Course Syllabus – INTRODUCTION TO WORLD GEOGRAPHIC REGIONS

Course Information

Course number –GEOG - 2303

Course title – INTRODUCTION TO WORLD GEOGRAPHIC REGIONS

Term –Fall 2016

Section – 001

Classroom – CB2 1.202

Time – Tuesday/Thursday 10:00-11:15 am

Professor Contact Information

Name – Dr. Irina Vakulenko
Phone number – 972-883-6718
Email – ivakulenko@utdallas.edu (best way to contact me)
Office location – GR 3.213
Office hours – Monday/Wednesday 2:15-3:15 pm; by appointment

Course Pre-requisites, Co-requisites, and/or Other Restrictions

There are no formal prerequisites for this course. General academic skills of analytical thinking, comparison, essay writing, working with statistical material, map reading will be helpful.

Course Description

This course considers how the key concepts of place and space can be used to understand the special character and interactions of history, culture, economics, and the environment in major regions of the world including North America, Europe, Russia, Pacific Rim countries, South Asia, Southwest Asia and North Africa, and Latin America.

Student Learning Objectives/Outcomes

Upon completing this class students will be able to:

- Understand the basic methods of regional geographic research through manipulation and analysis of numerical data and observable facts resulting in informed conclusions.
- Practice the methods of regional geography by describing the human and physical geography of 8 world regions, promoting competence, knowledge of civic responsibility, and the ability to engage effectively in regional, national, and global communities.
- Analyze aspects of relative geographical position, physical geographic characteristics such as landforms, climate and weather, resources of world regions through class presentations, individual research, and discussions. Employ creative thinking, evaluation and synthesis of information.
- Interpret human geographic characteristics such as demographics, political organizations, economic conditions, language and religion through class presentations, individual research and discussions thus learning to effectively develop, interpret and express ideas via different forms of communication.

Required Textbooks and Materials

Geography: Realms, Regions and Concepts, 16th Edition by H.J. DeBlij, P.O. Muller, J. Nijman, 2014. ISBN 978-1-118-67395--9.

Suggested Course Materials

Students are expected to take notes during PowerPoint presentations and complete exercises posted on e-learning.

Grading Policy

You are required to take four tests during the semester that consist of multiple-choice questions and map questions as well as "challenge assignments" (essays, fill-ins, tables, etc.). Each of them will cover one or several of the world major realms. Each test will count **15%** toward your final grade. Average of Tests 1 and Test 2 will make your **Midterm Grade** to be posted on <u>October 15, 2016</u>. You are also expected to submit a short, 4-5 pages, paper on a country of your choice* or make a 10 minutes country presentation during the class on a larger region. This individual assignment will count **10%** toward your grade and is due no later than <u>December 6, 2016</u>. The Final Exam on <u>TBA</u> will make other **20%** of your grade. You are also to work at five regional maps that have a value of **2** points each toward your final grade, if presented on the day of the test or earlier. Past due date maps are accepted with 1 point toward your final grade. The other blank maps and bonus homework in every packet are offered as part of an individual performance for extra credit. All graded material will be assigned a numerical value on a scale of 100. Letter grades are given as follows: 97% and over A+; 93% to 96% A; 90% to 92% A-; 87% to 89% B+; 83% to 86% B; 80% to 82% B-; 77% to 79%C+; 73% to 76% C; 70% to 72% C-; 67% to 69% D+; 63% to 66% D; 60% to 62% D; Less than 60% F.

^{*}A paper should be in a printed format with a cover page, at least one illustration, and a list of at least three <u>scholarly</u> sources (excluding your textbook, Wikipedia, url without proper referencing). MLA format is advised. The narrative should follow the plan of a country characteristics discussed in class #4 (extra homework 1:3).

Course & Instructor Policies

Attendance is crucial for the successful learning and will be taken each class. Many of my lectures and our discussions will include <u>materials not found in the text</u>. As a result a good set of class notes and contour maps will be extremely helpful if you plan excelling in this course. To work on the assignments you need to have a pencil, eraser, and colored pencils at every class. No maps colored with anything other than colored pencils will be accepted.

Attendance will be used as deciding factors for determination of bonus points for extra homework. No makeup tests. (Individual consideration may be given in case of overwhelming circumstances).

If you wish to look at the ancillary syllabus material, a link to that material is as follows http://go.utdallas.edu/syllabus-policies.

These descriptions and timelines are subject to change at the discretion of the Professor.
