General Course Information

Pre-requisites	Biochemistry I – BIOL 3361 or CHEM 3361 This course is the second semester of a required sequence for biology majors.
Co-requisites	Biochemistry Workshop II – BIOL 3162 or CHEM 3162

	Biochemistry is a gateway course and is essential for medicine and biomedical research. This course is the second of a two-course sequence required for biology majors. It aims to provide students with a working		
	nowledge of macromolecules and fundamental metabolic pathways.		
	Overall, the course is devoted to mastering:		
	 The metabolism of amino acids, and nucleotides: 		
Course Description	 The inclusion of animo acids, and nucleotides, The structures of nucleic acids: 		
and Learning	 A) The structure function and metabolism of linids and its 		
and Learning	4) The structure, function and metabolism of lipids and its		
Outcomes	integration to biochemical pathways		
	 Structural and functional organization of biological membranes; dynamic remodeling of membrane, transport across cell membrane; 		
	6) Energy charge system of the cell and integration of metabolism		
	The threshold concepts in this course include (but are not limited to): biological systems follow the laws of chemistry and physics; how energy, specifically sunlight, is used for chemical synthesis; how inorganic		

	carbon the pat and the transpo structu physiol microb	, nitrogen, and sulfur are incorporated into organic compounds; hways for synthesis of amino acids, nucleotides, and fatty acids, e subsequent synthesis of proteins, nucleic acids, and membranes; ort across cell membranes; and the principles for macromolecular re. When appropriate, these concepts are related to human ogy and diseases as well as environmental and industrial iology.
	Upon c 1. 2. 3. 4. 5.	ompleting this course, students will be able to: Know and identify the structures of the major metabolites involved in photosynthesis, carbon fixation, the nitrogen cycle, ammonia assimilation, amino acid synthesis, the urea cycle, purine and pyrimidine synthesis, breakdown and synthesis of fatty acids, lipid signaling, eicosanoids, prostaglandins, terpenoids, cholesterol and steroid hormones. Describe the major metabolic pathways involving the above compounds and recognize how they are regulated. Explain dynamic processes involving membrane structure and function, membrane permeability, membrane proteins, ion channels, and transport across membrane. Recognize the structural features of proteins, nucleic acids, and membranes and relate these features to their functions, e.g., catalysis and information storage (i.e., heredity). Understand homeostatic responses in terms of integration of metabolism, endocrine regulation of energy metabolism and factors influencing metabolism.

Required Text	R.H. Garrett and C.M. Grisham: Biochemistry, 5th edition. (Earlier editions of the textbook are acceptable for most of the material).

32.		TBA		EXAM 4	M. Candas

Tentative Schedule and Topics

(Descriptions and timelines are subject to change at the discretion of the Professors)

Course Policies

Tests, Online homework assignments and Grading	 There will be four in-class exams. The exams may include questions with multiple choice, short answer and problems as well as identification of structures, reaction mechanisms and pathways. You will receive the same letter grade in both BIOL/CHEM 3362 (lecture) and BIOL 3162 (workshop). Letter grade will be posted via Galaxy. Midterm letter grades will be based on available exam score(s) at the time of midterm grading. Final letter grades are finalized within 1 week of submission and no score change will occur after.
Make-up Exams	There will be no make-up exams except for the most extreme of documented circumstances (event of illness, official university business, or professional school interviews). If you do miss an exam, the score will be recorded as zero, "0". Most "return to work" slips do not indicate that there was a sickness or emergency, and they do not specify the date and reason for visit to a doctor. Thus you need to provide an official documentation indicating the date and reason of admission to a clinic, or a documentation indicating attendance to a school interview, or demonstrating an extraordinary/emergency situation. Since religious holidays are known in advance, you must inform about them in the beginning of the semester. Make-up exams may be different from regular exams and may include a verbal component and/or drawing of structures. If make-up exam score is significantly higher than the class average for that exam and/or student's previous exam(s), the average of student's other exams may be assigned as the make-up exam grade. Students should not be able to benefit from the extra time that other students do not have. Students can maintain their average but not improve upon it by taking make up exams. Make up exams will not be given earlier than actual date and time of testing.
Class Attendance	Regular and punctual class attendance is expected. Absences may lower a student's grade as students who fail to attend class regularly are inviting scholastic difficulty. Lectures may include discussions and presentation of supplementary material; thus class attendance and class participation are deemed essential. Be very punctual on your class attendance on the exam days. Students arriving at the exams later than 15 min after the beginning of exam time will not be admitted to the exam. Students will not be admitted to the exam. Students will not be admitted to the exam for missed exams unless student provides documented excuse for the circumstance.

Use of Electronic Devices	Use of all electronic devices including laptop computers, cellular telephones, PDAs, headphones, pagers are distractive to teaching and learning process and they are not permitted. Such devices must be turned off and put away during lectures and exams. At the discretion of the Professor, laptop computers may be allowed during class only for taking notes, following the lecture slides or group work. If you are using a computer for taking notes, you may be asked to sit in the rear of the classroom separately as to not unduly distract, interfere or disrupt your classmates. Students who engage in use of electronic devices for activities unrelated to the learning experience will be reported to the Dean of Students Office for academic disciplinary action. Additionally, avoid personal communication during lectures unless it is an emergency. Students, who are not listening and/or not engaged in the lectures disturb other students actively participating in class discursions and		
	disrupt class flow.		
Workshops	You need to be enrolled in one of the workshops sections: • BIOL 3162-001 Mo 2:00PM - 2:50PM FO 3.616 • BIOL 3162-002 Mo 3:00PM - 3:50PM FO 3.222 • BIOL 3162-003 Mo 2:00PM - 2:50PM FO 3.222 • BIOL 3162-004 Fr 2:30PM - 3:20PM FO 3.222 • BIOL 3162-004 Fr 2:30PM - 3:20PM FO 3.222 • BIOL 3162-005 Wed 2:30PM - 3:20PM FO 3.222 • BIOL 3162-005 Wed 2:30PM - 3:50PM FO 3.222 • BIOL 3162-006 Mo 3:00PM - 3:50PM FO 3.616 • BIOL 3162-007 Th 4:00PM - 4:50PM ECSN 2.120 • BIOL 3162-008 Th 4:00PM - 4:50PM FO 3.222		ns: FO 3.616 FO 3.222 FO 3.222 FO 3.222 FO 3.222 FO 3.616 ECSN 2.120 FO 3.222 extbook and lectures. M 3362 lecture class
Supplemental Instruction	Supplemental Instruction (SI voluntary. For information a sessions, refer to: <u>www.utdallas.edu/studentsu</u>) is offered for this course. bout the days, times, and I uccess/leaders/si.html	Attendance is ocations for SI

	The University of Texas System and The University of Texas at Dallas		
	have rules and regulations for the orderly and efficient conduct of		
Student	their business. It is the responsibility of each student and each		
Conduct and	student organization to be knowledgeable about the rules and		
Discipline	regulations which govern student conduct and activities. General		
	information on student conduct and discipline is contained in the UTD		
	publication, A to Z Guide, which is provided to all registered students		

	each academic year.
	The University of Texas at Dallas administers student discipline within the procedures of recognized and established due process. Procedures are defined and described in the <i>Rules and Regulations,</i> <i>Board of Regents, The University of Texas System, Part 1, Chapter VI,</i> <i>Section 3</i> , and in Title V, Rules on Student Services and Activities of the university's <i>Handbook of Operating Procedures</i> . Copies of these rules and regulations are available to students in the Office of the Dean of Students, where staff members are available to assist students in interpreting the rules and regulations (SU 1.602, 972/883-6391). A student at the university neither loses the rights nor escapes the responsibilities of citizenship. He or she is expected to obey federal, state, and local laws as well as the Regents' Rules, university regulations, and administrative rules. Students are subject to discipline for violating the standards of conduct whether such conduct takes place on or off campus, or whether civil or criminal penalties are also imposed for such conduct
Comet Creed	"As a Comet, I pledge honesty, integrity, and service in all that I do."
	(This creed was voted on by the UT Dallas student body in 2014. It is a standard that Comets choose to live by and encourage others to do the same.)
Campus Carry	The University's concealed handgun policy is posted on the campus
	carry website:
Charles	http://www.utdallas.edu/campuscarry/
Sharing	Students considering sharing personal information in email, in person,
Confidential	or within assignments or exams should be aware that faculty
Information	members and teaching/research assistants are required by UT Dallas policy to report information about sexual misconduct to the UT Dallas Title IX Coordinator. Per university policy, faculty have been informed that they must identify the student to the UT Dallas Title IX Coordinator.
	Students who wish to have confidential discussions of incidents related to sexual harassment or sexual misconduct should contact the Student Counseling Center (972-883-2527 or after hours 972-UTD- TALK or 972-883-8255), the Women's Center (972-883-8255), a health care provider in the Student Health Center (972-883-2747), the clergyperson (or other legally recognized religious advisor) of their choice, or an off-campus resource (i.e., rape crisis center, doctor, psychologist). Students who are sexually assaulted, harassed, or victims of sexual misconduct, domestic violence, or stalking, are encouraged to directly report these incidents to the UT Dallas Police Department at 972-883-2222 or to the Title IX Coordinator at 972-

	883-2218. Additional information and resources may be found at http://www.utdallas.edu/oiec/title-ix/resources.
	The faculty expects from its students a high level of responsibility and academic honesty. Because the value of an academic degree depends upon the absolute integrity of the work done by the student for that degree, it is imperative that a student demonstrate a high standard of individual honor in his or her scholastic work.
Academic Integrity	Scholastic dishonesty includes, but is not limited to, statements, acts or omissions related to applications for enrollment or the award of a degree, and/or the submission as one's own work or material that is not one's own. As a general rule, scholastic dishonesty involves one of the following acts: cheating, plagiarism, collusion and/or falsifying academic records. Students suspected of academic dishonesty are subject to disciplinary proceedings.
	Plagiarism, especially from the web, from portions of papers for other classes, and from any other source is unacceptable and will be dealt with under the university's policy on plagiarism (see general catalog for details). This course will use the resources of turnitin.com, which searches the web for possible plagiarism and is over 90% effective.
Email Use	The University of Texas at Dallas recognizes the value and efficiency of communication between faculty/staff and students through electronic mail. At the same time, email raises some issues concerning security and the identity of each individual in an email exchange. The university encourages all official student email correspondence be sent only to a student's U.T. Dallas email address and that faculty and staff consider email from students official only if it originates from a UTD student account. This allows the university to maintain a high degree of confidence in the identity of all individual corresponding and the security of the transmitted information. UTD furnishes each student with a free email account that is to be used in all communication with university personnel. The Department of Information Resources at U.T. Dallas provides a method for students to have their U.T. Dallas mail forwarded to other accounts.
Copyright Notice	It is the policy of the University of Texas at Dallas to adhere to the requirements of the United States Copyright Law of 1976, as amended, (Title 17, United States Code), including ensuring that the restrictions that apply to the reproduction of software are adhered to and that the bounds of copying permissible under the fair use doctrine are not exceeded. Copying, displaying, reproducing, or distributing copyrighted material may infringe upon the copyright owner's rights.

	Unauthorized distribution of copyrighted material, including unauthorized peer-to-peer file sharing, may subject students to appropriate disciplinary action as well as civil and criminal penalties. Usage of such material is only appropriate when that usage constitutes "fair use" under the Copyright Act. For more information about the fair use exemption, see <u>http://copyright.lib.utexas.edu/copypol2.html</u> .
	As a UT Dallas student, you are required to follow UT Dallas' copyright policy (UTDPP1043 at http://policy.utdallas.edu/utdpp1043) and the UT System's policy, UTS107 at <u>http://www.utsystem.edu/board-of-regents/policy-library/policies/uts107-use-copyrighted-materials</u> .
Withdrawal from Class	The administration of this institution has set deadlines for withdrawal of any college-level courses. These dates and times are published in that semester's course catalog. Administration procedures must be followed. It is the student's responsibility to handle withdrawal requirements from any class. In other words, we cannot drop or withdraw any student. You must do the proper paperwork to ensure that you will not receive a final grade of "F" in a course if you choose not to attend the class once you are enrolled.
Student Grievance Procedures	Procedures for student grievances are found in Title V, Rules on Student Services and Activities, of the university's Handbook of Operating Procedures. In attempting to resolve any student grievance regarding grades, evaluations, or other fulfillments of academic responsibility, it is the obligation of the student first to make a serious effort to resolve the matter with the instructor, supervisor, administrator, or committee with whom the grievance originates (hereafter called "the respondent"). Individual faculty members retain primary responsibility for assigning grades and evaluations. If the matter cannot be resolved at that level, the grievance must be submitted in writing to the respondent with a copy of the respondent's School Dean. If the matter is not resolved by the written response provided by the respondent, the student may submit a written appeal to the School Dean. If the grievance is not resolved by the School Dean's decision, the student may make a written appeal to the Dean of Graduate or Undergraduate Education, and the deal will appoint and convene an Academic Appeals Panel. The decision of the Academic Appeals Panel is final. The results of the academic appeals process will be distributed to all involved parties. Copies of these rules and regulations are available to students in the Office of the Dean of Students, where staff members are available to

	assist students in interpreting the rules and regulations.
Incomplete Grades	Incomplete grades will be granted only for work unavoidably missed at the semester's end and only if 70% of the course work has been completed. An incomplete grade must be resolved within 8 weeks from the first day of the subsequent long semester. If the required work to complete the course and to remove the incomplete grade is not submitted by the specified deadline, the incomplete grade is changed automatically to a grade of <u>F</u> .
Disability Services	 The goal of Disability Services is to provide students with disabilities educational opportunities equal to those of their non-disabled peers. Disability Services is located in room 1.610 in the Student Union. Office hours are Monday and Thursday, 8:30 a.m. to 6:30 p.m.; Tuesday and Wednesday, 8:30 a.m. to 7:30 p.m.; and Friday, 8:30 a.m. to 5:30 p.m. The contact information for the Office of Disability Services is: The University of Texas at Dallas, SU 22 PO Box 830688 Richardson, Texas 75083-0688 (972) 883-2098 (voice or TTY) Essentially, the law requires that colleges and universities make those reasonable adjustments necessary to eliminate discrimination on the basis of disability. For example, it may be necessary to remove classroom prohibitions against tape recorders or animals (in the case of dog guides) for students who are blind. Occasionally an assignment requirement may be substituted (for example, a research paper versus an oral presentation for a student who is hearing impaired). Classes enrolled students with mobility impairments may have to be rescheduled in accessible facilities. The college or university may need to provide special services such as registration, note-taking, or mobility assistance. It is the student's responsibility to notify his or her professors of the need for such an accommodation. Disability Services provides students with letters to present to faculty members to verify that the student has a disability and needs accommodations. Individuals requiring special accommodation should contact the professor after class or during office hours.
Religious Holy Days	The University of Texas at Dallas will excuse a student from class or other required activities for the travel to and observance of a religious

	holy day for a religion whose places of worship are exempt from property tax under Section 11.20, Tax Code, Texas Code Annotated.
	The student is encouraged to notify the instructor or activity sponsor as soon as possible regarding the absence, preferably in advance of the assignment. The student, so excused, will be allowed to take the exam or complete the assignment within a reasonable time after the absence: a period equal to the length of the absence, up to a maximum of one week. A student who notifies the instructor and completes any missed exam or assignment may not be penalized for the absence. A student who fails to complete the exam or assignment within the prescribed period may receive a failing grade for that exam or assignment.
	If a student or an instructor disagrees about the nature of the absence [i.e., for the purpose of observing a religious holy day] or if there is similar disagreement about whether the student has been given a reasonable time to complete any missed assignments or examinations, either the student or the instructor may request a ruling from the chief executive officer of the institution, or his or her designee. The chief executive officer or designee must take into account the legislative intent of TEC 51.911(b), and the student and instructor will abide by the decision of the chief executive officer or designee.
	If you experience any issues with your UT Dallas account, contact the UT Dallas Office of Information Technology Help Desk: assist@utdallas.edu or call 972-883-2911.
Technical Support	UT Dallas provides eLearning technical support 24 hours a day/7 days a week. The services include a toll free telephone number for immediate assistance (1-866-588-3192), email request service, and an online chat service. Please use this link to access the UTD eLearning Helpdesk: <u>http://www.utdallas.edu/elearning/eLearningHelpdesk.html</u> .
	Off-campus, out-of-state, and foreign instruction and activities are
Ott-Campus	subject to state law and University policies and procedures regarding
Instruction and	travel and risk-related activities. Information regarding these rules
Course	and regulations may be found at
ACTIVITIES	Additional information is available from the office of the school dean
1	Additional information is available from the office of the school dean.

These descriptions and timelines are subject to change at the discretion of the Professors.
