Course Pre-requisites, Co-requisites, and/or Other Restrictions

Prerequisite: A SAT II Mathematics Level IC Test Score of at least 600, or two years of high school algebra, one year of high school geometry, trigonometry, or precalculus or MATH 2312 with a grade of at least C-.

Co-requisites: Students must be registered in one of the following problem sessions

Section			Day	Room	First Name	Last Name	Email
Math	2413	301	T : 8:00-9:50am	FN 2.202	Galappaththige	De Silva	grd160230@utdallas.edu
Math	2413	302	R : 8:00-9:50am	FN 2.202	Herath (Aruni)	Jayathilaka	hkj160130@utdallas.edu
Math	2413	303	T : 10:00-11:50am	FN 2.202	Mohammad	Patwary	msp160130@utdallas.edu
Math	2413	304	R : 10:00-11:50am	FN 2.202	Hongbo	Yang	hxy161230@utdallas.edu
Math	2413	305	T : 1:00-2:50pm	FN 2.202	Dongfang	Zhang	dxz151230@utdallas.edu
Math	2413	306	R : 1:00-2:50pm	FN 2.202	Dongfang	Zhang	dxz151230@utdallas.edu
Math	2413	307	T : 3:00-4:50pm	FN 2.202	Galappaththige	De Silva	grd160230@utdallas.edu
Math	2413	308	R : 3:00-4:50pm	FN 2.202	Herath (Aruni)	Jayathilaka	hkj160130@utdallas.edu

Math	2413	318	R: 8:00-9:50am	FN 2.104	<i>cancelled</i>		
Math	2413	319	T : 10:00-11:50am	CB3 1.310	Siyuan	Wang	swx161530@utdallas.edu
Math	2413	320	R: 10:00-11:50am	CB3 1.310	Siyuan	Wang	swx161530@utdallas.edu

Students must also be registered for the examination session Math 2413.701

- During problem session, the TA shall:
- review class material and relevant material from prerequisite courses
- return and discuss quizzes and exams
- work problems, or have students work problems
- entertain questions
- administer quizzes

Course Description

MATH 2413 - (**MATH 2413**) Differential Calculus (4 semester hours) Course covers topics in differential calculus of functions of one variable; topics include limits, continuity, derivative, chain rule, implicit differentiation, mean value theorem, maxima and minima, curve sketching, derivatives of inverse trigonometric functions, antiderivative, substitution method, and applications. Three lecture hours and two discussion hours a week; problem section required with **MATH 2413**, and will also be registered for exam section. Not all MATH/STAT courses may be counted toward various degree plans. Please consult your degree plan to determine the appropriate MATH/STAT course requirements. Prerequisite: A score of 70% on ALEKS math placement exam or a grade of at least a C- in **MATH 2312**. (3-2) S Credit given for only one of MATH 1325, MATH 2413 or MATH 2417.

Student Learning Objectives/Outcomes

- (1) Students will be able to formulate real world problems into mathematical statements.
 - Given a narrative description of a problem that lends itself to mathematical analysis, the student will clearly define any variable quantities introduced and provide an appropriate equation, function, or formula relating those variables.
- (2) Students will be able to develop solutions to mathematical problems at the level appropriate to each course.
 - Given a limit statement of indeterminate form, the student will be able to apply appropriate algebraic or calculus based techniques to compute the limit.

- Given a function, the student will be able to compute a first or second order derivative and, if instructed, evaluate the derivative at a point in its domain.
 - Given a function, the student will be able to compute an antiderivative or a definite integral of the function.
- (3) Students will be able to describe or demonstrate mathematical solutions either numerically or graphically.
- Students shall provide a qualitative, planar sketch which clearly indicates prescribed attributes.
 - Students will provide numerical results in a prescribed manner, as a percent, an interval, or with specified accuracy.

Mathematics is referred to as the language of science. As with any language, the more time you spend with it, the more proficient you become at reading and writing it. A long held rule of thumb for learning mathematics is to spend approximately 3 hours outside of class developing your mathematical knowledge and skills for every hour spent in class. Thus, in MATH 2413, one should expect to spend at least 9-12 hours studying each week. Weekly assignments are designed to keep you current with the material and for most students, the assignments will consume this number of hours.

Textbook and Materials

Text: *Calculus, Early Transcendentals* 8th Edition, Stewart

Digital: *Webassign Access*

Options:

1. ENHANCED WEBASSIGN (Access Code Only) ISBN: [9781285858265](https://www.wiley.com/go/9781285858265)
Contains a digital copy of the text
2. CALCULUS EARLY TRANSCENDENTALS, 7E LOOSE-LEAF with Webassign access and E-book ISBN: [9781305616691](https://www.wiley.com/go/9781305616691)
3. CALCULUS EARLY TRANSCENDENTALS, 7E Hard bound with Webassign access and E-book ISBN: [9781305597624](https://www.wiley.com/go/9781305597624)

Course Materials

Solutions manual: The Student Solutions Manual is recommended and available in the bookstore.

Calculators: A scientific calculator is recommended. Graphing calculators, programmable calculators, or calculators with non-numeric displays or calculators with calculus operations are NOT ALLOWED on quizzes or exams.

Additional Resources

URL: <http://elearning.utdallas.edu> requires your NETID and password to logon. Once logged in, select this course. If successful, you will see a link to the complete syllabus and a blue backpack which contains additional course material. You can view your grades, use the email tool, or utilize the discussion tool to communicate with your classmates. You will receive a notice via elearning (either an announcement, or an email) if there is additional information, exam date/location change, etc, or an urgent message, class canceled, etc, that directly impacts this course. Should a personal situation arises that you feel your instructor needs to be aware of, send that information via his/her preferred method of contact.

The Student Success Center **Math Lab** offers *free* help in math, physics and statistic courses to UT Dallas students currently enrolled in classes. Location and hours of operation can be found at www.utdallas.edu/mathlab.

Students can:

- Drop by the Walk-in Lab in MC 3.606
- Call to make an appointment at 972-883-6707
- Attend Exam Reviews. The schedule of reviews is available [here](#).
- Contact the Math Lab with questions or comments: mathlab@utdallas.edu

Academic Calendar

1/27	Last day to add/swap a course
1/25	Last day to drop without record. 1/25 census day
3/27	Last day to withdraw from a class with signature(s).

Exam 1: February 9, 2017 Thurs: 7:00pm-8:15pm GR 3.420, GR 4.428, SLC 1.102, SLC 2.303

Exam 2: March 9, 2017 Thurs: 7:00pm-8:15pm GR 3.420, GR 4.428, SLC 1.102, SLC 2.303

Exam 3: April 13, 2017 Thurs: 7:00pm-8:15pm GR 3.420, GR 4.428, SLC 1.102, SLC 2.303

Final Exam: May 4, 2017 Thurs: 8:00 pm-10:45pm, GR 3.420, GR 4.428, SLC 1.102, SLC 2.303

Schedule (subject to change)

Wk	Sun	Mon	Lecture	Wed	Lecture	Fri	Lecture	Pb Section	Exams
1		1/9	Introduction, Syllabus, Topics from Ch 1	1/11	Topics from Ch 1	1/13	Topics from Ch 1 Section: 2.1	review

									Thurs 5/4 Final Exam 8-10:45pm

Grade Policy

The course grade is determined from the following:

14 Digital Homework sets
13 Graded Homework sets
10 Quizzes
3 major exams
Comprehensive Final Exam

Weights:	10%	Digital Homework Sets
Sets	15%	Written Homework
	15%	Quizzes
	36%	Major exams
	24%	Final Exam

Grade Scale	[96.6,100]...A+	[93.3,96.6).....A	[90,93.3).....A-
	[86.6,90).....B+	[83.3,86.6).....B	[80,83.3).....B-
	[76.6,80).....C+	[73.3,76.6).....C	[70,73.3).....C-
	[66.6,70).....D+	[63.3,66.6).....D	[60,63.3).....D-
	[0,60).....F		

- **Digital Homework** : There will be 14 sets for grades, DHW1 through DHW14 will be used in your grade calculation. The DHW percent will be based on 12 scores. The two lowest scores from DHW1-DHW13 will be dropped (***DHW14 will not be dropped.***) The assignments will be generated using WebAssign. Each assignment will be posted no later than Tuesday afternoon and you will have until 11:59 pm of the following Sunday to complete the assignment. See schedule for due dates, these are indicated by DHW#. WebAssign contains an equation editor, which allows you to present your solutions in a mathematically correct form--beware parentheses. Once you submit a solution, it is graded immediately - - for some problems you will have multiple attempts at the solution, for others only one attempt. Assignment grades will be transferred to elearning--there will be NO late digital homework.

To gain access to WebAssign

1. Log into elearning, and select MATH 2413 701: DIFFERENTIAL CALCULUS – S17
2. Select “Access WebAssign”
3. On the next page, you will have 3 options.
 - a) “Purchase access online” if you do not already have an access code and you want to buy access to the ebook and homework problems without printed text
 - b) “Enter an access code” if you have already purchased an access code
 - c) “Continue my trial period” if you want to start using the system before purchasing. The deadline is given in red.

- **Graded Homework**: There will be 13 homework sets to be turned in for grading. The number of problems in each set will vary with the material covered. The number of problems that will be graded in each set will vary between 4 and 7. The GHW percent will be based on 11 scores. The two lowest scores from GHW1 – GHW12 will be dropped (***GHW13 will not be dropped***).

The homework sets will be made available via elearning, generally by Tuesday of the week before they are due. Print the pdf file (2 sided is fine) and present your work for each problem in the space provided.

If there are multiple pages, they are to be stapled together before you turn them in.

If the header information is not filled out correctly you will lose 10% of the possible points. Your work is to be complete, written with proper mathematical notation, and logical flow. Presentation is valued at 15% of the possible points--be neat! Graded homework is to be submitted within the first 10 minutes of lecture

on the due date. If you turn your paper in after the first 10 minutes and before the class ends, you automatically lose 10% of the points. Homework will not be accepted after the lecture is over, no exceptions. Homework will be returned during problem section. If the return window is missed, it is the students' responsibility to make arrangements to pick up the document. Homework sets that have not been picked up by the date of the exam which covers that material will be destroyed the day after the exam

- **Quizzes** Each quiz will be administered in the problem session during the weeks identified in the schedule. They will be returned to you at the next meeting of your problem session. The Quiz percent will be based on 8 scores. The 1 lowest score from Qz1 – Qz9 will be dropped (*Qz 10 will not be dropped*). There will be no quiz during an exam week.

- **Major exams** constitute 36% of your course grade and are weighted as follows. The lowest exam score is valued at 10%, the highest at 14%, the intermediate score at 12% . Each major exam will occur at the time and date specified on the schedule. The location will be announced in class and posted on elearning. Graded exams will be returned during problem session.

- The **Final exam** is not optional, is comprehensive, and constitutes 24% of your course grade. Final exams are not returned to the student but are held for review for one year.

Course & Instructor Policies

Attendance: Daily attendance will be taken.

Citizenship: Any action that disturbs your classmates or interrupts the lecture is unacceptable. Examples of such actions are:

- Entering the classroom late - be punctual
- Leaving the classroom before break or before the end of lecture.
- Cell phones, ringers, buzzers, beepers, alarms, blackberries, Ipods etc - turn them off! unless you are a member of an emergency response team.
- Open laptops

An apology is expected from anyone creating such a disturbance.

Student participation in class is desired, however, please raise your hand to speak and avoid having side conversations with your classmates.

There will be **no extra credit**

Exam/Quiz policies

- There will be no make-up quizzes.
- There will be no make-up exams unless the circumstances are extraordinary.
- Exams and quizzes are closed book, without notes, and without graphing calculators.
- SHOW ALL WORK on quizzes and exams. Unsupported answers will receive little or no credit. Graded quizzes and major exams will be returned to you as soon as possible. Any document not picked up by the end of finals week will be destroyed.

Text Assignments (subject to change)

Technical Support

If you experience any problems with your UTD account you may send an email to:
assist@utdallas.edu or call the UTD Computer Helpdesk at 972-883-2911.

Intercollegiate Competitions

Students involved in a UTD sanctioned competitive activity must supply the instructor with a letter certifying his/her eligibility to participate in such a competition. Said letter may be obtained from the Intercollegiate Compliance Officer. It is the students' responsibility to discern scheduling conflicts and to inform the instructor well in advance of a class, quiz, or exam that will be missed due to a competition. The instructor will make reasonable accommodation to resolve the conflict.

The complete syllabus is available in coursebook

Field Trip Policies, Off-campus Instruction, and Course Activities

Off-campus, out-of-state, and foreign instruction and activities are subject to state law and University policies and procedures regarding travel and risk-related activities. Information regarding these rules and regulations may be found at the website address

http://www.utdallas.edu/BusinessAffairs/Travel_Risk_Activities.htm. Additional information is available from the office of the school dean. Below is a description of any travel and/or risk-related activity associated with this course.

Student Conduct & Discipline

The University of Texas System and The University of Texas at Dallas have rules and regulations for the orderly and efficient conduct of their business. It is the responsibility of each student and each student organization to be knowledgeable about the rules and regulations which govern student conduct and activities. General information on student conduct and discipline is contained in the UTD printed publication, *A to Z Guide*, which is provided to all registered students each academic year.

The University of Texas at Dallas administers student discipline within the procedures of recognized and established due process. Procedures are defined and described in the *Rules and Regulations, Series 50000, Board of Regents, The University of Texas System*, and in Title V, Rules on Student Services and Activities of the university's *Handbook of Operating Procedures*. Copies of these rules and regulations are available to students in the Office of the Dean of Students, where staff members are available to assist students in interpreting the rules and regulations (SU 1.602, 972/883-6391) and online at <http://www.utdallas.edu/judicialaffairs/UTDJudicialAffairs-HOPV.html>

A student at the university neither loses the rights nor escapes the responsibilities of citizenship. He or she is expected to obey federal, state, and local laws as well as the Regents' Rules, university regulations, and administrative rules. Students are subject to discipline for violating the standards of conduct whether such conduct takes place on or off campus, or whether civil or criminal penalties are also imposed for such conduct.

Sharing Confidential Information

Students considering sharing personal information in email, in person, or within assignments or exams should be aware that faculty members and teaching/research assistants are required by UT Dallas policy to report information about sexual misconduct to the UT Dallas Title IX Coordinator. Per university policy, faculty have been informed that they must identify the student to the UT Dallas Title IX Coordinator. Students who wish to have confidential discussions of incidents related to sexual harassment or sexual misconduct should contact the Student Counseling Center (972-883-2527 or after hours 972-UTD-TALK or 972-883-8255), the Women's Center (972-883-8255), a health care provider in the Student Health Center (972-883-2747), the clergyperson (or other legally recognized religious advisor) of their choice, or an off-campus

resource (i.e., rape crisis center, doctor, psychologist). Students who are sexually assaulted, harassed, or victims of sexual misconduct, domestic violence, or stalking, are encouraged to directly report these incidents to the UT Dallas Police Department at 972-883-2222 or to the Title IX Coordinator at 972-883-2218. Additional information and resources may be found at <http://www.utdallas.edu/oiec/title-ix/resources>.

Campus Carry

The University's concealed handgun policy is posted on the campus carry website: <https://www.utdallas.edu/campuscarry/>

Academic Integrity

The faculty expects from its students a high level of responsibility and academic honesty. Because the value of an academic degree depends upon the absolute integrity of the work done by the student for that degree, it is imperative that a student demonstrate a high standard of individual honor in his or her scholastic work.

Scholastic Dishonesty, any student who commits an act of scholastic dishonesty is subject to discipline. Scholastic dishonesty includes but is not limited to cheating, plagiarism, collusion, the submission for credit of any work or materials that are attributable in whole or in part to another person, taking an examination for another person, any act designed to give unfair advantage to a student or the attempt to commit such acts.

Plagiarism, especially from the web, from portions of papers for other classes, and from any other source is unacceptable and will be dealt with under the university's policy on plagiarism (see general catalog for details). This course will use the resources of turnitin.com, which searches the web for possible plagiarism and is over 90% effective.

Copyright Notice

The copyright law of the United States (Title 17, United States Code) governs the making of photocopies or other reproductions of copyrighted materials, including music and software. Copying, displaying, reproducing, or distributing copyrighted works may infringe the copyright owner's rights and such infringement is subject to appropriate disciplinary action as well as criminal penalties provided by federal law. Usage of such material is only appropriate when that usage constitutes "fair use" under the Copyright Act. As a UT Dallas student, you are required to follow the institution's copyright policy (Policy Memorandum 84-I.3-46). For more information about the fair use exemption, see <http://www.utsystem.edu/ogc/intellectualproperty/copypol2.htm>

Email Use

The University of Texas at Dallas recognizes the value and efficiency of communication between faculty/staff and students through electronic mail. At the same time, email raises some issues concerning security and the identity of each individual in an email exchange. The university encourages all official student email correspondence be sent only to a student's U.T. Dallas email address and that faculty and staff consider email from students official only if it originates from a UTD student account. This allows the university to maintain a high degree of confidence in the identity of all individual corresponding and the security of the transmitted information. UTD furnishes each student with a free email account that is to be used in all communication with university personnel. The Department of Information Resources at U.T. Dallas provides a method for students to have their U.T. Dallas mail forwarded to other accounts.

Withdrawal from Class

The administration of this institution has set deadlines for withdrawal of any college-level courses. These dates and times are published in that semester's course catalog. Administration procedures

must be followed. It is the student's responsibility to handle withdrawal requirements from any class. In other words, I cannot drop or withdraw any student. You must do the proper paperwork to ensure that you will not receive a final grade of "F" in a course if you choose not to attend the class once you are enrolled.

Student Grievance Procedures

Procedures for student grievances are found in Title V, Rules on Student Services and Activities, of the university's *Handbook of Operating Procedures*.

In attempting to resolve any student grievance regarding grades, evaluations, or other fulfillments of academic responsibility, it is the obligation of the student first to make a serious effort to resolve the matter with the instructor, supervisor, administrator, or committee with whom the grievance originates (hereafter called "the respondent"). Individual faculty members retain primary responsibility for assigning grades and evaluations. If the matter cannot be resolved at that level, the grievance must be submitted in writing to the respondent with a copy of the respondent's School Dean. If the matter is not resolved by the written response provided by the respondent, the student may submit a written appeal to the School Dean. If the grievance is not resolved by the School Dean's decision, the student may make a written appeal to the Dean of Graduate or Undergraduate Education, and the dean will appoint and convene an Academic Appeals Panel. The decision of the Academic Appeals Panel is final. The results of the academic appeals process will be distributed to all involved parties.

Copies of these rules and regulations are available to students in the Office of the Dean of Students, where staff members are available to assist students in interpreting the rules and regulations.

Incomplete Grade Policy

As per university policy, incomplete grades will be granted only for work unavoidably missed at the semester's end and only if 70% of the course work has been completed. An incomplete grade must be resolved within eight (8) weeks from the first day of the subsequent long semester. If the required work to complete the course and to remove the incomplete grade is not submitted by the specified deadline, the incomplete grade is changed automatically to a grade of **F**.

Student AccessAbility

The University of Texas at Dallas is committed to equal access to educational, recreational and social endeavors for students with disabilities. The primary function of the Office of Student Accessibility (OSA) is to provide:

- Academic accommodations for eligible students with a documented physical, mental or sensory disability.
- Facilitation of non-academic and environmental accommodations and services.
- Resources and referral information, and advocacy support as necessary and appropriate.

Academic accommodations for each student are determined by OSA on an individual basis, with input from qualified professionals. Accommodations are intended to level the playing field for students with disabilities, while maintaining the academic integrity and standards set by the University.

Religious Holy Days

The University of Texas at Dallas will excuse a student from class or other required activities for the travel to and observance of a religious holy day for a religion whose places of worship are exempt from property tax under Section 11.20, Tax Code, Texas Code Annotated.

The student is encouraged to notify the instructor or activity sponsor as soon as possible regarding the absence, preferably in advance of the assignment. The student, so excused, will be allowed to take the exam or complete the assignment within a reasonable time after the absence: a period equal to the length of the absence, up to a maximum of one week. A student who notifies the instructor and completes any missed exam or assignment may not be penalized for the absence. A student who fails to complete the exam or assignment within the prescribed period may receive a failing grade for that exam or assignment.

If a student or an instructor disagrees about the nature of the absence [i.e., for the purpose of observing a religious holy day] or if there is similar disagreement about whether the student has been given a reasonable time to complete any missed assignments or examinations, either the student or the instructor may request a ruling from the chief executive officer of the institution, or his or her designee. The chief executive officer or designee must take into account the legislative intent of TEC 51.911(b), and the student and instructor will abide by the decision of the chief executive officer or designee.

These descriptions and timelines are subject to change at the discretion of the Professor.
