

**Exceptional Children
CLDP/PSY/SPAU 3342
Section 0U1
Summer 2015**

Instructor:	Dr. Bill Barfoot
Phone:	469-941-8925
Email:	barfoot@utdallas.edu
Office:	GR 4.304
Office hours:	Monday, 5:50 – 7:00 p.m., by appt.
Classroom:	JO 4.102
Class time:	Mon. and Wed., 3:30 to 5:45 p.m.
Teaching Assistant:	Sujin Shin
TA's phone:	972-207-1720
TA's email:	sxs087000@utdallas.edu
Teaching Intern:	Melissa Nieschlag
Intern email:	mkn130130@utdallas.edu

Course description: This course is intended to: 1) educate you on the policies related to children with special needs; 2) assist you in understanding the definitions and etiologies of various exceptionalities as well as the evaluation, education, and interventions of and for children with special needs; and 3) help you use this information in order to be able to effectively intervene with children and families with special needs.

Pre-requisite: CLDP/PSY 2314, 3310, or 3339

Program-level learning objectives: After completing the course, students should be able to:

- 1.1 Describe and explain the nature of psychology as a specific discipline (within the context of special education);
- 3.2 Demonstrate how psychological principles can explain and inform clinical issues, social issues, organizational issues, educational issues, and public policy;
- 5.3 Develop meaningful professional direction for life after graduation.

Textbook: Heward, William L. (2013). *Exceptional Children: An Introduction to Special Education (Tenth Edition)*. Boston: Merrill (ISBN-10: 0-13-262616-0; ISBN-13: 978-0-13-262616-3).

Organization of class, attendance, and classroom environment: This course will be heavily based on the information provided by the textbook. However, we will occasionally view short video pieces in class and have guest lecturers who will provide supplemental information on various topics. During the lectures, I will emphasize key pieces of information important for you to know. In addition, I will frequently add my own contributions based on my clinical experience and knowledge of current research findings. Your knowledge and understanding of the information from all of these sources will be assessed through the scheduled exams. Therefore, it is imperative that you attend class. If for some reason you are unable to attend class, it is your responsibility to obtain notes for that lecture from one of your classmates. I will not provide lecture notes for anyone who is unable to attend class, regardless of the reason for missing class.

I will record attendance frequently but will not determine whether absences are excused/unexcused (except in the case of a missed exam). While your attendance does not necessarily have a direct bearing on your final course grade, it will have an impact when I make decisions about marginal point totals (defined as within 1 or 2 [of 400] points of the next higher letter grade). Students who have been recorded absent from lectures twice or less will have the opportunity to earn the next higher letter grade, in those cases of marginal point totals. No extra credit opportunities will be offered at any point.

We will typically meet twice a week for lectures, discussions, etc. The reading assignments for each meeting are indicated below. It will be important for you to have read the assignment *prior* to each class in order to get the most out of the lectures and discussions.

I encourage your active participation in class discussions. Please be on time to class. Exams will not be handed out later than 15 minutes past the time the exam begins. If you arrive late to class or need to leave before the end of class, please do so discretely. Be aware that important key pieces of information may be covered towards the end of class, so it is in your best interest not to leave early.

eLearning will be used throughout the semester for recording your grades, making class announcements, and providing supplemental materials. It is your responsibility to make sure you have access to eLearning.

Please do not make video and/or audio recordings of the lecture without permission. Video and/or audio recordings of class sessions made with or without permission may not be distributed in any way. This includes but is not limited to postings on the internet, websites, eLearning, or email.

Exams (75% of final grade): There will be three non-cumulative, equally weighted exams (each counting for 25% of your final grade). All exams will be in multiple choice and/or short-answer formats. For each exam, you must bring a Scantron Form 229630, a #2 pencil, and your UT Dallas Comet Card for identification. You will be required to show your UT Dallas Comet Card at either the beginning or end of each exam. All students are expected to take the exams at the scheduled times. Make-up exams will be given *only in the event of serious illness or some type of emergency situation* (e.g., death of a family member, car accident, etc.). In the event of such a serious illness or emergency situation, you are expected to contact me *prior* to the scheduled exam (or as soon afterwards as possible, given the circumstances) to notify me of your situation and to schedule a make-up exam. Documented evidence (e.g., doctor's note, copy of accident report, etc.) may be required. Whether or not a make-up exam will be allowed will ultimately be left to my discretion. Be aware that make-up exams will likely be in long-essay format. If you miss a scheduled exam, you will be required to take the make-up exam within one week of the originally scheduled exam time.

Paper (25% of final grade): Each student is required to select a single special needs area, research that special needs area, and write a 4 to 6 page paper covering that research. The following points should be covered:

- A. Define the characteristics of the special needs area
- B. Discuss the assessment and classification of the special needs area
- C. Give prevalence information
- D. Discuss etiologies
- E. Discuss educational and/or non-educational interventions
- F. Discuss current topics related to the special needs area

The bulk of your information should come from the textbook, although I encourage you to seek information from outside sources. You are *required* to use information from *at least two current research articles (published since January 2010) and incorporate that information into your paper*. A short list of references used will also be necessary. Do not include photocopies of any part of the research articles. You may use basic APA format when citing and listing references. Late papers will be penalized by 10% for each business day they are late (Monday through Friday are considered business days; Saturday and Sunday together will count as one business day for the purpose of this policy).

You must submit your paper via turnitin.com. The relevant class ID and enrollment password will be provided in class.

Grading: Absolutely no individualized extra credit will be given. Final grades are based on the following break-down:

Activity	Total Possible Points	Percentage of Final Grade	Final Letter Grade	Points Earned
Exam 1	100	25%	A+	386-400
Exam 2	100	25%	A	373-385
Exam 3	100	25%	A-	360-372
Paper	100	25%	B+	346-359
			B	333-345
Final grade	400	100%	B-	320-332
			C+	306-319
			C	293-305
			C-	280-292
			D+	266-279
			D	253-265
			D-	240-252
			F	<240

Class schedule and reading assignments:

5/27	Introduction to Class; Defining Special Education	Chapter 1
6/1	Planning and Providing Special Education Services	Chapter 2
6/3	Cultural Issues, Parents, and Families	Chapter 3 (pp. 82 – 99)
6/8	Cultural Issues, Parents, and Families (cont'd.)	Chapter 3 (pp. 100 – 117)
6/10	Early Childhood Special Education	Chapter 14
6/15	EXAM 1	
6/17	Communication Disorders	Chapter 8
6/22	Physical Disabilities and Health Impairments	Chapter 11 (pp. 376 – 390, 395 – 413)
6/24	Low Incidence Disabilities	Chapter 12
6/29	Deafness and Hearing Loss	Chapter 9
7/1	Blindness and Low Vision	Chapter 10
7/6	EXAM 2	
7/8	Intellectual Disabilities	Chapter 4
7/13	Giftedness and Talent	Chapter 13
7/15	Autism Spectrum Disorders	Chapter 7 (pp. 232 – 252)
7/20	Autism Spectrum Disorders (cont'd.); paper due	Chapter 7 (pp. 252 – 271)
7/22	Functional Behavioral Assessment	Supplemental reading on eLearning
7/27	Learning Disorders	Chapter 5
7/29	ADHD	Chapter 11 (pp. 390 – 395)
8/3	Emotional and Behavioral Disorders	Chapter 6
8/5	EXAM 3	

Student Conduct & Discipline

The University of Texas System and The University of Texas at Dallas have rules and regulations for the orderly and efficient conduct of their business. It is the responsibility of each student and each student organization to be knowledgeable about the rules and regulations which govern student conduct and activities. General information on student conduct and discipline is contained in the UTD publication, *A to Z Guide*, which is provided to all registered students each academic year.

The University of Texas at Dallas administers student discipline within the procedures of recognized and established due process. Procedures are defined and described in the *Rules and Regulations, Board of Regents, The University of Texas System, Part 1, Chapter VI, Section 3*, and in Title V, Rules on Student Services and Activities of the university's *Handbook of Operating Procedures*. Copies of these rules and regulations are available to students in the Office of the Dean of Students, where staff members are available to assist students in interpreting the rules and regulations (SU 1.602, 972-883-6391).

A student at the university neither loses the rights nor escapes the responsibilities of citizenship. He or she is expected to obey federal, state, and local laws as well as the Regents' Rules, university regulations, and administrative rules. Students are subject to discipline for violating the standards of conduct whether such conduct takes place on or off campus, or whether civil or criminal penalties are also imposed for such conduct.

Academic Integrity

The faculty expects from its students a high level of responsibility and academic honesty. Because the value of an academic degree depends upon the absolute integrity of the work done by the student for that degree, it is imperative that a student demonstrate a high standard of individual honor in his or her scholastic work.

Scholastic dishonesty includes, but is not limited to, statements, acts or omissions related to applications for enrollment or the award of a degree, and/or the submission as one's own work or material that is not one's own. As a general rule, scholastic dishonesty involves one of the following acts: cheating, plagiarism, collusion and/or falsifying academic records. Students suspected of academic dishonesty are subject to disciplinary proceedings.

Plagiarism, especially from the web, from portions of papers for other classes, and from any other source is unacceptable and will be dealt with under the university's policy on plagiarism (see general catalog for details). This course may use the resources of turnitin.com, which searches the web for possible plagiarism and is over 90% effective.

Email Use

The University of Texas at Dallas recognizes the value and efficiency of communication between faculty/staff and students through electronic mail. At the same time, email raises some issues concerning security and the identity of each individual in an email exchange. The university encourages all official student email correspondence be sent only to a student's U.T. Dallas email address and that faculty and staff consider email from students official only if it originates from a UTD student account. This allows the university to maintain a high degree of confidence in the identity of all individual corresponding and the security of the transmitted information. UTD furnishes each student with a free email account that is to be used in all communication with university personnel. The Department of Information Resources at U.T. Dallas provides a method for students to have their U.T. Dallas mail forwarded to other accounts.

Withdrawal from Class

The administration of this institution has set deadlines for withdrawal of any college-level courses. These dates and times are published in that semester's course catalog. Administration procedures must be followed. It is the student's responsibility to handle withdrawal requirements from any class. In other words, I cannot drop or withdraw any student. You must do the proper paperwork to ensure that you will not receive a final grade of "F" in a course if you choose not to attend the class once you are enrolled.

Student Grievance Procedures

Procedures for student grievances are found in Title V, Rules on Student Services and Activities, of the university's *Handbook of Operating Procedures*.

In attempting to resolve any student grievance regarding grades, evaluations, or other fulfillments of academic responsibility, it is the obligation of the student first to make a serious effort to resolve the matter with the instructor, supervisor, administrator, or committee with whom the grievance originates (hereafter called "the respondent"). Individual faculty members retain primary responsibility for assigning grades and evaluations. If the matter cannot be resolved at that level, the grievance must be submitted in writing to the respondent with a copy of the respondent's School Dean. If the matter is not resolved by the written response provided by the respondent, the student may submit a written appeal to the School Dean. If the grievance is not resolved by the School Dean's decision, the student may make a written appeal to the Dean of Graduate

or Undergraduate Education, and the dean will appoint and convene an Academic Appeals Panel. The decision of the Academic Appeals Panel is final. The results of the academic appeals process will be distributed to all involved parties.

Copies of these rules and regulations are available to students in the Office of the Dean of Students, where staff members are available to assist students in interpreting the rules and regulations.

Incomplete Grade Policy

As per university policy, incomplete grades will be granted only for work unavoidably missed at the semester's end and only if 70% of the course work has been completed. An incomplete grade must be resolved within eight (8) weeks from the first day of the subsequent long semester. If the required work to complete the course and to remove the incomplete grade is not submitted by the specified deadline, the incomplete grade is changed automatically to a grade of F.

Disability Services

The goal of the Office of Student AccessAbility is to provide students with disabilities educational opportunities equal to those of their non-disabled peers. Student AccessAbility is located in room 3.200 in the Student Services Building. Office hours are Monday through Thursday, 8:00 a.m. to 6:00 p.m., and Friday, 8:00 a.m. to 5:00 p.m.

The contact information for the Office of Student AccessAbility is:

UT Dallas Student AccessAbility
800 W. Campbell Rd., SSB32
Richardson, Texas 75083
972-883-2098 (voice or TTY)

Essentially, the law requires that colleges and universities make those reasonable adjustments necessary to eliminate discrimination on the basis of disability. For example, it may be necessary to remove classroom prohibitions against tape recorders or animals (in the case of dog guides) for students who are blind. Occasionally an assignment requirement may be substituted (for example, a research paper versus an oral presentation for a student who is hearing impaired). Classes enrolled with students with mobility impairments may have to be rescheduled in accessible facilities. The college or university may need to provide special services such as registration, note-taking, or mobility assistance.

It is the student's responsibility to notify his or her professors of the need for such an accommodation. Disability Services provides students with letters to present to faculty members to verify that the student has a disability and needs accommodations. Individuals requiring special accommodation should contact the professor after class or during office hours.

Religious Holy Days

The University of Texas at Dallas will excuse a student from class or other required activities for the travel to and observance of a religious holy day for a religion whose places of worship are exempt from property tax under Section 11.20, Tax Code, Texas Code Annotated.

The student is encouraged to notify the instructor or activity sponsor as soon as possible regarding the absence, preferably in advance of the assignment. The student, so excused, will be allowed to take the exam or complete the assignment within a reasonable time after the absence: a period equal to the length of the absence, up to a maximum of one week. A student who notifies the instructor and completes any missed exam or assignment may not be penalized for the absence. A student who fails to complete the exam or assignment within the prescribed period may receive a failing grade for that exam or assignment.

If a student or an instructor disagrees about the nature of the absence [i.e., for the purpose of observing a religious holy day] or if there is similar disagreement about whether the student has been given a reasonable time to complete any missed assignments or examinations, either the student or the instructor may request a ruling from the chief executive officer of the institution, or his or her designee. The chief executive officer or designee must take into account the legislative intent of TEC 51.911(b), and the student and instructor will abide by the decision of the chief executive officer or designee.

These descriptions and timelines are subject to change at the discretion of the Professor.
