Office Hours Monday & Wednesday, 3:00pm - 4:00pm

Description:

Biology 3455, Human Anatomy and Physiology I, is the first of a two-part series designed as a comprehensive examination of the basic principles of human physiology in the context of a detailed examination of human anatomy. The course is designed to give the pre-professional health care student a detailed fundamental background to enable the student to excel in the anatomical and physiological sciences within the professional school curriculum. This first-half study of the structure-function relationship includes a survey of tissue types, osseous histology and structures, skeletal muscle physiology and anatomy, neurophysiology and anatomy and sensory systems. Emphasis will be placed on the anatomy of these systems as outlined in a model-based laboratory setting.

Student Learning Outcomes:

1. Understand and be conversant with the anatomy of the human body that includes histology, skeletal system, skeletal muscle, and neuroanatomy;
2. Understand and be conversant with the physiology of the human body that includes histology, skeletal system, skeletal muscle and neurophysiology;
3. Be familiar with the operation of these human organ systems and their interactions within the body;
4. Be familiar with the concepts of integration of operation of these human organ systems within the body.

Course Pre-Requisite, Co-Requisite, and/or Other Restrictions:

Pre-requisite: Introduction to Modern Biology II (BIOL2312) or equivalent.

Co-requisite: Human Anatomy & Physiology Lab: BIOL 3455.1U1, 1U2, & 1U3.

LECTURE

LAB

1. Fundamental of Anatomy & Physiology

- Authors: Frederic H. Martini, Ph.D.; Judi L. Nath, Ph.D. & Edwin F. Bartholomew, M.S.
- 10th edition
- A La Carte (3 hole punch)
- Plus Modified Mastering A&P VP Fundamentals with eText
- VP ISBN-10: 013397426X
VP ISBN-13: 9780133974263

2. Human Anatomy & Physiology Laboratory Manual

- Authors: Elaine N. Marieb, R.N., Ph.D.; Susan J. Mitchell, Ph.D. & Lori A. Smith, Ph.D.
- 10th edition
- Main version
- Plus Modified Mastering A&P* with eText* and PhysioEX 9.1*
- ISBN-10: 0133983811
ISBN-13: 9780133983814

* Lab Manual's Modified Mastering A&P, eText, and PhysioEX 9.1 are recommended material (not required); thus, lab manual with different ISBNs

Two copies of the lecture textbook (Martini's) are on reserve in the Library. Request these reserved books in Circulation Desk by referring to call numbers #13494 and #13495. They are set for 2-hour check out.

Two copies of the lab manual (Marieb's) are on reserve in the Library. Request these reserved books in Circulation Desk by referring to call numbers #13496 and #13497. They are set for 2-hour check out.

Grading Policy:

1. Grades for lecture will be calculated as follows:

a. Lecture Exams (3)	54%	} = 100%: Final Overall Grade
b. Lecture Quizzes	10%	
c. Lecture Homework	10%	
d. Lab Practical Exams (2)	26%	

2. Grading scale:

Grade	Score	Grade	Score	Grade	Score	Grade	Score
A+	100-96	B+	87-85	C+	77-75	D+	67-65
A	95-92	B	84-82	C	74-72	D	64-62
A-	91-88	B-	81-78	C-	71-68	D-	61-58
						F	57 and below

- Except for the Final Grade, all scores will be rounded to the nearest hundredth. A score ≥ 0.005 will be rounded up; while a score < 0.005 will be rounded down. For example, a homework score of 87.995 will round up to 88.00; while a score of 87.9949 will round down to 87.99.
- Final Grade will be rounded to the nearest integer. A final grade of ≥ 0.5 will be rounded up; while a final grade of < 0.5 will be rounded down. For example, a final grade of 87.5 will round up to 88, thus letter grade "A-"; while a final grade of 87.49 will round down to 87, thus letter grade "B+". No points or fraction of a point (regardless how small) will be awarded to increase to the next letter grade up (No Exceptions).
- Grades are determined based only on performance. Grades are not based on need, effort, or attendance.
- I do not curve grades (do not ask, beg, cry or plead).

Lecture Examinations:

Exam I - M, 6/20 at **GR 3.420** (Chapters 1, 5, 6 & 10/11)

Exam II - M, 7/18 at **GR 3.420** (Chapters 12 & 14)

Exam III – Specific date and time are pending. But, it will be either T, 8/9, or W, 8/10 at **GR 3.420** (Chapters 13, 15, 16 & 17)

Makeup Exam due to bad weather, or other unexpected event - Pending date/room

Course Policy:

Components of the course that will be used to calculate your final overall grade are:

1. **Lecture Exams,**
2. **Lecture Quizzes,**
3. **Lecture Homework, and**
4. **Lab Practical Exams.**

1. **Lecture Exams:**

- a. Three (3) lecture exams will be given during the semester. There will be no final exam.
- b. The average of three lecture exams will count 54% of final overall grade (thus, each lecture exam is 18% of final overall grade). No lecture exam will be dropped.
- c. The structure of the exams will be multiple choice, true/false, and matching questions. There will be **100 questions** on all exams, and the time allowed to complete the exam will be **1 hour and 15 minutes**. You will need a Scantron (ParSCORE, SCORE SHEET, Form No. F-1712-PAR-L) for all exams.
- d. Bonus points (maximum 6 points) will be made available during all lecture exams. No bonus/extra points will be awarded to the final overall grade.
- e. Everything in the textbook is fair game for lecture exams/quizzes/homework, regardless of whether or not it is presented in class. You are responsible to use all of the information contained throughout the entire chapters and additional sources (see below) to prepare for exams/quizzes (regardless of whether or not material from chapters is presented in class). Information from additional sources is presented in self-study activities of Mastering A&P (see lecture schedule below), such as PhysioEx 9.1, Interactive Physiology, A&P Flix, or Clinical Case Studies, which will also be fair game for exams/quizzes/homework.
- f. For exam purposes only, when there are conflicts between the information contained in textbook (or any other outside source) and the material presented in class, the material presented by the professor in class will rule over what is written in textbook/outside source.
- g. Do not miss lecture exams! (If exams are missed you must be able to verify your reason for missing exam).
- h. **Makeup lecture exams** are usually not given - if there are circumstances that warrant a makeup the instructor will determine the criteria for such an exam at the appropriate time. **However, be aware that the structure of makeup exams will be different than that specify in #1c above.**
- i. The only Legitimate Reasons to make up missed lecture exams are as follows: death of an immediate family member, bona fide medical emergencies, and military orders. Proper documentation must be presented in writing before a makeup exam is granted – **no exceptions**, and before the date of the regular exam.

NOTE 1.- Makeup exams will not be granted for other reasons, such as, trips to weddings, graduation, vacations, visits, etc. Please, do not purchase tickets for trips that would be during exam dates. If you must go to this trip or if it costs excessive amount of money to change trip tickets, reservations, etc., then consider dropping the course from the summer 2016 semester. Please, do not ask for "other" ways.

- j. **Late to Exam:** Exams are scheduled to begin at the same time as lecture (11:30am). However, I usually take around 10-15 minutes to give a speech about different issues regarding the exam and to shuffle around the students in the room. So, no one has to arrive after I have done all of the above. Yet, someone might arrive late. Keep in mind that arriving after the exam has actually begun is very disruptive to your classmates. Be polite to your classmates and arrive on time.

For those who arrive after the exam has begun: It is the student responsibility to allow plenty time to arrive to the school to take exams, in case some awkward event happens, i.e., traffic jams, car accidents, etc.

Therefore, neither one of these events will justify a student arriving late to an exam. For those who still arrive late to an exam, the following will be the penalties will apply:

1) if one (1) student finishes the exam, turns it in, and leaves the classroom before you arrive, you will not be allowed to take the exam, your score for the particular exam will be **zero (0)**, and there will be no makeup exam (**No Exceptions**).

2) if a student arrives after the exam has begun (and assuming no one has finished the exam and/or turned it in), then the student that arrived late will be given whatever amount of time is left to finish the exam (i.e., 1 hour and 15 minutes is the normal time allowed to complete the exam, but if student arrives 15 minutes after the exam has started, then the student will be given only the remaining 1 hour – which is the amount of time left – to complete the exam).

- k. Graded exams will not be reviewed in class. Exams will be kept on file in the instructor's office and will be available for review for 1 week (if student wants to review after this period of time, contact professor within this week to make appointment), starting the next day after the exam grades are posted in eLearning. The student is responsible for scheduling time to review. All issues regarding exam questions and grades must be resolved within this week. After this week, grades will be considered final.

2. **Lecture Quizzes:**

- a. Quizzes will be taken in [eLearning](#).
- b. There will be a **maximum** of 10 quizzes posted in [eLearning](#). **Quiz schedule, period to take the quiz, and the expiration dates (quizzes will disappear from [eLearning](#) after the expiration date) are found in page 11 of this syllabus.**
- c. Read the instructions prior to taking the quiz.
- d. Quizzes will be taken in [eLearning](#). You will have 1 week (168 hours) to take the quiz (due date/time will be shown in [eLearning](#)). Thus, do not procrastinate, because there will be no makeup quiz for missing quizzes (**absolutely no exceptions**). A missed quiz will receive a zero (0).
- e. Quizzes are timed and only **two attempts** to take quizzes will be allowed (you will get the highest score out of the two attempts).
- f. The **lowest two (2) quizzes** will be **dropped**.
- g. The average of all quizzes minus the lowest two scores will count 10% of final overall grade.

3. **Lecture Homework:**

- a. Homework will be taken in [Mastering](#). You will find access to [Mastering](#) in [eLearning](#). You will first need to register in [Mastering](#) before you can get access to activities (including homework) in [Mastering](#). To do so, go to [eLearning](#), click on the lecture site for this course (Lecture), in the Course Menu (on the left hand side), click on "[Pearson Mastering A&P \(Homework\)](#)" link, and follow the instructions.
- b. There will be a **maximum** of 10 homework assignments. **Homework schedule, periods to take the homework, and the expiration dates (homework will disappear from [Mastering](#) after the expiration date) are found in page 11 of this syllabus.**
- c. Homework will be comprised of activities and reading questions from textbook or activities found in the **Study Area** of [Mastering](#): PhysioEx 9.1, Interactive Physiology, A&P Flix, or Clinical Case Studies.
- d. Read the instructions prior to taking homework.
- e. Check the grading setting on all homework under 'Grading Policy' to see how homework will be graded. Below is a [sample](#) of grading policy:

Grading Policy for Homework

Number of answer attempts per question is: 6

You gain credit for:

- Correctly answering a question in a Part
- Correctly answering a question in a Hint
- Not opening a Hint (2% bonus)

You lose credit for:

- Exhausting all attempts or giving up on a question in a Part or Hint
- Incorrectly answering a question in a Part or Hint

Homework/Assignments are not timed. But there is a due date. Therefore, late submissions: receive no credit. There will be no make-ups (**no exceptions**)

Hints are helpful clues or simpler questions that guide you to the answer. Hints are not available for all questions. There is **no penalty** for leaving questions in Hints unanswered.

Grading of Incorrect Answers before the last attempt:

- You lose 100%/(# of options - 1) credit per incorrect answer on multiple-choice and true/false questions.
- You lose 3% credit per incorrect answer on questions that are not multiple-choice or true/false.

- f. Homework will not be timed, but they will have a due date. You will have 1 week (168 hours) to complete each homework (due date/time will be shown in [Mastering](#) and at the end of this syllabus). Thus, do not procrastinate, because there will be no makeup assignment for missing homework (**absolutely no exceptions**). A missed homework will receive a zero (0). Late submission will not be accepted (regardless of the reason).
- g. Only **one attempt** to take homework will be allowed. These homework assignments are like hard copy homework. That is, you don't need to finish in one sit. You can save and continue on the following day, until the due date/time. Once the due date/time has been reached, you won't be allowed to continue working on the homework assignment.
- h. The **lowest (1) homework** will be **dropped**.

- i. The average of homework minus the lowest score will count 10% of your lecture grade.

4. **Lab Practical Exams:**

- a. Two (2) practical lab exams will be given during the semester.
- b. The test classroom and times for the two **lab practical exams** will be **SLC 2.206**.
- c. **Open lab sessions** will be conducted by TAs. **The dates/times for these sessions are shown in page 13 of this syllabus.** Open labs are for review and a self-studying activity (no lecture will be given by professors or TAs). Although, we can answer questions.
- d. The average of all three lab practical exams will count 26% of final overall grade (thus, each lab practical exam is 13% of final overall grade). No lab practical exam will be dropped.
- e. The structure of the lab practical exams will be filling in the blank and short answers (no essay questions). So, you will not need a Scantron for lab practical exams. An answer sheet will be provided.
- f. There will be between 60-100 questions in 32 stations (2-4 questions per station), plus 5 additional bonus questions on the 33rd station.
- g. During the practical exam, one (1) minute will be allowed per station (not per question), including the bonus station. In addition, ten (10) minutes will be allowed at the end of the practical exam for you to go back to any station and in any order to double check your answers. During these 10 minute period, there are a few rules:
- Needless to say, no talking will be allowed during these 10 minutes
 - Cover your answer sheet at all times (**students not covering their answer sheets will be penalized by 100% reduction of their practical score, the exam will be taken, and the student will be dismissed**)
 - Only one student per station will be permitted
 - Other students need to see the station too. So, do not stay too long in one station.
- h. **Bonus questions:** A maximum 5 questions will be made available during all lab practical exams. Each bonus question will be worth 1 point (total will be 5 points). No bonus/extra points will be awarded to the final overall grade.
- i. Everything in the lab manual is fair game for practical lab exams, regardless whether or not it is presented in class. You are responsible to use all of the information contained throughout the entire chapters to prepare for lab practical exams (regardless of whether or not material from chapters is presented in class). Information presented in activities of Mastering A&P, such as Histology Atlas and PAL 3.0, will also be fair game for practical lab exams.
- j. For exam purposes only, when there are conflicts between the information contained in the lab manual (or any other outside source) and the material presented in class, the material presented by the professor in class will rule over what is written in lab manual/outside source.
- k. **No one will be allowed to take practical exams in a lab section in which the student is not enrolled (regardless of the reason) without prior authorization by me and the professor involved. Granting permission to take the practical lab exam in a different section will depend on whether or not there is space in the lab room for this student. If lab section is full, no student will be authorized to take the practical exam and overload this lab section.**
- l. Do not miss Lab practical exams! (If exams are missed you must be able to verify your reason for missing the lab practical exam).

- m. **Makeup lab practical exams** are usually not given. If there are circumstances that warrant a makeup practical exam, the instructor of your lab section will determine 1) whether or not a makeup practical exam is logistically possible; and 2) the criteria for such an exam at the appropriate time.

If the only option is to take a makeup practical exam in a different lab section, it could be allowed only if there is room for the student to take the makeup practical exam (students enrolled in the alternative lab section have priority, and no one can take their seats in lab practical exams).

- n. The only Legitimate Reasons to make up missed lab practical exams are as follows: death of an immediate family member, bona fide medical emergencies, and military orders. Proper documentation must be presented in writing before a makeup practical test is granted – **no exceptions**, and before the date of the regular lab practical exam.

NOTE 2.- Makeup exams will not be granted for other reasons, such as, trips to weddings, graduation, vacations, visits, etc. Please, do not purchase tickets for trips that would be during exam dates. If you must go to this trip or if it costs excessive amount of money to change trip tickets, reservations, etc., then consider dropping the course from the summer 2016 semester. Please, do not ask for "other" ways.

- o. **Late to Lab Practical Exam:** Exams are scheduled to begin at the specified time set by the lab professor. This is usually at the same time as the lab section is scheduled to begin. However, sometimes extra time might be needed for several reasons, i.e., to setup the practical exam, to explain students about the mechanics of the practical exam, to position the students in their start stations in the lab room, etc. Lab professors will indicate at what time all students must be present outside of the lab room and ready to be called out for the exam. **So, no one has to arrive after the professor has done all of the above and the lab practical exam has begun.** Yet, someone might still arrive late. Keep in mind that arriving after the exam has actually begun is very disruptive to your classmates (and to the mechanics of a lab practical exam). Be polite to your classmates and arrive on time.

For those who arrive after the exam has begun: It is the student responsibility to allow plenty time to arrive to the school to take exams, in case some awkward event happens, i.e., traffic jams, car accidents, etc. Therefore, neither one of these vents will justify a student arriving late to an exam. For those who still arrive late to an exam, the following penalties will apply:

1) No one will be allowed to take the exam, once the lab door is closed and the lab practical exam has begun (please, do not knock the lab door as this is disruptive to the flow of the practical exam).

2) The student that arrives after the door has been closed and the exam has begun will get a zero (0) on the particular lab practical exam. There will be no makeup practical exam **(No Exceptions)**

- p. Graded lab practical exams will not be reviewed in class. Lab practical exams will be kept on file in the instructor's office and will be available for review for 1 week (if student wants to review after this period of time, contact professor within this week to make appointment), starting the next day after the exam grades are posted in [eLearning](#). The student is responsible for scheduling time to review. All issues regarding exam questions and grades must be resolved within this week. After this week, grades will be considered final.

Practice/Reinforcement Activities (not for credit)

i. **Additional Lecture Activities:**

- There will be no points awarded in these lecture activities. These lecture activities are tools to practice and/or reinforce concepts presented in class. These lecture activities are optional; however, concepts reviewed in these lecture activities may be used to create questions for exams/quizzes/homework (see clause #1e above).
- Lecture activities will consist on activities found in the **Study Area** of Mastering: PhysioEx 9.1, Interactive Physiology (IP), A&P Flix, or Clinical Case Studies.

ii. **Additional Lab Activities:**

- There will be no points awarded in these lab activities. These lab activities are tools to practice and/or reinforce concepts presented in the lab. These activities are optional; however, concepts reviewed in these lab activities may be used to create questions for lab practical exams (see clause #4i above).
- Lab activities will consist on activities found in the **Study Area** of Mastering: Histology Atlas and PAL 3.0.

NOTE 3.- You will need a UTD photo ID to get into both lecture and lab exams. If you do not have an UTD photo ID presently, please make arrangements to get one before the first exam (photo ID on Driver Licenses/Cards/Badges are not considered substitute of UTD photo ID – we need your UTD number next to your photo in the same document, not just your photo). No exam or grade will be given to students without UTD photo ID (no exceptions). We are aware of the expense to attend college, but having an UTD Comet ID is a requirement set by the university for all UTD students.

NOTE 4.- The professor has the right to change the syllabus at any point during the semester.

In keeping with the spirit of the Privacy Act, grades and/or grade information will not be given to anyone other than the student and will not be discussed over the phone or emails.
