**Course Description**

**ECSC 2100 - Engineering Projects in Community Service** (1 semester credit hour) This is a design course in which multidisciplinary teams will solve engineering-based problems for the local community. Students will learn the complete design process, awareness of the customer in engineering design, active use of rapid prototyping tools, leadership and project management skills, communication skills, and more. This course will include lectures and instruction in UTDesign Studio

Prerequisite: None

#### **Learning Outcomes**

- Students will acquire the ability to apply material from their discipline to the design of community based projects
- Students will gain an understanding of design as a start-to-finish process
- Students will gain the ability to identify and acquire new knowledge as a part of the problem solving/design process
- Students will learn to form an awareness of the customer's needs
- Students will function on multidisciplinary teams and learn to form appreciation for the contributions from individuals from multiple disciplines
- Students will communicate effectively both orally and written with widely-varying backgrounds
- Students will demonstrate an awareness of professional ethics and responsibility

- Students will build an appreciation of the role that their discipline can play in social contexts

**Required Texts & Materials**      NA

<b>Academic Integrity</b>	<p>The faculty expects from its students a high level of responsibility and academic honesty. Because the value of an academic degree depends upon the absolute integrity of the work done by the student for that degree, it is imperative that a student demonstrate a high standard of individual honor in his or her scholastic work.</p> <p>Scholastic dishonesty includes, but is not limited to, statements, acts or omissions related to applications for enrollment or the award of a degree, and/or the submission as one's own work or material that is not one's own. As a general rule, scholastic dishonesty involves one of the following acts: cheating, plagiarism, collusion and/or falsifying academic records. Students suspected of academic dishonesty are subject to disciplinary proceedings.</p> <p>Plagiarism, especially from the web, from portions of papers for other classes, and from any other source is unacceptable and will be dealt with under the university's policy on plagiarism (see general catalog for details). This course will use the resources of turnitin.com, which searches the web for possible plagiarism and is over 90% effective.</p> <p><a href="http://www.utdallas.edu/deanofstudents/integrity/">http://www.utdallas.edu/deanofstudents/integrity/</a>  <a href="http://www.utdallas.edu/deanofstudents/bigfour/">http://www.utdallas.edu/deanofstudents/bigfour/</a></p> <p><b>We take this very seriously. Any case of suspected cheating or plagiarizing will be referred to Judicial Affairs. Previous students in this course copied material from websites without attribution and received a 0 on their final report (10% of the grade).</b></p>
<b>Comet Creed</b>	<p><i>This creed was voted on by the UT Dallas student body in 2014. It is a standard that Comets choose to live by and encourage others to do the same:</i></p> <p><i>"As a Comet, I pledge honesty, integrity, and service in all that I do."</i></p>
