Course Description	This course is concerned with the systematic study of science and the academic experience. Science is part of the search for knowledge and each approach to science contributes to the totality of knowledge. BIS 3320 will assist students in understanding the pervasive influence of science in our culture and will increase the student's breadth of intellectual inquiry. In addition, the class is designed to assist the students in understanding the importance of clear communication, documentation, and the use of detailed information to support arguments.			
Learning Outcomes	 Students will be able to locate primary sources and evaluate the usefulness of each source based on the criteria discussed in class. Students will be able to concisely paraphrase the findings of studies and properly document sources according to the guidelines set forth by the APA manual. Students will be able to develop a thesis statement and write a paper that discusses the scientific studies that support their claim. Students will be able to describe the differences and similarities between philosophical ideas and scientific facts and/or theories.

Class Attendance	 Remember that attendance, class participation, and classroom citizenship (see section below) constitutes 10% of your course grade. Class participation means arriving on time, contributing to discussions, active listening, and peer editing. Bring your textbooks, notebook paper, and a pen to each class session. *If you are unable to attend class, you are responsible for obtaining the lecture notes from another class member. *Be aware that pop quizzes and peer-editing will normally take place at the beginning of class. No extra time will be allowed for those who come in late. *Attendance will be taken during each class session Missing class will have an adverse effect on your final grade. 		

Classroom Citizenship	Technology Policy: Cell phones must be silenced during class. I do not want to see them or hear them (absolutely no texting). Please, no laptops, ipads, or ear devices. Violation of this policy will affect your grade. Classroom Conduct: I expect students to be attentive during class. Please, no eating or sleeping! Additionally, reading newspapers, magazines, or studying for another class will not be tolerated. During discussions, I expect students to be respectful of the views of others. No name-calling, swearing, or racist/sexist/homophobic statements.
	No name-calling, swearing, or racist/sexist/homophobic statements. Common courtesy is appreciated. Also, if you are having a problem with another student, please discuss it with me.
