <p>Attendance in workshop is mandatory. Late arrival(Arriving 10 minutes after the start of the workshop is considered late) or failure to participate in the workshop will result in a 5-point deduction from lab grade. Repeated late arrivals will not be allowed to participate in the lab.</p>
Post-Lab Assignments	<p>There are no formal lab reports required for this course. You will be entering your data on LabFlow. You will be performing the analysis of the data (2 attempts) and answering questions in LabFlow. Note that the 2 attempts are independent of each other. For example: If you get Q.6 incorrect but Q.7 correct in your first attempt, then in your second attempt you need to change Q.6 and calculate new values for Q.7.</p> <p>Most experiments will end with an executive summary of your lab. Note: A handout on writing an executive summary is posted on eLearning course page.</p> <p>You will be given a week of time to complete the post-lab write-up. For example, if your lab meets on Monday, Sep 11, 2023, the post-lab for that exp. will be due at 11:59 PM (midnight) on Sunday, Sep 17, 2023.</p> <p>Late submissions will be deducted 5% for each late day.</p>

Data	Use scientific notations and rules of significant figures when manipulating your data to improve accuracy. 0.000789 does not equal to 0.0008, it's 7.89×10^{-4} . Calculating this way might improve % error.																																		
Grading (credit) Criteria	<p>Summary of Points:</p> <table border="0"> <tr> <td><u>Each experiment:</u></td> <td><u>Pts.</u></td> </tr> <tr> <td>Pre-lab quiz</td> <td>25</td> </tr> <tr> <td>Post Lab Assignments (data + executive summary)</td> <td>75</td> </tr> </table> <hr/> <p style="text-align: right;">Total 100</p> <p>There are a total of 11 experiments.</p> <p>Your final letter grade for the course will be determined using a scale such as the one below where the class average is set at the “B-/C+” border (e.g., 79.5 points):</p> <table border="0"> <tr> <td>A+</td> <td>97 & above</td> <td>C</td> <td>73-76</td> </tr> <tr> <td>A</td> <td>93-96</td> <td>C-</td> <td>70-72</td> </tr> <tr> <td>A-</td> <td>90-92</td> <td>D+</td> <td>67-69</td> </tr> <tr> <td>B+</td> <td>87-89</td> <td>D</td> <td>63-66</td> </tr> <tr> <td>B</td> <td>83-86</td> <td>D-</td> <td>60-62</td> </tr> <tr> <td>B-</td> <td>80-82</td> <td>F</td> <td>59 & below</td> </tr> <tr> <td>C+</td> <td>77-79</td> <td></td> <td></td> </tr> </table> <p><i>Note: Each Section is a unique course; sections are not graded together, but we have uniform grading scales.</i></p> <p><i>If you suspect that an assignment has been graded incorrectly, you have one week, after the assignment is returned to you, to contact the TA/instructor to have the grade changed.</i></p>	<u>Each experiment:</u>	<u>Pts.</u>	Pre-lab quiz	25	Post Lab Assignments (data + executive summary)	75	A+	97 & above	C	73-76	A	93-96	C-	70-72	A-	90-92	D+	67-69	B+	87-89	D	63-66	B	83-86	D-	60-62	B-	80-82	F	59 & below	C+	77-79
