Course Pre-requisites, Co-requisites, and/or Other Restrictions

Art of Scientific Presentation.

Course Description

Effective communication of research is an essential skill for scientists. This course will provide opportunities for students to describe their ongoing research activities in an oral presentation.

Student Learning Objectives/Outcomes

Students will improve their ability to communicate scientific concepts and experimental approaches employed in their research activities through oral presentations.

Required Textbooks and Materials

No textbooks.

Course materials will be primary research articles.

Assignments & Academic Calendar

(Topics, Reading Assignments, Due Dates, Exam Dates)

The students are expected to actively participate in the discussions and to raise questions about the research area being presented. The students will participate in assessing the presenter's performance and to provide constructive feedback after each presentation.

Grading Policy

The course is graded as PASS or FAIL.

Attendance and presentation is required for PASS. Absence of more than **three** classes or failure to make the required oral presentation will result in a failing grade.

Course & Instructor Policies

(make-up exams, extra credit, late work, special assignments, class attendance, classroom citizenship, etc.)

Regular and punctual attendance is expected and required of students. Attendance will be taken. Students will be required to sign-in at the beginning of each class.
