### Course Description

Today's economic trend is business beyond borders. We are witnessing an era of internationalization as a result of advanced communication and transportation technologies, and ease of trade barriers. By introducing the concept and dynamics of international business, this course specifically examines the main players of this phenomenon: multinational corporations (MNCs). Managers require complex tools and unique capabilities to be more competitive in international business. They need to effectively respond to international market opportunities while mitigating the risks of failure. Adopting a truly global perspective of management, this course presents current thinking in international business theory and practice. Topics covered include international trade and investment theories, country environments (e.g., political, legal, financial, and economic), culture, foreign direct investment, international strategy, and corporate ethics.

## **Grading Policy Grading Criteria**

The following aspects of the course determine your grade. (Scaled score letter equivalent)

### **Individual Exams (15% apiece)**

There will be three noncumulative exams. **The makeup exams are essay/project based.** Exams may be a combination of multiple choice and true-false answers. Exams will be based on assigned readings (textbook and other articles) as well as all other materials covered in class (videos, cases, new articles). Some exam questions can come from information in the textbook that we did not explicitly cover in class. If you do not understand something in your textbook, please ask questions about it so I can clarify for you.

### **Activity Score**

Exam 1 – 15%

Exam 2 – 20%

Exam 3 – 20% [no make-up for this exam]

Business Strategy Game – 10% and +/-

Research/Literature Review Paper 15% [due 11/23 by 6:58 PM]

Experiential Exercises – 10% and +/-

Country Study/Group Project – 10% [due at the final exam time]

Extra Credit shall be available

+/- = + = 0, - = -15%

### **Group Project**

1. You will form groups of 4 people (this may change depending on class size) and work over the course of the semester on this group project as well as the Business Strategy Game.
2. Your group will pick a multinational corporation (MNC) and a country in which it might expand. You shall write up a two page single spaced overview of the country and make copies of the handout for each class member. No two groups shall be able to present on the same country.

### *Peer Evaluation*

Your group project grade will be based on the quality of the group's work. Part of your learning experience is managing the coordination of tasks required to create a good product. Your grade will also be based on each individual's assessment of the relative contribution of each group member (peer evaluation). Each group member will evaluate all the members (including him/herself) for their contribution to group work on a scale from 1 to 5. Then the participation score will be multiplied to the score the group gets from the group project (both written and oral presentation) :

- 60% for 1 (extremely unsatisfactory)
- 70% for 2 (very unsatisfactory)
- 80% for 3 (unsatisfactory)
- 85% for 3.5 (neither satisfactory nor unsatisfactory)
- 90% for 4 (satisfactory)
- 95% for 4.5 (very satisfactory)
- 100% for 5 (extremely satisfactory)

For example, if a group gets 16/20 for the written and 4/5 for the presentation and an individual in that group gets an average of 3 from the peer evaluation, then the actual grade for that person in group project will be  $20/25 \times 80\% = 16/25$ , not 20/25.

- ☐ Be objective in evaluating other members in your group and specify reasons.
- ☐ The evaluation should be turned in with the final exam. Peer evaluation sheet will be provided along with the exam booklet.

### **Individual Research/Literature Review Paper**

You will write 1 **individual paper** in this course. It shall be a research/literature review paper. You shall review at least 15 peer-reviewed academic articles in an area of international business in order to examine relationships previously found in empirical research. You shall include use an extended abstract from Emerald Group Publishing. After the abstract you shall include an Introduction, a literature review, and suggestions for future research based upon your examination of the literature. Paper should go through peer review process.

These criteria are **crucial for your participation in case and news article discussions.**

**10/10** (excellent participation): participate regularly in every class attended, and at least make one significant contribution in each class attended

**9/10** (very good participation): participate regularly in every class attended, and at least make significant contributions in most classes attended
